Tuttle Learning Chinese Characters Alison Matthews, Laurence Matthews, 2011-12-20 This user-friendly book is aimed at helping students of Mandarin Chinese learn and remember Chinese characters. At last—there is a truly effective and enjoyable way to learn Chinese characters! This book helps students to learn and remember both the meanings and the pronunciations of over 800 characters. This otherwise daunting task is made easier by the use of techniques based on the psychology of learning and memory. Key principles include the use of visual imagery, the visualization of short stories, and the systematic building up of more complicated characters from basic building blocks. Although *Learning Chinese Characters* is primarily a book for serious learners of Mandarin Chinese, it can be used by anyone with an interest in Chinese characters, without any prior knowledge of Chinese. It can be used alongside (or after, or even before) a course in the Chinese language. All characters are simplified (as in mainland China) but traditional characters are also given, when available. Key features: Specially designed pictures and stories are used in a structured way to make the learning process more enjoyable and effective, reducing the need for rote learning to the absolute minimum. The emphasis throughout is on learning and remembering the meanings and pronunciations of the characters. Tips are also included on learning techniques and how to avoid common problems. Characters are introduced in a logical sequence, which also gives priority to learning the most common characters first. Modern simplified characters are used, with pronunciations given in pinyin. Key information is given for each character, including radical, stroke-count, traditional form, compounds, and guidance on writing the character. This is a practical guide

with a clear, concise and appealing layout, and it is well-indexed with easy look-up methods. The 800 Chinese characters and 1,033 compounds specified for the original HSK Level A proficiency test are covered.

**Culture, Philosophy, and Chinese Medicine** Fengli Lan, 2012 Chinese medicine is a culturally dependent art of healing deeply rooted in the culture and philosophy of the country it originated from: China. This book has three independent but progressive parts, each bearing the title of one of the three courses taught by the author as a visiting professor at the Faculty of Philosophy, Vienna University, in the 2010-2011 winter semester, namely: Overview of Chinese Culture through Chinese Characters, Fundamental Concepts of Classical Chinese Philosophy and The Importance of Metaphors in Chinese Medicine, which are in the fields of philosophy of language, philosophy of science, and intercultural philosophy, aiming to reveal the essence of philosophy of Chinese language, classical Chinese philosophy and Chinese medicine within the context of a global, multicultural background. This book sums up the author's research outcome of the last few years in an area of study on culture, philosophy and Chinese medicine which has been too often misunderstood or insufficiently emphasized.

Linguistic Engineering Ji Fengyuan, 2003-11-30 When Mao and the Chinese Communist Party won power in 1949, they were determined to create new, revolutionary human beings. Their most precise instrument of ideological transformation was a massive program of linguistic engineering. They taught everyone a new political vocabulary, gave old words new meanings, converted traditional terms to revolutionary purposes, suppressed words that expressed incorrect thought, and required the whole

population to recite slogans, stock phrases, and scripts that gave correct linguistic form to correct thought. They assumed that constant repetition would cause the revolutionary formulae to penetrate people's minds, engendering revolutionary beliefs and values. In an introductory chapter, Dr. Ji assesses the potential of linguistic engineering by examining research on the relationship between language and thought. In subsequent chapters, she traces the origins of linguistic engineering in China, describes its development during the early years of communist rule, then explores in detail the unprecedented manipulation of language during the Cultural Revolution of 1966–1976. Along the way, she analyzes the forms of linguistic engineering associated with land reform, class struggle, personal relationships, the Great Leap Forward, Mao-worship, Red Guard activism, revolutionary violence, Public Criticism Meetings, the model revolutionary operas, and foreign language teaching. She also reinterprets Mao's strategy during the early stages of the Cultural Revolution, showing how he manipulated exegetical principles and contexts of judgment to frame his alleged opponents. The work concludes with an assessment of the successes and failures of linguistic engineering and an account of how the Chinese Communist Party relaxed its control of language after Mao's death.

The Conservation of Cave 85 at the Mogao Grottoes, Dunhuang Neville Agnew, Lori Wong, 2014-02-01  
The Mogao Grottoes, a World Heritage Site in northwestern China, are located along the ancient caravan routes—collectively known as the Silk Road—that once linked China with the West. Founded by a Buddhist monk in the late fourth century, Mogao flourished over the following millennium, as monks, local rulers, and travelers commissioned hundreds of cave temples cut into a mile-long rock cliff and

adorned them with vibrant murals. More than 490 decorated grottoes remain, containing thousands of sculptures and some 45,000 square meters of wall paintings, making Mogao one of the world's most significant sites of Buddhist art. In 1997 the Getty Conservation Institute, which had been working with the Dunhuang Academy since 1989, began a case study using the Late–Tang dynasty Cave 85 to develop a methodology that would stabilize the deteriorating wall paintings. This abundantly illustrated volume is the definitive report on the project, which was completed in 2010.

**Self Portrait in Green** Marie NDiaye, 2021-02-25 'NDiaye is a hypnotic storyteller with an unflinching understanding of the rock-bottom reality of most people's life.' New York Times 'One of France's most exciting prose stylists.' The Guardian. Obsessed by her encounters with the mysterious green women, and haunted by the Garonne River, a nameless narrator seeks them out in La Roche, Paris, Marseille, and Ouagadougou. Each encounter reveals different aspects of the women; real or imagined, dead or alive, seductive or suicidal, driving the narrator deeper into her obsession, in this unsettling exploration of identity, memory and paranoia. *Self Portrait in Green* is the multi-prize winning, Marie NDiaye's brilliant subversion of the memoir. Written in diary entries, with lyrical prose and dreamlike imagery, we start with and return to the river, which mirrors the narrative by posing more questions than it answers.

*Chinese Religiosities* Mayfair Mei-hui Yang, 2008-11-04 Extraordinarily timely and useful. As China emerges as an economic and political world power that seems to have done away with religion, in fact it is witnessing a religious revival. The thoughtful essays in this book show both the historical conflicts between state authorities and religious movements and the contemporary encounters that are shaping China's future.

I am aware of no other book that covers so much ground and can be used so well as an introduction to this important field. —Peter van der Veer, University of Utrecht

*The Classic of Mountains and Seas*, 2000-01-01 This major source of Chinese mythology (third century BC to second century AD) contains a treasure trove of rare data and colorful fiction about the mythical figures, rituals, medicine, natural history, and ethnic peoples of the ancient world. The Classic of Mountains and Seas explores 204 mythical figures such as the gods Foremost, Fond Care, and Yellow, and goddesses Queen Mother of the West and Girl Lovely, as well as many other figures unknown outside this text. This eclectic Classic also contains crucial information on early medicine (with cures for impotence and infertility), omens to avert catastrophe, and rites of sacrifice, and familiar and unidentified plants and animals. It offers a guided tour of the known world in antiquity, moving outwards from the famous mountains of central China to the lands “beyond the seas.” Translated with an introduction and notes by Anne Birrell.

*Mainstream Culture Refocused* Xueping Zhong, 2019-01-31 Serialized television drama (dianshiju), perhaps the most popular and influential cultural form in China over the past three decades, offers a wide and penetrating look at the tensions and contradictions of the post-revolutionary and pro-market period. Zhong Xueping’s timely new work draws attention to the multiple cultural and historical legacies that coexist and challenge each other within this dominant form of story telling. Although scholars tend to focus their attention on elite cultural trends and avant garde movements in literature and film, Zhong argues for recognizing the complexity of dianshiju’s melodramatic mode and its various subgenres, in effect refocusing

mainstream Chinese culture. *Mainstream Culture Refocused* opens with an examination of television as a narrative motif in three contemporary Chinese art-house films. Zhong then turns her attention to dianshiju's most important subgenres. Emperor dramas highlight the link between popular culture's obsession with emperors and modern Chinese intellectuals' preoccupation with issues of history and tradition and how they relate to modernity. In her exploration of the anti-corruption subgenre, Zhong considers three representative dramas, exploring their diverse plots and emphases. Youth dramas' rich array of representations reveal the numerous social, economic, cultural, and ideological issues surrounding the notion of youth and its changing meanings. The chapter on the family-marriage subgenre analyzes the ways in which women's emotions are represented in relation to their desire for happiness. Song lyrics from music composed for television dramas are considered as popular poetics. Their sentiments range between nostalgia and uncertainty, mirroring the social contradictions of the reform era. The Epilogue returns to the relationship between intellectuals and the production of mainstream cultural meaning in the context of China's post-revolutionary social, economic, and cultural transformation. Provocative and insightful, *Mainstream Culture Refocused* will appeal to scholars and students in studies of modern China generally and of contemporary Chinese media and popular culture specifically.

*The Book of Master Mo* Mo Zi, 2013-11-07 A key work of ancient Chinese philosophy is brought back to life in Ian Johnston's compelling and definitive translation, new to Penguin Classics. Very little is known about Master Mo, or the school he founded. However, the book containing his philosophical ideas has survived centuries of neglect and is today recognised as a fundamental work of ancient Chinese philosophy.

The book contains sections explaining the ten key doctrines of Mohism; lively dialogues between Master Mo and his followers; discussion of ancient warfare; and an extraordinary series of chapters that include the first examples of logic, dialectics and epistemology in Chinese philosophy. The ideas discussed in The Book of Master Mo - ethics, anti-imperialism, and a political hierarchy based on merit - remain as relevant as ever, and the work is vital to understanding ancient Chinese philosophy. Translator Ian Johnston has an MA in Latin, a PhD in Greek and a PhD in Chinese, and was Associate Professor of Neurosurgery at Sydney University until his retirement. He has published translations of Galen's medical writings, early Chinese poetry (Singing of Scented Grass and Waiting for the Owl), and early Chinese philosophical works (the Mozi and - with Wang Ping - the Daxue and Zhongyong). In 2011 he was awarded the NSW Premier's Prize and the PEN medallion for translation. Unlike previous translations, this version includes the complete text. It also includes an introduction and explanatory end notes. 'A landmark endeavour' Asia Times 'A magnificent and valuable achievement' Journal of Chinese Studies 'Eminently readable and at the same time remarkably accurate...Johnston's work will be the standard for a long time' China Review International 'Compelling and engaging reading...while at the same time preserving the diction and rhetorical style of the original Chinese' New Zealand Journal of Asian Studies

*Understanding Vietnam* Neil L. Jamieson, 2023-11-10 The American experience in Vietnam divided us as a nation and eroded our confidence in both the morality and the effectiveness of our foreign policy. Yet our understanding of this tragic episode remains superficial because, then and now, we have never grasped the passionate commitment with which the Vietnamese clung to and fought over their own competing visions of what Vietnam was and what it might become. To understand the war, we must understand the Vietnamese, their culture, and their ways of looking at the world. Neil L. Jamieson, after many years of living and working in Vietnam, has written the book that provides this understanding. Jamieson paints a portrait of twentieth-century Vietnam. Against the background of traditional Vietnamese culture, he takes

us through the saga of modern Vietnamese history and Western involvement in the country, from the coming of the French in 1858 through the Vietnam War and its aftermath. Throughout his analysis, he allows the Vietnamese—both our friends and foes, and those who wished to be neither—to speak for themselves through poetry, fiction, essays, newspaper editorials and reports of interviews and personal experiences. By putting our old and partial perceptions into this new and broader context, Jamieson provides positive insights that may perhaps ease the lingering pain and doubt resulting from our involvement in Vietnam. As the United States and Vietnam appear poised to embark on a new phase in their relationship, Jamieson's book is particularly timely.

**Role of Japan in Modern Chinese Art** Joshua A. Fogel, 2012 The modern histories of China and Japan

are inexorably intertwined. Their relationship is perhaps most obvious in the fields of political, economic, and military history, but it is no less true in cultural and art history. Yet the traffic in artistic practices and practitioners between China and Japan remains an understudied field. In this volume, an international group of scholars investigates Japan's impact on Chinese art from the mid-nineteenth century through the 1930s. Individual essays address a range of perspectives, including the work of individual Chinese and Japanese painters, calligraphers, and sculptors, as well as artistic associations, international exhibitions, the collotype production or artwork, and the emergence of a modern canon.
