Blending thrilling suspense with brilliant scientific speculation, Frederik Pohl's *The Coming of the Quantum Cats* is a triumph of the imagination by a Hugo and Nebula-winning master of science fiction. Cat Daddy Jackson Galaxy,2013-05-02 Cat behaviorist and star of Animal Planet's hit television show *My Cat from Hell*, Galaxy, a.k.a. Cat Daddy, isn't what readers might expect for a cat expert. Yet his ability to connect with even the most troubled felines--not to mention their owners--is awe-inspiring.

Come Here, Cat Joan L. Nodset,1993 How to love a cat: Hold him gently in your lap. But don't panic if he bites--he's only playing. Be careful not to scare him away. Listen for his motor. He's telling you he loves you, too! After being out of print for many years, the beloved story about a persistent little girl, a capricious cat, and the wild apartment-building chase that ensues is available again. From Joan L. Nodset and Steven Kellogg, the author and illustrator of the original two-color book, comes this enlarged edition, exquisitely reillustrated with full-color mixed-media paintings.

Come Back, Cat Joan L. Nodset,2008-09-16 A stray cat and a little girl have their problems getting acquainted.

Hemingway's Cats Lindsey Hooper,2021-05-25 "ONE CAT JUST LEADS TO ANOTHER." —Ernest Hemingway Inspired by the true story of the famous six-toed felines of the Ernest Hemingway House in Key West, Florida—and the hurricane that nearly blew them away—*Hemingway's Cats* is a delightful novel full of romance, humor, and lots and lots and lots of cats . . . Laura Lange didn't come to Key West to fall in love. As a recent college grad—with a useless degree in English—she came to work at the historic Hemingway home as a tour guide. Why not? She wrote her thesis on the iconic author. She has no other job offers. And she's desperate. Now Laura is falling desperately in love—with the fifty-four frisky felines who freely roam the estate. These descendants of Hemingway's original cat have not only stolen her heart—they're changing her life in ways she never imagined . . . First there's Nessie, the bushy-tailed "house mother" of the cats who seems to have adopted Laura, too. Then there's grumpy old Pawpa Hemingway; the cat thieves Chew-Chew and Whiskey; the big-pawed Boxer and Bullfighter; and dozens of darling kittens. The locals are lovable, too. Laura's having a great time with her boy-crazy bungalow roomies, the Crabb sisters, and especially the young, handsome cat keeper, Jake. But Laura's summer of fun is about to take an unexpected turn—a Category 5 hurricane is about to make landfall directly on their doorstep . . . They can't possibly evacuate fifty-four cats. So Laura, Nessie, and all of their friends decide to hunker down in the Hemingway House to weather this storm—together. "Sweet, funny, and charming. You'll fall in love with these adorable kitties and colorful Key West characters." —MELINDA METZ, bestselling author of *Talk to the Paw*

Highway Cats Janet Taylor Lisle,2008-09-18 When three kittens are carelessly thrown off the back of a truck, none of the highway cats know what to make of them. They seem to have some sort of appeal?an energy, even?that Khalia Koo, Jolly Roger and the rest of the mangy, feral cats don't understand. But there are bigger issues to figure out when the bulldozers start coming, threatening to demolish the cats' homes as well as other historical landmarks. Can three little kittens be the answer to save the town? Illustrated with striking silhouettes, here is a spirited and original environmental story from Newbery Honor winner Janet Taylor Lisle about finding help?and hope?in the smallest, most unlikely of places.

Cat Up a Tree Ann Hassett,1998-09-15 Worried when she spots a cat up a tree, Nana Quimby frantically rings the firehouse for help, only to discover that the firemen no longer rescue cats in trees. What is she to do? She looks out the window again to discover five cats up the tree. And the cats keep coming - too many to count - in all sorts of zany colors, shapes, and sizes. Frantic, Nana Quimby calls the police station, the pet shop, the zoo, and even city hall, but no one will respond to her plea. Children will love counting all the irresistible cats in John Hassett's lively artwork, as the town that refuses to help finds itself caught in a hilarious quandary and finally learns the importance of lending a hand.

Cat Sense John Bradshaw,2013-09-10 Cats have been popular household pets for thousands of years, and their numbers only continue to rise. Today there are three cats for every dog on the planet, and yet cats remain more mysterious, even to their most adoring owners. Unlike dogs, cats evolved as solitary hunters, and, while many have learned to live alongside humans and even feel affection for us, they still don't quite "get us" the way dogs do, and perhaps they never will. But cats have rich emotional lives that we need to respect and understand if they are to thrive in our company. In *Cat Sense*, renowned anthrozoologist John Bradshaw takes us further into the mind of the domestic cat than ever before, using cutting-edge scientific research to dispel the myths and explain the true nature of our feline friends. Tracing the cat's evolution from lone predator to domesticated companion, Bradshaw shows that although cats and humans have been living together for at least eight thousand years, cats remain independent, predatory, and wary of contact with their own kind, qualities that often clash with our modern lifestyles. Cats still have three out of four paws firmly planted in the wild, and within only a few generations can easily revert back to the independent way of life that was the exclusive preserve of their predecessors some 10,000 years ago. Cats are astonishingly flexible, and given the right environment they can adapt to a life of domesticity with their owners—but to continue do so, they will increasingly need our help. If we're to live in harmony with our cats, Bradshaw explains, we first need to understand their inherited quirks: understanding their body language, keeping their environments—however small—sufficiently interesting, and becoming more proactive in managing both their natural hunting instincts and their relationships with other cats. A must-read for any cat lover, *Cat Sense* offers humane, penetrating insights about the domestic cat that challenge our most basic assumptions and promise to dramatically improve our pets' lives—and ours.

Busy Day Suzanne Green,1987 Photographs depict young cat characters on a busy day as they sweep the floor, wash the windows, and perform other household tasks.

Bach Flower Remedies for Cats Martin Scott,Gael Mariani,2012-06-01 Cat owners can care for their felines from kittenhood to old age through a safe and natural system using the flower remedies created by Dr. Edward Bach in the 1930s. This book explores how this healing therapy treats ailments with different flora and can be applied to cats to ease their mental stress, worry, and other emotional problems. Individuals can gain a closer understanding with their cats and spare them from unnecessary medications and drugs in the process. The book delves into the background of the 38 different Bach flower remedies and their applications in animal health, and it also addresses commonly asked questions about cat behavior.
