The Poisonwood Bible Barbara Kingsolver, 2009-10-13 New York Times Bestseller • Finalist for the Pulitzer Prize • An Oprah's Book Club Selection "Powerful . . . [Kingsolver] has with infinitely steady hands worked the prickly threads of religion, politics, race, sin and redemption into a thing of terrible beauty." –Los Angeles Times Book Review The *Poisonwood Bible*, now celebrating its 25th anniversary, established Barbara Kingsolver as one of the most thoughtful and daring of modern writers. Taking its place alongside the classic works of postcolonial literature, it is a suspenseful epic of one family's tragic undoing and remarkable reconstruction over the course of three decades in Africa. The story is told by the wife and four daughters of Nathan Price, a fierce, evangelical Baptist who takes his family and mission to the Belgian Congo in 1959. They carry with them everything they believe they will need from home, but soon find that all of it—from garden seeds to Scripture—is calamitously transformed on African soil. The novel is set against one of the most dramatic political chronicles of the twentieth century: the Congo's fight for independence from Belgium, the murder of its first elected prime minister, the CIA coup to install his replacement, and the insidious progress of a world economic order that robs the fledgling African nation of its autonomy. Against this backdrop, Orleanna Price reconstructs the story of her evangelist husband's part in the Western assault on Africa, a tale indelibly darkened by her own losses and unanswerable questions about her own culpability. Also narrating the story, by turns, are her four daughters—the teenaged Rachel; adolescent twins Leah and Adah; and Ruth May, a prescient five-year-old. These sharply observant girls, who arrive in the Congo with racial preconceptions forged in 1950s Georgia, will be marked in surprisingly different ways by their father's intractable mission, and by Africa itself. Ultimately each must strike her own separate path to salvation. Their passionately intertwined stories become a compelling exploration of moral risk and personal responsibility.

Born to Run Christopher McDougall, 2010-12-09 A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

Me I Am! Jack Prelutsky, 2011 An illustrated poem which celebrates children who enjoy doing all kinds of activities. This poem originally appeared in The Random House book of poetry for children, published in 1983.

Player Piano Kurt Vonnegut, 2009-09-30 "A funny, savage appraisal of a totally automated American society of the future."—San Francisco Chronicle Kurt Vonnegut's first novel spins the chilling tale of engineer Paul Proteus, who must find a way to live in a world dominated by a supercomputer and run completely by machines. Paul's rebellion is vintage Vonnegut—wildly funny, deadly serious, and terrifyingly close to reality. Praise for *Player Piano* "An exuberant, crackling style . . . Vonnegut is a black humorist, fantasist and satirist, a man disposed to deep and comic reflection on the human dilemma."—Life "His black logic . . . gives us something to laugh about and much to fear."—The New York Times Book Review

The Complete Stories Flannery O'Connor, 1971 Winner of the National Book Award The publication of this extraordinary volume firmly established Flannery O'Connor's monumental contribution to American fiction. There are thirty-one stories here in all, including twelve that do not appear in the only two story collections O'Connor put together in her short lifetime—*Everything That Rises Must Converge* and *A Good Man Is Hard to Find*. O'Connor published her first story, *The Geranium*, in 1946, while she was working on her master's degree at the University of Iowa. Arranged chronologically, this collection shows that her last story, *Judgement Day*—sent to her publisher shortly before her death—is a brilliantly rewritten and transfigured version of *The Geranium*. Taken together, these stories reveal a lively, penetrating talent that has given us some of the most powerful and disturbing fiction of the twentieth century. Also included is an introduction by O'Connor's longtime editor and friend, Robert Giroux.

Pirate Cinema Cory Doctorow, 2012-10-02 From the New York Times bestselling author of *Little Brother*, Cory Doctorow, comes *Pirate Cinema*, a new tale of a brilliant hacker runaway who finds himself standing up to tyranny. Trent McCauley is sixteen, brilliant, and obsessed with one thing: making movies on his computer by reassembling footage from popular films he downloads from the net. In the dystopian near-future Britain where Trent is growing up, this is more illegal than ever; the punishment for being caught three times is that your entire household's access to the internet is cut off for a year, with no appeal. Trent's too clever for that too happen. Except it does, and it nearly destroys his family. Shamed and shattered, Trent runs away to London, where he slowly learns the ways of staying alive on the streets. This brings him in touch with a demimonde of artists and activists who are trying to fight a new bill that will criminalize even more harmless internet creativity, making felons of millions of British citizens at a stroke. Things look bad. Parliament is in power of a few wealthy media conglomerates. But the powers-that-be haven't entirely reckoned with the power of a gripping movie to change people's minds.... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

At Home in Exile Helga M Griffin, 2021-02-16 This is a story of a girl's construction of her identity, and of her family's search for a place in the world, for the Heimat that is so resonant for those of German background. We follow Helga through an adventurous childhood in Iran, whose vast open spaces her mother called 'my spiritual home'. Her engineer father worked on a grand scale, designing and laying roads and railways, and tunnelling

through mountain ranges. Then came the invasions of World War II, and the family, half-German, half-Austrian, found themselves on a long voyage to Australia, designated enemy aliens. They were interned for nearly five years in the dusty Victorian countryside. On their release at the end of the War, stranded in Melbourne, they sought another home. The children were dispatched to convents, and at the Academy of Mary Immaculate, Helga found a temporary homeland, in faith. Everyday life in the Australia of the late 1940s and early 1950s is freshly seen by this feisty, loving migrant family. Through their eyes, we encounter a strange place, Australia, as if for the first time. Helga's development from a thoughtful, sensitive child to a self-possessed young woman, wrestling with her faith and with how to live a decent life, is vividly recounted.

Life After Life Kate Atkinson, 2013-04-02 What if you could live again and again, until you got it right? On a cold and snowy night in 1910, Ursula Todd is born to an English banker and his wife. She dies before she can draw her first breath. On that same cold and snowy night, Ursula Todd is born, lets out a lusty wail, and embarks upon a life that will be, to say the least, unusual. For as she grows, she also dies, repeatedly, in a variety of ways, while the young century marches on towards its second cataclysmic world war. Does Ursula's apparently infinite number of lives give her the power to save the world from its inevitable destiny? And if she can -- will she? Darkly comic, startlingly poignant, and utterly original: this is Kate Atkinson at her absolute best.

Uhura's Song Janet Kagan, 2000-09-22 Years ago, Lt. Uhura befriended a diplomat from Eeiau, the land of graceful, cat-like beings. Enterprise™ is orbiting Eeiau in a desperate race to save the inhabitants before a deadly plague destroys them. Uhura's secret songs may hold the key to a cure—but the clues are veiled in layers of mystery and the inhabitants of Eeiau aren't what they seem. But the plague is killing humans, threatening other planets—and Kirk must crack the code before the Starship Enterprise succumbs!

Wicked Gregory Maguire, 2009-10-13 The New York Times bestseller and basis for the Tony-winning hit musical, soon to be a major motion picture starring Cynthia Erivo and Ariana Grande With millions of copies in print around the world, Gregory Maguire's Wicked is established not only as a commentary on our time but as a novel to revisit for years to come. Wicked relishes the inspired inventions of L. Frank Baum's 1900 novel, The Wonderful Wizard of Oz, while playing sleight of hand with our collective memories of the 1939 MGM film starring Margaret Hamilton (and Judy Garland). In this fast-paced, fantastically real, and supremely entertaining novel, Maguire has populated the largely unknown world of Oz with the power of his own imagination. Years before Dorothy and her dog crash-land, another little girl makes her presence known in Oz. This girl, Elphaba, is born with emerald-green skin—no easy burden in a land as mean and poor as Oz, where superstition and magic are not strong enough to explain or overcome the natural disasters of flood and famine. Still, Elphaba is smart, and by the time she enters Shiz University, she becomes a member of a charmed circle of Oz's most promising young citizens. But Elphaba's Oz is no utopia. The Wizard's secret police are everywhere. Animals—those creatures with voices, souls, and minds—are threatened with exile. Young Elphaba, green and wild and misunderstood, is determined to protect the Animals—even if it means combating the mysterious Wizard, even if it means risking her single chance at romance. Ever wiser in guilt and sorrow, she can find herself grateful when the world declares her a witch. And she can even make herself glad for that young girl from Kansas. Recognized as an iconoclastic tour de force on its initial publication, the novel has inspired the blockbuster musical of the same name—one of the longest-running plays in Broadway history. Popular, indeed. But while the novel's distant cousins hail from the traditions of magical realism, mythopoeic fantasy, and sprawling nineteenth-century sagas of moral urgency, Maguire's Wicked is as unique as its green-skinned witch.

Songs in the Key of Z Irwin Chusid, 2000 Irwin Chusid profiles a number of outsider musicians - those who started as outside and eventually came in when the listening public caught up with their radical ideas. Included are The Shaggs, Tiny Tim, Syd Barrett, Joe Meek, Captain Beefheart, The Cherry Sisters, Daniel Johnston, Harry Partch, Wesley Willis, and others.

A Confederacy of Dunces John Kennedy Toole, 2007-12-01 Winner of the Pulitzer Prize "A masterwork . . . the novel astonishes with its inventiveness . . . it is nothing less than a grand comic fugue."—The New York Times Book Review A Confederacy of Dunces is an American comic masterpiece. John Kennedy Toole's hero, one Ignatius J. Reilly, is huge, obese, fractious, fastidious, a latter-day Gargantua, a Don Quixote of the French Quarter. His story bursts with wholly original characters, denizens of New Orleans' lower depths, incredibly true-to-life dialogue, and the zaniest series of high and low comic adventures (Henry Kisor, Chicago Sun-Times).

The Song of the Lark Willa Cather, 1916 A novelist and short-story writer, Willa Cather is today widely regarded as one of the foremost American authors of the twentieth century. Particularly renowned for the memorable women she created for such works as My Antonia and O Pioneers!, she pens the portrait of another formidable character in The Song of the Lark. This, her third novel, traces the struggle of the woman as artist in an era when a woman's role was far more rigidly defined than it is today. The prototype for the main character as a child and adolescent was Cather herself, while a leading Wagnerian soprano at the Metropolitan Opera (Olive Fremstad) became the model for Thea Kronborg, the singer who defies the limitations placed on women of her time and social station to become an international opera star. A coming-of-age-novel, important for the issues of gender and class that it explores, The Song of the Lark is one of Cather's most popular and lyrical works. Book jacket.

Ron Hubbard, Lester Dent, and Walter Gibson, this swashbuckling literary thriller propels the characters into a genuine pulp adventure in which they try to thwart a madman intent on creating a new global empire.
