Osceola's Revenge: The Phenomena of Indian Casinos Gary Green,2018-01-09 What is the inside behind-the scenes story of Indian Casinos? More money than Las Vegas, more visitors than Disney World, and operating as sovereign nations exempt from all state civil law and many criminal laws; what is the“inside scoop”? This is the only authoritative exploration of these multi-billion dollar enterprises; written by a genuine insider: the casino “guru” who has developed, operated, managed, and marketed

Indian casinos all over the country. With unprecedented access to and cooperation from Tribes, the casinos, the staffs, the regulators, the lawyers, and the financiers, the author (see “About the Author”) is also an award-winning newspaper journalist with the writing credentials (and chops) to clearly present the subject. With insider information, clear explanations, participation from Tribal officials, and authoritative revelations, the book is presented in story-progression form of how Indian casinos collectively generated more revenue last year than Microsoft and Google combined.

Game Preview Nicolae Sfetcu, 2014-05-04 A guide for game preview and rules: history, definitions, classification, theory, video game consoles, cheating, links, etc. While many different subdivisions have been proposed, anthropologists classify games under three major headings, and have drawn some conclusions as to the social bases that each sort of game requires. They divide games broadly into, games of pure skill, such as hopscotch and target shooting; games of pure strategy, such as checkers, go, or tic-tac-toe; and games of chance, such as craps and snakes and ladders. Bingo! Nicolae Sfetcu,2014-04-18 A short guide about what is and how to play bingo, the game in United Kingdom, and its ,ajor variations. Since its invention in 1934, modern bingo has evolved into multiple variations, with each jurisdiction's gambling laws regulating how the game is played. There are also nearly unlimited patterns that may be specified for play. Some patterns only require one number to be matched, up to cover-all games which award the jackpot for covering an entire card and certain games award prizes to players for matching no numbers or achieving no pattern. Bingo is often used as an instructional tool in American primary schools and in teaching English as a foreign language in many countries. It became increasingly more popular across the UK with more purpose-built bingo halls. Keno is an important variation of bingo game, often played at modern casinos, and also offered as a game in some state lotteries. Scratchcard is another major variation. The scratchcard is a small token, usually made of cardboard, where one or more areas contain concealed information: they are

covered by a substance (usually latex) that cannot be seen through, but can be scratched off.
