Using Superheroes in Counseling and Play

Therapy Lawrence C. Rubin, PhD, LMHC, RPT-S, 2006-12-20 Harness the Therapeutic Power of the Superhero! Application of the Star Wars Adoption Narrative Emotional Literacy and the Incredible Hulk Batman and Trauma What Would Superman Do--An Adlerian Approach? With an incisive historical foreword by John Shelton Lawrence and insight from contributors such as Michael Brody, Patty Scanlon, and Roger Kaufman, Lawrence Rubin takes us on a dynamic tour of the benefits of using these icons of popular culture and fantasy in counseling and play therapy. Not only can superheroes assist in clinical work with children, but Rubin demonstrates how they can facilitate growth and change with teen and adults. Early childhood memories of how we felt pretending to have the power to save the world or our families in the face of impending danger still resonate in our adult lives, making the use of superheroes attractive as well, to the creative counselor. In presenting case studies and wisdom gleaned from practicing therapists' experience, Lawrence Rubin shows how it is possible to uncover children's secret identities, assist treatment of adolescents with sexual behavior problems, and inspire the journey of individuation for gay and lesbian clients, all by paying attention to our intrinsic social need for superhero fantasy and play.

Children and Screen Media in Changing Arab Contexts

Tarik Sabry, Nisrine Mansour, 2019-03-20 Using a phenomenological and multi-sited ethnographic approach, this book focuses on children's uses of digital media in three sites—London, Casablanca and Beirut—and situates the study of Arab children and screen media within a wider frame, making connections between local, regional and

global media content. The study moves away from a conventional definition of media towards a pluralistic interpretation, and provides key ethnographic findings that reveal how the notion of home is extended across everyday spaces that children occupy. Exploring the relationship between children and media outside of the subject-object hierarchy, it re-connects them in a horizontal mapping of affectivity and intimacy. This book will appeal to scholars specializing in children and the media, digital media, media and cultural studies, media anthropology, philosophy and Middle Eastern studies.

Men to Boys Gary S. Cross, 2010 Men today delay marriage and responsibility deep into their 20s or 30s, preferring instead to hold fast to the pleasures of youth. Instead of blaming the young or glorifying the past, Cross studies the attitudes and cultures of three generations of men, linking their rebellion against maturity to parallel shifts in American culture.

Manifesto, Volume I Joseph Alberts,

Starting School Liz Brooker, 2002-04-16 This is a unique portrait of a group of working-class families whose 4 year old children start school on the cusp of the millenium in urban Britain. It is a brilliant analysis of ways in which parents, children and teachers strive to cross cultural and linguistic boundaries to come to a common understanding of 'school'. Beautifully written, it is essential reading for all involved in the education of young children.

- Eve Gregory, Professor of Language and Culture in Education, Goldsmiths, University of London. This book will challenge and support practitioners in their quest to improve early childhood practice. The use of theory is 'friendly' and the real-life examples of the experiences of young children and their parents really bring home to the reader the experience of inequality. Readers will rarely find a book which expresses the complexity of educational experience in such an accessible form. This is a valuable book for every level of early years training.

- Iram Siraj-Blatchford, Professor of Early Childhood Education, Institute of Education, University of London. How does the home experience of children from poor and ethnic minority communities influence their adaptation to school? How does the traditional 'child-centred' and progressive pedagogy of early years classrooms meet the needs of children from culturally diverse backgrounds? Starting School seeks to address these key questions by tracing the learning experiences of individual children from a poor inner-urban neighbourhood - half of them from Bangladeshi families - as they acquire the knowledge appropriate to their home culture and then take this knowledge to their reception class. The book highlights the small differences in family life - in parenting practices, in perspectives on childhood, and in beliefs about work and play - which make a big difference to children's adaptations to school. In other words, it shows how children succeed and fail from their early days at school. It shows too how the 'good intentions' of good teachers can sometimes allow children from certain backgrounds to become disaffected, and learn to fail; and it suggests ways of working with children from working class and multicultural families which may help both children and parents to gain a better understanding of school learning in the UK.

P. Veena Rao,

You Can't Play With Us! Rhys Clarkson, 2021-05-28

Bam and Jam are big dogs with even bigger hearts. All they want in life is to make friends and be happy, but life isn't always easy... Join Bam and Jam on their adventures as they face the many daily struggles of being a little bit different. There are a great many activities and social settings or requirements that are inaccessible to some, either through their own fears or factors out of their control. Now though, we're living in a moment where kindness, empathy and inclusion are being talked about more than ever before; but it's important that these conversations lead to change. Even if that's just within our own home or school environments at first. While on the surface *The Adventures of Bam and Jam* may only appear to deliver a simple lesson, there's a message in each story that runs deeper and is widely transferrable to many aspects of our lives. I try to shed light on situations great and small that we will all be faced with - or have faced previously - as seen in *You Can't Play With Us!* Something as seemingly straightforward as making friends is often quite the opposite, emphasising the importance of understanding inclusion from an early age. Books can be an excellent tool for teaching and building a basic understanding of larger issues. However more than that, children - and parents - often find comfort within their pages. I hope these stories (most based on genuine experience) will serve as both entertaining and educational. Not just for children but dog owners too!
