Costume, Makeup, and Hair Adrienne L. McLean,2016-10-07 Movie buffs and film scholars alike often overlook the importance of makeup artists, hair stylists, and costumers. With precious few but notable exceptions, creative workers in these fields have received little public recognition, even when their artistry goes on to inspire worldwide fashion trends. From the acclaimed Behind the Silver Screen series, Costume, Makeup, and Hair charts the development of these three crafts in the American film industry from the 1890s to the present. Each chapter examines a different era in film history, revealing how the arts of cinematic costume, makeup, and hair, have continually adapted to new conditions, making the transitions from stage to screen, from monochrome to color, and from analog to digital. Together, the book's contributors give us a remarkable glimpse into how these crafts foster creative collaboration and improvisation, often fashioning striking looks and ingenious effects out of limited materials. Costume, Makeup, and Hair not only considers these crafts in relation to a wide range of film genres, from sci-fi spectacles to period dramas, but also examines the role they have played in the larger marketplace for fashion and beauty products. Drawing on rare archival materials and lavish color illustrations, this volume provides readers with both a groundbreaking history of film industry labor and an appreciation of cinematic costume, makeup, and hairstyling as distinct art forms.

The American Beauty Industry Encyclopedia Julie Willett,2010-05-11 This is the first encyclopedia to focus exclusively on the many aspects of the American beauty industry, covering both its diverse origins and its global reach. The American Beauty Industry Encyclopedia is the first compilation to focus exclusively on this pervasive business, covering both its diverse origins and global reach. More than 100 entries were chosen specifically to illuminate the most iconic aspects of the industry's past and present, exploring the meaning of beauty practices and products, often while making analytical use of categories such as gender, race, sexuality, and stages of the lifecycle. Focusing primarily on the late-19th and 20th-century American beauty industry—an era of unprecedented expansion—the encyclopedia covers ancient practices and the latest trends and provides a historical examination of institutions, entrepreneurs, styles, and technological innovations. It covers, for example, the 1911 Triangle Shirtwaist Factory fire, as well as how Asian women today are having muscle fiber removed from their calves to create a more Western look. Entries also explore how the industry reflects social movements and concerns that are inextricably bound to religion, feminism, the health and safety of consumers and workers, the treatment of animals, and environmental sustainability.
