Under Siege Jasmin Zine, 2022-04-05 The 9/11 attacks in the United States, the subsequent global "war on terror," and the proliferation of domestic security policies in Western nations have had a profound impact on the lives of young Muslims, whose identities and experiences have been shaped within and against these conditions. The millennial generation of Muslim youth has come of age in these turbulent times, dealing with the aftermath and backlash associated with these events. *Under Siege* explores the lives of Canadian Muslim youth belonging to the 9/11 generation as they navigate these fraught times of global war and terror. While many studies address contemporary manifestations of Islamophobia and anti-Muslim racism, few have focused on the toll this takes on Muslim communities, especially among younger generations. Based on in-depth interviews with more than 130 young people, youth workers, and community leaders, Jasmin Zine's ethnographic study unpacks the dynamics of Islamophobia as a system of oppression and examines its impact on Canadian Muslim youth. Covering topics such as citizenship, identity and belonging, securitization, radicalization, campus culture in an age of empire, and subaltern Muslim counterpublics and resistance, *Under Siege* provides a unique and comprehensive examination of the complex realities of Muslim youth in a post-9/11 world. Twenty years after the 9/11 attacks, Zine reveals how the global

war on terror and heightened anti-Muslim racism have affected a generation of Canadians who were socialized into a world where their faith and identity are under siege.

The Battle of Alberta Mark Spector, 2015-10-20 An up-close look at the rivalry between the Calgary Flames and the Edmonton Oilers, told from the perspective of those that were there. Sports writer and on-air personality Mark Spector pays tribute to the province's hockey heyday with a unique blend of humour and homage. I hated every single guy on the Oilers, 'cause they all hated me. --Tim Hunter, the Calgary Flames In the 1980s, the province of Alberta was home to the two best hockey teams in the NHL. Aptly dubbed Death Valley due to the sheer talent and ability of its players, the province not only begat rivalry with other NHL teams, but also sparked fierce competition within its own borders. Thus began The Battle of Alberta, the historic struggle between the Edmonton Oilers and the Calgary Flames. In The Battle of Alberta, veteran sports journalist Mark Spector presents homage to Albertan hockey, and the two teams that inspired one of the most bitter competitions in NHL history. Through exclusive interviews with coaches, trainers, and players, Spector provides an unbiased, often hilarious look at the brawls, the clashes, and the schemes. A chronicle of an unforgettable time in hockey history (filled with never-before-seen photographs), The Battle of Alberta is guaranteed to entertain fans and educate newcomers alike.

Antimicrobial Resistance Mihai Mares, Swee Hua Erin Lim, Kok-Song Lai, Romeo-Teodor Cristina, 2021-03-03 Tackling the realities of the antimicrobial resistance (AMR) situation today is no longer uncommon. Many battles have been fought in the past since the discovery of antibiotics between man and microbes. In the tussle of new antibiotic modifications, the transmission of resistant genes, both vertically and horizontally unveils yet another resistant attribute for the microbe, for it only to be faced with a more powerful, wide spectrum antibiotic; the cycle continues-and the winner is yet to be known. This book aims to provide some insight into various molecular mechanisms, agricultural mitigation methods, and the One Health applications to maybe, just maybe, tip the scales towards us.

Teen Pregnancy and Parenting Lisa Frick, 2007 The writings in this anthology have been selected to introduce readers to the broadest possible spectrum of viewpoints on teen pregnancy and parenting. Is Gwyneth Paltrow Wrong About Everything? Timothy Caulfield, 2016-05-10 An exploration of the effect our celebrity-dominated culture has on our ideas of what it means to live the good life What would happen if an average Joe tried out for American Idol, underwent a professional makeover, endured Gwyneth Paltrow's "Clean Cleanse," and followed the outrageous rituals of the rich and famous? Health law policy researcher Timothy Caulfield finds out in this thoroughly unique, engaging, and provocative book about celebrity culture and its iron grip on today's society. Over the past decade, our perceptions of beauty, health, success, and happiness have become increasingly framed by a popular culture steeped in celebrity influence and ever more disconnected from reality. Research tells us that our health decisions and goals are influenced by celebrity culture and endorsements, our children's ambitions are now overwhelmingly governed by the fantasy of fame, and the ideals of beauty and success are mediated through a celebrity-dominated worldview. But while much has been written about the cause of our obsession with the rich and famous, Caulfield argues that not enough has been done to debunk celebrity messages and promises about health, diet, beauty, or happiness.

From super-thin models to Gwyneth Paltrow's endorsement of a gluten free-diet for almost anyone, celebrity opinions have the power to dominate our conversations and outlooks. In this book, Caulfield provides an entertaining look into the celebrity world, including vivid accounts of his own experiences trying out for American Idol, having his skin resurfaced, and doing the cleanse; interviews with actual celebrities; thought-provoking facts, and a practical and evidence-based reality check on our own celebrity ambitions.
