### **Censored** Matthew Fellion, Katherine

Inglis, 2017-09-05 When Henry Vizetelly was imprisoned in 1889 for publishing the novels of Émile Zola in English, the problem was not just Zola's French candour about sex – it was that Vizetelly's books were cheap, and ordinary people could read them. *Censored* exposes the role that power plays in censorship. In twenty-five chapters focusing on a wide range of texts, including the Bible, slave narratives, modernist classics, comic books, and Chicana/o literature, Matthew Fellion and Katherine Inglis chart the forces that have driven censorship in the United Kingdom and the United States for over six hundred years, from fears of civil unrest and corruptible youth to the oppression of various groups – religious and political dissidents, same-sex lovers, the working class, immigrants, women, racialized people, and those who have been incarcerated or enslaved. The authors also consider the weight of speech, and when restraints might be justified. Rich with illustrations that bring to life the personalities and the books that feature in its stories, *Censored* takes readers behind the scenes into the courtroom battles, legislative debates, public campaigns, and private exchanges that have shaped the course of literature. A vital reminder that the freedom of speech has always been fragile and never enjoyed equally by all, *Censored* offers lessons from the past to guard against threats to literature in a new political era.

### **Interpreting Censorship in Canada** Allan C.

Hutchinson, Klaus Petersen, 1999-01-01 Socially organized activity cannot occur without censorship. Going beyond ideological arguments, this collection of essays explores the extent of censorship in Canada today, the forms censorship takes, and the interests it serves.

### **Patterns Of Censorship Around The World** Ilan

Peleg,Vladimir Wozniuk,2019-06-04 This volume addresses an important aspect in the political life of most societies today: limitations on freedom of expression and the existence of censorship. As a topic for research, study, and reflection-particularly in its comparative dimension-freedom of expression is a somewhat neglected area. The vast majority of studies in this field focus either on a specific aspect of freedom of expression or on a specific country. The current volume, however, assumes that there is much to be gained by studying freedom of expression and censorship practices broadly and comparatively. In a world grown small, global perspective is possible and beneficial, particularly when it is applied to an issue of great relevance for all societies.

*Writing and Censorship in Britain* Paul Hyland,Neil Sammells,2023-02-03 First published in 1992, *Writing and Censorship in Britain* explores the issue of censorship, from a range of cultural and literary perspectives, from the Tudor period to the 1990s. Written by some of the leading experts in the field, this collection charts the struggles for artistic expression, reveals how censorship is appropriated as a legitimate tactic in the defence of oppressed and marginalised groups, and analyses the struggles writers have employed in the face of its complex dynamics. Here variously defined, defended and deplored, censorship emerges as both an unstable and a potent concept. Through it we define ourselves: as readers, as writers and as citizens. This book will be of interest to students of literature, history and law.

Free Speech and Censorship Around the Globe Péter Molnár,2015-02-01 This book focuses on regulatory challenges of creating and sustaining freedom of speech and freedom of information two decades after the fall of the Berlin wall, in global, comparative context. Some

chapters overview, others address specific issues, or describe country case studies. Instead of trying to provide an exhaustive assessment which in one volume might not reach deeper analyzes of contextual details, this book will shed light on and help better understanding of general challenges for freedom of speech and information through varying comparative examples and highlighting important regulatory questions.

*Film Censorship in America* Jeremy Geltzer, 2017-11-28  
Since the first films played in nickelodeons, controversial movies have been cut or banned across the United States. Far from Hollywood, regional productions such as Oscar Micheaux's provocative race films and Nell Shipman's wildlife adventures were censored by men like Major M.L.C. Funkhouser, the terror of Chicago's cinemas, and Myrtelle Snell, the Alabama administrator who made the slogan Banned in Birmingham famous. Censorship continues today, with Utah's case against *Deadpool* (2016) pending in federal court and Robert Rodriguez's *Machete Kills* (2013) versus the Texas Film Commission. This authoritative state-by-state account covers the history of film censorship and the battle for free speech in America.

**Banned Plays** Dawn B. Sova, 2004 An alphabetical listing of plays that have been banned throughout history with a short synopsis and reason for banning as well as profiles of the playwrights and other resource material.

**Censorship in Islamic Societies** Trevor Mostyn, 2002  
A study of the question of freedom of expression in the Middle East. Includes analysis of censorship in Algeria, the fatwa against Salman Rushdie, Taliban repression in Afghanistan and the 1980 transmission on British TV of *Death of a Princess*.

**The Censorship of Eighteenth-Century Theatre**  
David O'Shaughnessy, 2023-08-31 A far-reaching analysis of

censorship's profound impact on Georgian theatrical culture and its development across the long eighteenth century, showcasing how the analysis of plays can be helpful for historical research.

**Readers' Guide to Periodical Literature** Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1919

British Modernism and Censorship Celia Marshik, 2006-07-06 Government censorship had a profound impact on the development of canonical modernism and on the public images of modernist writers. Celia Marshik argues that censorship can benefit as well as harm writers and the works they create in response to it. She weaves together histories of official and unofficial censorship, of individual writers and their relationships to such censorship and of British modernism. Throughout, Marshik draws on an extraordinary range of evidence, including the files of government agencies and social purity organisations. She analyses how works were written, revised, published and performed in relation to this complex web of social forces. Chapters of Dante Gabriel Rossetti, Bernard Shaw, Virginia Woolf, James Joyce and Jean Rhys demonstrate that by both reacting against and complying with the forces of repression, writers reaped personal and stylistic benefits for themselves and for society at large.

**Captain of the Carpathia** Eric L. Clements, 2016-02-11 Responding to Titanic's distress calls in the early hours of 15 April 1912, Captain Arthur Rostron raced the Cunard liner Carpathia to the scene of the sinking, rescued the seven hundred survivors of the world's most famous shipwreck and then carried them to safety at New York. After twenty-five years at sea, the competence and compassion Rostron displayed during the rescue made

him a hero on two continents and presaged his subsequent achievements. During the First World War he participated in the invasion of Gallipoli and commanded Cunard's Mauretania as a hospital ship in the Mediterranean and a troop transport in the Atlantic. As her longest-serving master he commanded that legendary vessel in transatlantic passenger service through most of the 1920s. Rostron retired in 1931 as the most esteemed master mariner of his era, celebrated for the Titanic rescue, decorated for his war service, and knighted for his contributions to British seafaring. This account uses newspaper reports, company records, government documents, contemporary publications and memoirs to recount Rostron's seafaring life from his first voyage as an apprentice rounding Cape Horn in sail to his retirement forty-four years later as commodore of the Cunard Line. Set within the context of his times and featuring particulars of the ships in which he served and commanded, this is the first comprehensive biography of Arthur Rostron before, during and after his year as captain of the Carpathia.

The Censorship of English Drama 1824-1901 John Russell Stephens, 2010-06-10 Originally published in 1980, this was the first study to make use of the Lord Chamberlain's files on English stage censorship. Dramatic censorship is shown to be a significant index of the Victorian age and the book fills an important gap in the knowledge and understanding not only of Victorian theatre, but of Victorian manners and attitudes.

Survival Analysis with Interval-Censored Data Kris Bogaerts, Arnost Komarek, Emmanuel Lesaffre, 2017-11-20 Survival Analysis with Interval-Censored Data: A Practical Approach with Examples in R, SAS, and BUGS provides the reader with a practical introduction into the analysis of

interval-censored survival times. Although many theoretical developments have appeared in the last fifty years, interval censoring is often ignored in practice. Many are unaware of the impact of inappropriately dealing with interval censoring. In addition, the necessary software is at times difficult to trace. This book fills in the gap between theory and practice. Features: -Provides an overview of frequentist as well as Bayesian methods. -Include a focus on practical aspects and applications. -Extensively illustrates the methods with examples using R, SAS, and BUGS. Full programs are available on a supplementary website. The authors: Kris Bogaerts is project manager at I-BioStat, KU Leuven. He received his PhD in science (statistics) at KU Leuven on the analysis of interval-censored data. He has gained expertise in a great variety of statistical topics with a focus on the design and analysis of clinical trials. Arnošt Komárek is associate professor of statistics at Charles University, Prague. His subject area of expertise covers mainly survival analysis with the emphasis on interval-censored data and classification based on longitudinal data. He is past chair of the Statistical Modelling Society and editor of Statistical Modelling: An International Journal. Emmanuel Lesaffre is professor of biostatistics at I-BioStat, KU Leuven. His research interests include Bayesian methods, longitudinal data analysis, statistical modelling, analysis of dental data, interval-censored data, misclassification issues, and clinical trials. He is the founding chair of the Statistical Modelling Society, past-president of the International Society for Clinical Biostatistics, and fellow of ISI and ASA.

*Intellectual Freedom and Censorship* Frank W. Hoffmann, 1989 'Succinct annotations...clear research strategies... Surprisingly for a bibliography, the book as a whole gives a very clear picture of the intellectual freedom

issues that provide Americans...Its use in library school curricula would be of great benefit to our profession.'-- JOYS

**Cinema, Censorship and Sexuality 1909-1925 (Routledge Revivals)** Annette Kuhn, 2016-04-06 First published in 1988. This book shows how censorship as a set of institutions, practices and discourses was involved in the struggle over the nature of cinema in the early twentieth century. It also reveals the part played in this struggle by other institutions, practices and discourses — for example ‘new’ knowledge about sexuality and organisations devoted to the promotion of public morality. Instead of censorship simply being an act of prohibition by a special institution, this work reveals the issues at work were far more complex and contradictory — opening up critical scrutiny and challenging assumptions. This title will be of interest to students of media and film studies.

**An Index to "Index on Censorship"** Judi Vernau, Alison Bennett, 1989

**Hitler's Man in Havana** Thomas Schoonover, 2008-09-12 When Heinz Lüning posed as a Jewish refugee to spy for Hitler's Abwehr espionage agency, he thought he had discovered the perfect solution to his most pressing problem: how to avoid being drafted into Hitler's army. Lüning was unsympathetic to Fascist ideology, but the Nazis' tight control over exit visas gave him no chance to escape Germany. He could enter Hitler's army either as a soldier . . . or a spy. In 1941, he entered the Abwehr academy for spy training and was given the code name "Lumann." Soon after, Lüning began the service in Cuba that led to his ultimate fate of being the only German spy executed in Latin America during World War II. Lüning was not the only spy operating in Cuba at the time. Various Allied spies labored in Havana; the FBI

controlled eighteen Special Intelligence Service operatives, and the British counterintelligence section subchief Graham Greene supervised Secret Intelligence Service agents; and Ernest Hemingway's private agents supplied inflated and inaccurate information about submarines and spies to the U.S. ambassador, Spruille Braden. Lüning stumbled into this milieu of heightened suspicion and intrigue. Poorly trained and awkward at his work, he gathered little information worth reporting, was unable to build a working radio and improperly mixed the formulas for his secret inks. Lüning eventually was discovered by British postal censors and unwittingly provided the inspiration for Graham Greene's *Our Man in Havana*. In chronicling Lüning's unlikely trajectory from a troubled life in Germany to a Caribbean firing squad, Thomas D. Schoonover makes brilliant use of untapped documentary sources to reveal the workings of the famed Abwehr and the technical and social aspects of Lüning's spycraft. Using archival sources from three continents, Schoonover offers a narrative rich in atmospheric details to reveal the political upheavals of the time, not only tracking Lüning's activities but also explaining the broader trends in the region and in local counterespionage. Schoonover argues that ambitious Cuban and U.S. officials turned Lüning's capture into a grand victory. For at least five months after Lüning's arrest, U.S. and Cuban leaders—J. Edgar Hoover, Fulgencio Batista, Nelson Rockefeller, General Manuel Benítez, Ambassador Spruille Braden, and others—treated Lüning as a dangerous, key figure for a Nazi espionage network in the Gulf-Caribbean. They reworked his image from low-level bumbler to master spy, using his capture for their own political gain. In the sixty years since Lüning's execution, very little has been written about Nazi espionage in Latin America, partly due to the reticence of

the U.S. government. Revealing these new historical sources for the first time, Schoonover tells a gripping story of Lüning's life and capture, suggesting that Lüning was everyone's man in Havana but his own.
