Remains of Ritual Steven M. Friedson, 2010-07-15 Remains of Ritual, Steven M. Friedson's second book on musical experience in African ritual, focuses on the Brekete/Gorovodu religion of the Ewe people. Friedson presents a multifaceted understanding of religious practice through a historical and

ethnographic study of one of the dominant ritual sites on the southern coast of Ghana: a medicine shrine whose origins lie in the northern region of the country. Each chapter of this fascinating book considers a different aspect of ritual life, demonstrating throughout that none of them can be conceived of separately from their musicality—in the Brekete world, music functions as ritual and ritual as music. Dance and possession, chanted calls to prayer, animal sacrifice, the sounds and movements of wake keeping, the play of the drums all come under Friedson's careful scrutiny, as does his own position and experience within this ritual-dominated society.

Portrait of a Priestess Joan Breton Connelly, 2022-03-08 In this sumptuously illustrated book, Joan Breton Connelly gives us the first comprehensive cultural history of priestesses in the ancient

Greek world. Connelly presents the fullest and most vivid picture yet of how priestesses lived and worked, from the most famous and sacred of them--the Delphic Oracle and the priestess of Athena Polias--to basket bearers and handmaidens. Along the way, she challenges long-held beliefs to show that priestesses played far more significant public roles in ancient Greece than previously acknowledged. Connelly builds this history through a pioneering examination of archaeological evidence in the broader context of literary sources, inscriptions, sculpture, and vase painting. Ranging from southern Italy to Asia Minor, and from the late Bronze Age to the fifth century A.D., she brings the priestesses to life--their social origins, how they progressed through many sacred roles on the path to priesthood, and even how they dressed. She sheds light on the rituals they performed, the political power they wielded, their systems of patronage and compensation, and how they were honored, including in death. Connelly shows that understanding the complexity of priestesses' lives requires us to look past the simple lines we draw today between public and private, sacred and secular. The remarkable picture that emerges reveals that women in religious office were not as secluded and marginalized as we have thought--that religious office was one arena in ancient Greece where women enjoyed privileges and authority comparable to that of men. Connelly concludes by examining women's roles in early Christianity, taking on the larger issue of the exclusion of women from the Christian priesthood. This paperback edition includes additional maps and a glossary for student use.

Warriors of the Himalayas Donald J. LaRocca, Metropolitan Museum of Art (New York, N.Y.), 2006 The first in-depth examination of the fascinating and virtually unknown of armor and weapons from Tibet, dating from the 13th to the 20th century.

Divination's Grasp Richard Werbner, 2015-11-15 "A work of rare depth and profound insight that

is destined to become a classic in African Studies and the anthropology of religion.” —Paul Stoller, author of *Yaya’s Story: The Quest for Well-Being in the World* Richard Werbner takes readers on a journey through contemporary charismatic wisdom divination in southern Africa. Beginning with the silent language of the divinatory lots, Werbner deciphers the everyday, metaphorical, and poetic language that is used to reveal their meaning. Through Werbner’s skillful interpretations of the language of divination, a picture of Tswapong moral imagination is revealed. Concerns about dignity and personal illumination, witchcraft, pollution, the anger of dead ancestors, as well as the nature of life, truth, cosmic harmony, being, and becoming emerge in this charged African setting. “Werbner’s *Divination’s Grasp* documents a long and distinguished career in the service of anthropology. It will be a touchstone for anthropological studies of divination for years to come.” —American Ethnologist “Richard Werbner’s superb account of moral imagination and the poetics of divination grasps the density of its subject, matching the insights of the diviner with those of the ethnographer. The book takes its place among the very best works of Africanist anthropology as a new classic in the tradition of ethnographic divination and a necessary reminder of live and deep traditions of African wisdom.” —Michael Lambek, University of Toronto Scarborough

Pen and Parchment Melanie Holcomb, Lisa Bessette, 2009 Discusses the techniques, uses, and aesthetics of medieval drawings; and reproduces work from more than fifty manuscripts produced between the ninth and early fourteenth century.

The Great Cat and Dog Massacre Hilda Kean, 2017-03-14 In 1939, 400,000 cats and dogs were massacred in Britain, their corpses heaped up outside veterinarians’ offices. Fear of the imminent German blitz led the government to urge pet owners to spare their animal companions so that they would not suffer in the bombing raids. Hilda Kean’s gripping narrative of this little-known event

includes tales of smuggling pets into bomb shelters, trading bits of cat food on the black market, and preemptively killing thousands of pets at the start of the war to save the food supplies in England. Kean is able to show vividly how pets were an important part of British wartime experience. She pays close attention to animals, both symbolic and actual, arguing that after the pet massacre, human-animal bonds became stronger and closer. In the process of telling this history, Kean necessarily complicates the picture of World War II as the good war fought by a nation of good, animal-loving people. Her close use of primary materials (diaries, personal sources, contemporary newspapers, collective public reports on daily life, etc.) gives palpable reality to the animals and their fate at this time. This forgotten aspect of Britain's history makes us rethink accepted accounts of the War and shows the ways in which animal and human histories are inextricably linked. We are also constrained to rethink our assumptions about ourselves and the animals with whom we share our homes.

Cats John A. Rush, 2023-10-03 Explores our intertwined spiritual history with cats • Examines spiritual and occult beliefs connected to cats from Mayan, Aztec, and Native American mythology as well as from ancient India, Samaria, Babylon, Japan, and Egypt • Looks at spiritual behaviors attributed to cats as well as modern biological research into cat behavior and their highly sophisticated sensory systems • Reveals the similarities between cat and human emotions and the deep connection between cats and meditation We have been connected to cats for more than 30 million years. To our prehistoric ancestors cats were deadly predators of the night, and because of this ancient memory etched onto our DNA, cats epitomize our fear of the dark. Yet in addition to their connection to the dark and the shadows, their intelligence, sophisticated physical abilities, and finely tuned senses also led many cultures to view cats as connected to the spirit world. Exploring the

spiritual nature of cats, John A. Rush looks at humanity's fascination and fear of cats through the ages. He examines spiritual and occult beliefs connected to cats from Mayan, Aztec, and Native American mythology as well as from ancient India, Samaria, Babylon, Japan, and Egypt, including how ancient Egyptians used cats to send messages to the gods. He reveals why the Catholic Church demonized cats and how cats are symbols of both Good and Evil. Examining cat evolution, the author looks at spiritual behaviors attributed to cats as well as modern biological research into cat behavior and their highly sophisticated sensory systems, which, unlike most other animals, have changed very little over millions of years. He explores their "psychic" ability to sense what humans cannot and the origins of their glowing eyes, which has connected cats, through myth, to both the Underworld and the World of Light. He also explores similarities between cat and human emotions, cat communications with us, and the deep connection between cats and meditation. Revealing the spiritual journey of the cat from fearsome predator to occult symbol to household companion, the author shows how, in many ways, cats are mirrors of us, reflecting our conflicting dual nature that is at once loving yet distant, magical yet vengeful, and above all, deeply connected to the spirit world.

The Art of Music Patrick Coleman, 2015-01-01 The Art of Music takes the relationship between two of the more prominent and oft-intersecting branches of artistic creation as its subject. The liaison between music and the visual arts has inspired countless generations of artists. The two have had manifold complex interactions across all periods of history, in Western and non-Western contexts alike, yet their intersection has only become a rich vein for research by art historians and musicologists in the last thirty years. By tracing these relationships, new insights into the affinities of the arts become clear--
