Encyclopedia of Television News Michael D. Murray,1998-12-03 A recent Times-Mirror survey has shown that 65 percent of Americans prefer television over other news media for news coverage, an increase of 10 percent in just over a decade. To understand the enormous impact television news has had on American life, it is important to define the contributions made by various individuals in the field, as well as to recognize the news programs and broadcast journalism issues that have captivated, enlightened, and informed our nation. Never before have the forces and individuals of television news been so thoroughly and authoritatively examined.

Using DNA to Solve Cold Cases U.s. Department of Justice,Office of Justice Programs,National Institute of Justice,2012-07-18 DNA has proven to be a powerful tool in the fight against crime. DNA evidence can identify suspects, convict the guilty, and exonerate the innocent. Throughout the Nation, criminal justice professionals are discovering that advancements in DNA technology are breathing new life into old, cold, or unsolved criminal cases. Evidence that was previously unsuitable for DNA testing because a biological sample was too small or degraded may now yield a DNA profile. Development of the Combined DNA Index System (CODIS) at the State and national levels enables law enforcement to aid investigations by effectively and efficiently identifying suspects and linking serial crimes to each other. The National Commission on the Future of DNA Evidence made clear, however, that we must dedicate more resources to empower law enforcement to use this technology quickly and effectively. Using DNA to Solve Cold Cases is intended for use by law enforcement and other criminal justice professionals who have the responsibility for reviewing and investigating unsolved cases. This report will provide basic information to assist agencies in the complex process of case review with a specific emphasis on using DNA evidence to solve previously unsolvable crimes. Although DNA is not the only forensic tool that can be valuable to unsolved case investigations, advancements in DNA technology and the success of DNA database systems have inspired law enforcement agencies throughout the country to reevaluate cold cases for DNA evidence. As law enforcement professionals progress through investigations, however, they should keep in mind the array of other technology advancements, such as improved ballistics and fingerprint databases, which may substantially advance a case beyond its original level.

Chicago Television Daniel Berger,Steve Jajkowski,2010-01-01 The history of television in Chicago begins with the birth of the medium and is defined by the city's pioneering stations. WBKB (now WLS-TV) was the principal innovator of the Chicago School of Television, an improvisational production style that combined small budgets, personable talent, and the creative use of scenery and props. WNBQ (now WMAQ-TV) expanded the innovative concept to a wider audience via the NBC network. WGN-TV scored with sports and kids. Strong personalities drove the success of WBBM-TV. A noncommercial educational station, WTTW, and the city's first UHF station, WCIU, added diversity and ethnic programming. The airwaves in Chicago have been home to a wealth of talented performers and iconic programs that have made the city one of the country's greatest television towns. Chicago Television, featuring photographs from the archives of the Museum of Broadcast Communications (MBC) and the collections of local stations and historians, gives readers a front-row seat on a journey through the first 50 years of Chicago television, 1940-1990. Founded in 1982 by broadcaster Bruce DuMont, the MBC Web site offers over 10,000 digital assets.

PIMPOLOGY PIMPIN' KEN,2012-12-11 The pimp has reached nearly mythical status. We are fascinated by the question of how a guy from the ghetto with no startup capital and no credit -- nothing but the words out of his mouth -- comes not only to have a stable of sexy women who consider him their man, but to drive a Rolls, sport diamonds, and wear custom suits and alligator shoes from Italy. His secret is to follow the unwritten rules of the game -- a set of regulations handed down orally from older, wiser macks -- which give him superhuman powers of charm, psychological manipulation, and persuasion. In Pimpology,star of the documentaries Pimps Up, Ho's Downand American Pimp and Annual Players Ball Mack of the Year winner Ken Ivy pulls a square's coat on the unwritten rules that took him from the ghetto streets to the executive suites. Ken's lessons will serve any person in any interaction: Whether at work, in relationships, or among friends, somebody's got to be on top. To be the one with the upper hand, you've got to have good game, and good game starts with knowing the rules. If you want the money, power, and respect you dream of, you can't just pimp your ride, you need to pimp your whole life. And unless you've seen Ray Charles leading Stevie Wonder somewhere, you need Ken's guidelines to do it. They'll reach out and touch you like AT&T and bring good things to life like GE. Then you can be the boss with the hot sauce who gets it all like Monty Hall

The Book of Lists David Wallechinsky,Amy D. Wallace,Ira Basen,Jane Farrow,2005 A new edition of the classic bestseller from the original authors, with additional material specifically prepared for Canadian readers by long-time This Morning CBC producer, Ira Basen, and Jane Farrow, the author of Wanted Words. In 1977, a publishing sensation was born. The Book of Lists, the first and best compendium of facts weirder than fiction, was published. Filled with intriguing information and must-talk-about trivia it has spawned many imitators -- but none as addictive or successful. For nearly three decades since, the editors have been researching curious facts, unusual statistics and the incredible stories behind them. Now the most entertaining and informative of these have been brought together in a long-awaited, thoroughly up-to-date new edition that is also the first Canadian edition. Ira Basen and Jane Farrow have augmented the existing lists with fascinating homegrown material, and compiled lists specifically of relevance to Canadian readers. So if you've always wanted to find out how porcupines really mate, how comedy can kill and -- that most essential piece of knowledge -- how long the longest recorded nose was, this is the book for you. With contributions from a variety of celebrities and experts including Margaret Atwood, Mike Myers, Michael Ondaatje, Dave Eggers, Phillip Pullman and Charlotte Gray, this anthology has something for everyone -- and more than you ever suspected you wanted to know. A list of lists from The Book of Lists: 10 Notable Film Scenes Left on the Cutting Room Floor 10 Afflictions and Their Patron Saints 14 Nations with More Sheep Than People 5 Trips to the Canadian Wilderness That Ended in Disaster 10 ReallyBad Canadian Sports Teams 14 Last Words of Famous Canadians Kurt Browning's 9 Turning Points in Figure Skating History 7 Trial Verdicts That Caused Riots 12 Museums of Limited Appeal 10 Unusual Canadian Place Names That Start with a B 7 Well-Known Sayings Attributed to the Wrong Person 10 Celebrated People Who Read Their Own Obituaries Sloane's Jay Ferguson's 10 Perfect Pop Songs 13 Possible Sites for the Garden of Eden 9 Canadian Sports Stars Who Became Politicians First Sexual Encounters of 13 Prominent Canadians Four Foods Invented by Canadians 1. Processed Cheese -- J. L. Kraft grew up on a dairy farm in Stevensville, Ontario. While working as a grocer he was struck by the amount of cheese that was wasted on wheels of cheddar when the dried rind was scraped off to get at the fresh interior. He resolved to find a way to use this waste product, experimenting with double boilers, preservatives and cheddar. Eventually he found a way of stabilizing the dairy product that has come to be known as processed cheese. 2. Frozen Foods -- The technology to freeze food quickly and transport it to markets far away was developed in Halifax in 1928. Within a year, ice fillets were being sold to fish-deprived Torontonians who loved the taste and didn't seem to mind the high price tag. Despite this, the fishing industry and private companies lost interest and quickly mothballed the project. In 1930, a feisty American, Colonel Clarence Birdseye, claimed responsibility for developing frozen foods and promptly made a fortune. 3. Pablum -- Invented in 1930 by Dr. Alan Brown, assisted by researchers Theodore Drake and Fred Tisdall. The add-water babycereal revolutionized infant nutrition, and, of course, became synonymous with food that was bland and mushy. 4. Poutine -- Although many claim responsibility for the crowd-pleasing combination of squeaky cheese curds, canned gravy and french fries, it is generally agreed that the first order of this regional specialty of Quebec was served up by restaurant owner Fernand Lachance in 1957. Many variations on the original recipe exist including one deluxe version with foie gras served in Montreal's Pied de Cochon bistro.
