The Critical Link 4 Cecilia Wadensjö,Birgitta Englund Dimitrova,Anna-Lena Nilsson,2007-01-01 This book is a collection of papers presented in Stockholm, at the fourth Critical Link conference. The book is a well-balanced mix of academic research and texts of a more practical, professional character.The introducing article explicitly addresses the issue of professionalism and how this has been dealt with in research on interpreting. The following two sections provide examples of recent research, applying various theoretical approaches. Section four reports on the development of current, more or less local standards. Section five raises issues of professional ideology. The final section tells about new training initiatives and programmes. All contributions were selected because of their relevance to the theme of professionalisation of interpreting in the community. The volume is the fourth in a series, documenting the advance of a whole new empirical and professional field. It is of central interest for all people involved in this development, interpreters, researchers, trainers and others.

Multi-Agent Systems and Applications IV Michal Pechoucek,Paolo Petta,Laszlo Zsolt Varga,2005-10-03 The aim of the CEEMAS conference series is to provide a biennial forum for the presentation of multi-agent research and development results. With its particular geographicalorientation towards Central and Eastern Europe, CEEMAS has become an internationally recognised event with participants from all over the world. After the successful CEEMAS conferences in St. Petersburg (1999), Cracow (2001) and Prague (2003), the 2005 CEEMAS conference takes place in Budapest. The programme committee of the conference series consists of established researchers from the region and renowned international colleagues, sharing the prominent rank of CEEMAS among the leading events in multi-agent systems. In the very competitive field of agent oriented conferences and workshops nowadays(suchasAAMAS,WI/IAT,EUMAS,CIA,MATES)thespecialprofile of CEEMAS is that it is trying to bridge the gap between applied research achievements and theoretical research activities. Our ambition is to provide a forum for presenting theoretical research with an evident application potential, implemented application prototypes and their properties, as well as industrial case studies of successful (but also unsuccessful) agent technology deployments. This is why the CEEMAS proceedings volume provides a collection of research and application papers. The technical research paper section of the proceedings (see pages 11–499) contains pure research papers as well as research results in application settings while the application papers section (see pages 500–530) contains papers focused on application aspects. The goal is to demonstrate the real life value and commercial reality of multi-agent systems as well as to foster communication between academia and industry in this field.

A Is for Attitude Patricia Russell-McCloud,2002-02-05 Patricia Russell-McCloud's message of personal empowerment and professional accountability shows you how to have the courage to face all that life has to offer -- the disappointments and the pleasures. Russell-McCloud shows you how to stop making the excuses that hinder you from venturing beyond where you are. Using the alphabet as a touchstone, A Is for Attitude: An Alphabet for Living offers you, chapter by chapter, a new commitment to assess your strengths and fulfill more of your potential. You'll learn to live with Courage, to tap your Genius and Brainpower, to fight for Justice and Truth, to take Risks, and develop a Vision. A Is for Attitude brims with anecdotes, advice, and action steps, and provides a blueprint for a successful life that has meaning, substance, and contentment at its core.
