Helen Tarrant

Cashup Davis Jeff Burnside, Gordon W. Davis, 2023-12-01 Enamored by the western frontier, British immigrant Cashup Davis, his wife Mary Ann, and nine children became one of the first white families to settle on the Palouse's spectacular rolling hills in eastern Washington Territory. Living at first in a simple sod house, they turn their bunchgrass acreage into a farm, befriend Native Americans during a war ignited by the U.S. government's treaty violations, and eventually open an immensely popular and prosperous stagecoach stop. But Cashup has another dream: he is resolutely determined to build a grand luxury hotel on one of the region's highest points, the summit of Steptoe Butte. People tell him it is a ridiculous idea, but Cashup never listens to the doubters. He's brash, confident, and ever so charming. The story is told through the eyes of his great-grandson, Gordon Davis, who views Cashup as the secret mentor he never met. As Gordon has achieved success in his life and turned to philanthropy, he has sought to better understand his own good fortune by delving into his great-grandfather's astonishing past. Cashup's life prompts questions that are still relevant today: What is real success? Does it blind people to other joys in life? How should people balance risk and reward? Cashup's hotel opened on July 4, 1888, and he became one of Washington's first national celebrities. But no one--especially Gordon--expected what happened next.

Cash Out Greg Bardsley, 2012-10-16 "Cash Out is one of those novels that begs for more adjectives: relentless, madcap, polished, lean, vivid, warped, original, horrifying and hilarious in equal measure." –Marcus Sakey, author of *The Two Deaths of Daniel Hayes* and *The Amateur* Imagine a story by Ben Mezrich (*The Accidental Billionaires*, 21) of staggering financial improprieties infused with Tim Dorsey's (*Hurricane Punch*, *Gator A-Go-Go*) zany, over-the-top pure insanity, and you might have something somewhat resembling *Cash Out*, the rollicking debut novel by Greg Bardsley. This is nonstop, mercilessly hilarious, no-holds-barred fiction for fans of *The Hangover* and *Office Space*—an outrageous tall tale that follows one desperate, disgruntled Silicon Valley exec through a his surreal three-day scramble to cash out his stock options and leave behind his hated high-tech job before outrageous villains (and even crazier friends) completely destroy him. Do you like the wildly satirical work of Tom Perrotta, Sam Lipsyte, and Gary Shteyngart? Do the ingenious comic caper novels of Elmore Leonard leave you breathless and exhilarated? Then get ready to *Cash Out*.

Money Jacob Goldstein, 2020-09-08 The co-host of the popular NPR podcast Planet Money provides a well-researched, entertaining, somewhat irreverent look at how money is a made-up thing that has evolved over time to suit humanity's changing needs. Money only works because we all agree to believe in it. In Money, Jacob Goldstein shows how money is a useful fiction that has shaped societies for thousands of years, from the rise of coins in ancient Greece to the first stock market in Amsterdam to the emergence of shadow banking in the 21st century. At the heart of the story are the fringe thinkers and world leaders who reimagined money. Kublai Khan, the Mongol emperor, created paper money backed by nothing, centuries before it appeared in the west. John Law, a professional gambler and convicted murderer, brought modern money to France (and destroyed the country's economy). The cypherpunks, a group of radical libertarian computer programmers, paved the way for bitcoin. One thing they all realized: what counts as money (and what doesn't) is the result of choices we make, and those choices have a profound effect on who gets more stuff and who gets less, who gets to take risks when

times are good, and who gets screwed when things go bad. Lively, accessible, and full of interesting details (like the 43-pound copper coins that 17th-century Swedes carried strapped to their backs), Money is the story of the choices that gave us money as we know it today.

Money, Going out of style Zvi Schreiber, 2021-08-15 What is money? Why are trillions of dollars, euros, pounds, and yen being printed, but not spent, and what does this reveal about the state of our society? Money, as we know it, was born in 1971 when currencies unlinked from gold. During its adolescence, money was hyperactive, causing rampant inflation. Three decades of mature growth followed. But as it reaches the age of fifty, money is changing again, and facing a figurative mid-life crisis. *Money: Going Out of Style* first offers the reader a clear understanding of economics and the role of money, by following a fictional island tribe as they develop money and an ever more sophisticated economy. The book never forgets that money is secondary to the real economy of goods, services, and tools. Armed with this deeper appreciation of money and economics, the book returns to the present day to examine money's midlife crisis: the effect of rising inequality, the puzzle of near-zero interest rates, and how this is causing money to go out of style.

Isn't It Their Turn to Pick Up the Check? Jeanne Fleming, Leonard Schwarz, 2010-05-11 Your next-door neighbor's two-year-old broke your most expensive vase, and your neighbor hasn't offered to replace it. Your best friend expects you to shop at the boutique she just opened, though her very pricey clothes look terrible on you. And your sister says she needs \$1,500 to send her child to creativity camp, but you think what your sister needs is a job. What do you do? Such tricky and emotionally charged dilemmas involving

money are ubiquitous. Yet few of us know how to handle them. In *Isn't It Their Turn to Pick Up the Check?* Jeanne Fleming and Leonard Schwarz - the authors of the enormously popular *Do the Right Thing* column in *Money* magazine and the blog of the same name on CNNMoney.com - dissect a host of thorny, sometimes comic, inevitably awkward, and frequently infuriating money-and-ethics problems that arise among friends, relatives and neighbors. Here's just a sample of the situations they respond to: Who gets Grandma's jewelry? I lent money to my niece, and now my brother wants a loan. My rich friend keeps encouraging me to do things I can't afford. Our brother is stealing our inheritance. Our freeloading friends are driving us crazy. I just made a bundle of money, and I don't want my family to know. Fleming and Schwarz also report on the results of two groundbreaking surveys designed to illuminate the money-and-ethics problems we confront every day. The surveys reveal, for example, just how many of us have a friend or relative who's a freeloader or a deadbeat; how common we believe it is for someone to lie, cheat, or pretend to be loving in order to be in someone else's will; and the percentage of men - compared with women - who say you should never marry someone who is deeply in debt, no matter how much you love them. *Isn't It Their Turn to Pick Up the Check?* offers a fascinating tour of the secret life of other people's money disputes and delivers witty, down-to-earth money advice for dealing with all the maddening problems any one of us could confront at any time.
