*Richard S. Ewell* Donald C. Pfanz,2000-11-09 General Richard Stoddert Ewell holds a unique place in the history of the Army of Northern Virginia. For four months Ewell was Stonewall Jackson's most

trusted subordinate; when Jackson died, Ewell took command of the Second Corps, leading it at Gettysburg, the Wilderness, and Spotsylvania Court House. In this biography, Donald Pfanz presents the most detailed portrait yet of the man sometimes referred to as Stonewall Jackson's right arm. Drawing on a rich array of previously untapped original source materials, Pfanz concludes that Ewell was a highly competent general, whose successes on the battlefield far outweighed his failures. But Pfanz's book is more than a military biography. It also examines Ewell's life before and after the Civil War, including his years at West Point, his service in the Mexican War, his experiences as a dragoon officer in Arizona and New Mexico, and his postwar career as a planter in Mississippi and Tennessee. In all, Pfanz offers an exceptionally detailed portrait of one of the South's most important leaders.

**The Spiritual Rococo** Gauvin Alexander Bailey, 2017-07-05 A groundbreaking approach to Rococo religious d?r and spirituality in Europe and South America, *The Spiritual Rococo* addresses three basic conundrums that impede our understanding of eighteenth-century aesthetics and culture. Why did the Rococo, ostensibly the least spiritual style in the pre-Modern canon, transform into one of the world's most important modes for adorning sacred spaces? And why is Rococo still treated as a decadent nemesis of the Enlightenment when the two had fundamental characteristics in common? This book seeks to answer these questions by treating Rococo as a global phenomenon for the first time and by exploring its moral and spiritual dimensions through the lens of populist French religious literature of the day—a body of work the author calls the "Spiritual Rococo" and which has never been applied directly to the arts. The book traces Rococo's development from France through Central Europe, Portugal, Brazil, and South America by following a chain of interlocking case studies, whether artistic, literary, or ideological, and it also considers the parallel diffusion of the literature of the Spiritual Rococo in these same regions, placing particular emphasis on unpublished primary sources such as inventories. One of the ultimate goals of this study is to move beyond the cliché of Rococo's frivolity and acknowledge its essential modernity. Thoroughly interdisciplinary, *The Spiritual Rococo* not only integrates different art historical fields in novel ways but also interacts with church and social history, literary and post-colonial studies, and anthropology, opening up new horizons in these fields.

Srivastava, Manish Srivastava, P.K. Mishra, P.W. Ramteke, Ram Lakhan Singh, 2019-05-03 *New and Future Developments in Microbial Biotechnology and Bioengineering: From Cellulose to Cellulase: Strategies to Improve Biofuel Production* outlines new methods for the industrial production of the cellulose enzyme. The book compares the various processes for the production of biofuels, including the cost of cellulose production and availability. Biofuels are considered to be the main alternatives to fossil fuels in reducing environmental pollution and climate change. Currently, all existing biofuel production is suffering because of the high costs of production processes. As a result, cost effective practical implementation is needed to make this a viable energy alternative. Introduces new and innovative strategies for cellulase enzyme production at industrial scale Provides sustainable approaches to produce cellulase at low cost Covers all aspect and possible factors for economical, low cost, cellulase mediated biofuels production
