First in the World Noah J. Brown,2012-09-16 From his unique vantage point as President and CEO of the Association of Community College Trustees, J. Noah Brown writes about the intersection between community colleges and America's need to regain economic momentum and its position as first in the world with respect to college attainment. By connecting past economic and education policies and investments to possibilities for the future and continued national progress, Brown reminds us that restoring America's prominence is within reach. More importantly, he succinctly advocates for the power of community colleges to increase educational attainment, thereby reducing income inequality by allowing more Americans to access real economic opportunity.

Madam Ambassador Eleni Kounalakis,2015-05-05 A helicopter ride to visit troops in the Afghanistan war zone, a tense meeting with the newly elected Prime Minister, and...a wild boar hunt! Eleni Kounalakis was forty-three and a land developer in Sacramento, California, when she was tapped by President Barack Obama to serve as the U.S. ambassador to Hungary under Secretary of State Hillary Clinton. During her tenure, from 2010 to 2013, Hungary was a key ally in the U.S. military surge, held elections in which a center-right candidate gained a two-thirds supermajority and rewrote the country's constitution, and grappled with the rise of Hungarian nationalism and anti-semitism. The first Greek-American woman ever to serve as a U.S. ambassador, Kounalakis recounts her training at the State Department's "charm school" and her three years of diplomatic life in Budapest—from protocols about seating, salutations, and embassy security to what to do when the deposed King of Greece hands you a small chocolate crown (eat it, of course!). A cross between a foreign policy memoir and an inspiring personal family story—her immigrant Greek father went from agricultural day laborer to land developer and major Democratic party activist—Madam Ambassador draws back the curtain on what it is like to represent the U.S. government abroad as well as how American embassies around the world function.

State of Resistance Manuel Pastor,2018-04-03 "Concise, clear and convincing. . . a vision for the country as a whole." —James Fallows, The New York Times Book Review A leading sociologist's brilliant and revelatory argument that the future of politics, work, immigration, and more may be found in California Once upon a time, any mention of California triggered unpleasant reminders of Ronald Reagan and right-wing tax revolts, ballot propositions targeting undocumented immigrants, and racist policing that sparked two of the nation's most devastating riots. In fact, California confronted many of the challenges the rest of the country faces now—decades before the rest of us. Today, California is leading the way on addressing climate change, low-wage work, immigrant integration, overincarceration, and more. As white residents became a minority and job loss drove economic uncertainty, California had its own Trump moment twenty-five years ago, but has become increasingly blue over each of the last seven presidential elections. How did the Golden State manage to emerge from its unsavory past to become a bellwether for the rest of the country? Thirty years after Mike Davis's hellish depiction of California in *City of Quartz*, the award-winning sociologist Manuel Pastor guides us through a new and improved California, complete with lessons that the nation should heed. Inspiring and expertly researched, *State of Resistance* makes the case for honestly engaging racial anxiety in order to address our true economic and generational challenges, a renewed commitment to public investments, the cultivation of social movements and community organizing, and more.

Model Rules of Professional Conduct American Bar Association. House of Delegates,Center for Professional Responsibility (American Bar Association),2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Culture: urban future UNESCO,2016-12-31 Report presents a series of analyses and recommendations for fostering the role of culture for sustainable development. Drawing on a global survey implemented with nine regional partners and insights from scholars, NGOs and urban thinkers, the report offers a global overview of urban heritage safeguarding, conservation and management, as well as the promotion of cultural and creative industries, highlighting their role as resources for sustainable urban development. Report is intended as a policy framework document to support governments in the implementation of the 2030 Agenda for Sustainable Urban Development and the New Urban Agenda.

Every Monday Matters Matthew Emerzian,2019-01-01 The idea was simple... what if we could get millions of people to engage in simple acts that were good for the world? Picking up litter, helping the homeless, smiling, planting a tree. And, in doing so, we would make the world a better place and also help people understand how much and why they matter. Every Monday Matters is a practical guide to life written by expert author Matthew Emerzian that kicks off each week with a specific and engaging theme to help you get inspired and live authentically. Each Monday you are provided with a mindful moment to reflect upon and opportunities to help you engage. There are also motivational quotes and inspirational journal prompts to help you on your journey.

Learning Science in Informal Environments National Research Council,Division of Behavioral and Social Sciences and Education,Center for Education,Board on Science Education,Committee on Learning Science in Informal Environments,2009-05-27 Informal science is a burgeoning field that operates across a broad

range of venues and envisages learning outcomes for individuals, schools, families, and society. The evidence base that describes informal science, its promise, and effects is informed by a range of disciplines and perspectives, including field-based research, visitor studies, and psychological and anthropological studies of learning. Learning Science in Informal Environments draws together disparate literatures, synthesizes the state of knowledge, and articulates a common framework for the next generation of research on learning science in informal environments across a life span. Contributors include recognized experts in a range of disciplines-research and evaluation, exhibit designers, program developers, and educators. They also have experience in a range of settings-museums, after-school programs, science and technology centers, media enterprises, aquariums, zoos, state parks, and botanical gardens. Learning Science in Informal Environments is an invaluable guide for program and exhibit designers, evaluators, staff of science-rich informal learning institutions and community-based organizations, scientists interested in educational outreach, federal science agency education staff, and K-12 science educators.

Vibrant and Healthy Kids National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Population Health and Public Health Practice,Committee on Applying Neurobiological and Socio-Behavioral Sciences from Prenatal Through Early Childhood Development: A Health Equity Approach,2019-12-27 Children are the foundation of the United States, and supporting them is a key component of building a successful future. However, millions of children face health inequities that compromise their development, well-being, and long-term outcomes, despite substantial scientific evidence about how those adversities contribute to poor health. Advancements in neurobiological and socio-behavioral science show that critical biological systems develop in the prenatal through early childhood periods, and neurobiological development is extremely responsive to environmental influences during these stages. Consequently, social, economic, cultural, and environmental factors significantly affect a child's health ecosystem and ability to thrive throughout adulthood. Vibrant and Healthy Kids: Aligning Science, Practice, and Policy to Advance Health Equity builds upon and updates research from Communities in Action: Pathways to Health Equity (2017) and From Neurons to Neighborhoods: The Science of Early Childhood Development (2000). This report provides a brief overview of stressors that affect childhood development and health, a framework for applying current brain and development science to the real world, a roadmap for implementing tailored interventions, and recommendations about improving systems to better align with our understanding of the significant impact of health equity.

Urban & Suburban Meadows Catherine B. Zimmerman,2010 Urban & Suburban Meadows has been revised with a new forward by Heather Holm, more photos and resources! Urban & Suburban Meadows, Bringing Meadowsaping to Big and Small Spaces is an enticing introduction to meadowsaping. Author and photographer, Catherine Zimmerman, combines her expertise in photography, storytelling, environmental issues, horticulture and organic practices to offer meadowsaping as an alternative to reduce monoculture lawns. Zimmerman crafts a guide that provides step-by-step instructions on organically creating and maintaining beautiful meadow gardens. Four experts in meadow establishment lend their knowledge for site preparation, design, native plants, planting and maintenance. The book provides plant lists and resource sections for nine regions across the United States along with local sources to assist the meadow creator in bringing diversity back to urban and suburban landscapes. Meadows can be big or small, short or tall. However large, the benefits are great. Meadows sequester carbon, retain water, filter pollutants, eliminate the need for fertilizers or pesticides and provide habitat for wildlife. Reduce your carbon footprint. Improve your neighborhood. Enjoy a meadow in your backyard!--Provided by publisher

America's Social Arsonist Gabriel Thompson,2016-03-29 A good organizer is a social arsonist who goes around setting people on fire.ÑFred Ross Raised by conservative parents who hoped he would Òstay with his own kind,Ó Fred Ross instead became one of the most influential community organizers in American history. His activism began alongside Dust Bowl migrants, where he managed the same labor camp that inspired John SteinbeckÕs The Grapes of Wrath. During World War II, Ross worked for the release of interned Japanese Americans, and after the war, he dedicated his life to building the political power of Latinos across California. Labor organizing in this country was forever changed when Ross knocked on the door of a young Cesar Chavez and encouraged him to become an organizer. Until now there has been no biography of Fred Ross, a man who believed a good organizer was supposed to fade into the crowd as others stepped forward. In AmericaÕs Social Arsonist, Gabriel Thompson provides a full picture of this complicated and driven man, recovering a forgotten chapter of American history and providing vital lessons for organizers today.

457 Days Kimberly A. Starr,2017-06-26 On the first day, Kimberly A. Starr's world fell apart. On the 54th, she realized even just eating was an uphill struggle. On the 85th, she celebrated her son's birthday-even though he was no longer with her. On the 264th day, she tried to make it through Christmas-the first without her son. On the 377th, she started thinking about her own healing process. On the 432nd, she started to let go. 457 Days is Starr's candid chronicle of these trying, life-altering days and every day in between, starting her journey on the 54th day after her son Tom died by suicide, recording her powerful emotions, relating cherished memories of her son, and expressing regret at the many ways he would never get to experience life. Starr's work is an intimate portrait of grief and anguish that will touch anyone with a loved one suffering from mental illness and suicidal ideation. At the same time, it is a celebration of her son's life and legacy-ensuring that Tom will not be remembered solely for the mode of his death. Starr recounts an entire life of wonderful memories and unforgettable experiences-and her own journey toward acceptance and peace.
