*A History of the Organs in St Paul's Cathedral* Nicholas M. Plumley,Austin Niland,2001 Beginning with the Father Smith organ of 1694, the organs in the famous London cathedral are traced through enlargement and rebuildings of the Smith organ, through the Willis organ of 1872 and 1930, to the current Mander organ of 225 ranks which comprises much of its predecessors. Also covered are other organs in the Cathedral and even some information about the previous cathedral building, destroyed in the London fire of 1666.

*Louis Vierne* Rollin Smith,Louis Vierne,1999 Louis Vierne (1870-1937), a student of César Franck and Charles-Marie Widor, was organist of the Notre-Dame Cathedral in Paris for 37 years, until his death at the console during a recital. Widor's successor as the organ's great French symphonist - an assessment the passage of time has proved correct - Vierne's music has remained in the repertoire of organists throughout the world, never undergoing the periodic eclipses experienced by his contemporaries. Vierne's autobiography, Mes Souvenirs, originally published serially in the 1930s, is here available in a profusely illustrated, extensively annotated English translation. Rollin Smith's Louis Vierne: Organist of Notre Dame Cathedral is the first major study of the great organist of Notre-Dame and includes chapters on his American tour, recordings, contemporary reminiscences, definitive textual corrections, the organ symphonies, his death and succession, and a thematic catalogue of his organ works.

*The Organists and Organs of Hereford Cathedral* Watkins Shaw,Roy Massey,2005

**Looking Up at Pipe Organs and Ceilings** Jenny Setchell,2014-10-11 In large impressive public spaces, whether a great cathedral, an ancient abbey or a secular concert hall, it is often the pipe organ that first commands the visitor's attention. The 'King of Instruments' (as Mozart so memorably described the organ), with its solidly-wrought, ornate casework and glistening façade pipes, is sufficient in its own right to elicit gasps of awe and wonder. But the organ case is usually only part of a whole harmonious picture. Its grandeur is complemented and completed by the beauty of the surrounding ceiling whether it be fan, barrel or rib-vaulted, highly ornate stone work, or painted wood. It is the context in which the organ is placed and the harmony of the whole that creates the magical effect. Jenny Setchell has captured a variety of thrilling organ façades and crowning glory ceilings; some as old as that in Breda Grote Kerk in the Netherlands which dates back to 1534, through the 18th-century joys of the exuberant baroque era in Bavaria, up to modern instruments built only in the last few decades such as in Willibrordi Cathedral, Wesel. Organ builders over the centuries and in different countries have found creative and artistic solutions to the strictures of architectural styles when installing or rebuilding these glorious structures so that they would harmonise with their surroundings, as well as making the music that is their reason for being. The result is brought together in this fascinating and beautiful book.

*The Organs and Organists of Chichester Cathedral* Nicholas M. Plumley,John Lees,1988 The book details the history of three organs, and provides a complete account of the organists, warts and all. Chichester has had its quota of eccentrics, but, equally, its record of distinguished musicians is evident. No matter how good the instrument, its sensitive and liturgical use depends on the organist's understanding of the role of the music within worship.

*Revival: Dictionary of the Organ (1914)* Carl Locher,2018-12-20 A technical volume on the construction of organs. Comprises an alphabetically arranged detailing of the various components of organs, their characteristics and uses. Also includes a study of organ building.

*History of the Organ in Seville Cathedral, City, and Province* José Enrique Ayarra Jarne,1992

*An Apology for those who object to the lateral position of an organ in Winchester Cathedral. [In reply to E. Blore's "Report on the proposed removal of the organ, etc."]* Cathedral (WINCHESTER),1825

**The modern organ** Thomas Casson,1883

**Dictionary of the Organ** Carl Locher,1914

**American Organist** Thomas Scott Buhrman,1920

The Making of the Victorian Organ Nicholas Thistlethwaite,1999-08-26 This important 1990 book provides a comprehensive survey of English organ building during the most innovative fifty years in its history.
