Cat Clicker Training Farhat Khan,2019-08-30 Clicker training includes the use of a clicker as a reward or encouragement when training a cat.Cats can relate with the clicker, displaying right actions and behavior. Clicker training is often linked with the current condition, where cats associate the sound with food and operational health and where cats execute movements for food.A clicker is found to be more effective than a verbal command because cats can hear clicker sounds more clearly than a voice, as human voice tones change while the clicker sound is always steady or constant.The click is brief and concise, whereas a voice, phrase or a word, is relatively long in cats' point of standing. To say 'good boy' will lead time than a click.And BUY & READ this book, if you want more!THIS BOOK INCLUDING: cat training, cat training collar, cat training toilet, cat training clicker, cat training treats, cat training pads, cat training alarm, cat training air blaster, cat training aids, cat training book, cat training air blaster with sensor, cat training books bestsellers, cat training bottle, cat training box, cat training bowl, cat training collar with remote, cat training crates, cat training collar, cat training device, cat training DVD, cat training equipment, cat training for toilet, cat training food, cat training gun, cat training gloves, cat trainingapparatus, cat training in 10 minutes, cat training is accessible, cat training kit, cat training litter, cat training litter box, cat training laser, cat training mat, cat training motion sensor, cat training noise, cat training potty, cat training products, cat training pee, cat training remote, cat training spray, cat training sound, cat training stick, cat training spray bottle, cat training sticky mat, cat training tool, cat training toys, cat training tape, cat training whistle, cat training water gun, cat training wand, cat training water
