The ASEAN Digital Economy Paul Cheung,Xie Taojun,2023-08-15 Boasting the fastest growing Internet market in the world, Association of Southeast Asian Nations (ASEAN) is accelerating into the digital economy. This book assesses the potential economic impact of digital economy agreements (DEAs) and the readiness of some ASEAN member states to grow the digital economy in collaboration. The book presents a novel framework to assess countries' readiness to enter digital economy collaborations, following the architecture of Singapore's DEAs with its trading partners. It takes a bird's-eye view of the digital economy in ASEAN and reviews the current state of digital infrastructure and regulations. The book also includes simulation exercises to project economic outcomes delivered by regional collaborations. It also elaborates on the specific strengths and weaknesses of five ASEAN member states. These ASEAN member states include Indonesia, Malaysia, the Philippines, Vietnam, and Cambodia. The book concludes by revisiting the ASEAN economy as a whole. It points out key issues country leaders need to work on as they proceed with digital economy collaborations. This book is written for scholars, policymakers, and industrial practitioners who wish to learn the latest developments in the ASEAN digital economy.

On the constitutionality of a national bank Alexander Hamilton,2022-09-15 Alexander Hamilton was an American revolutionary, statesman, and Founding Father of the United States. In this report of 1791, he advocated a national bank called the Bank of the United States, modeled after the Bank of England. Hamilton believed that a national bank was required to stabilize and improve the nation's credit and to improve the financial order, clarity, and precedence of the United States government under the newly legislated Constitution.

Proceedings of the XVII International symposium Symorg 2020 Dušan Starčević,Sanja Marinković,2020-06-30 Ever since 1989, the Faculty of Organizational Sciences, University of Belgrade, has been the host of SymOrg, an event that promotes scientific disciplines of organizing and managing a business. Traditionally, the Symposium has been an opportunity for its participants to share and exchange both academic and practical knowledge and experience in a pleasant and creative atmosphere. This time, however, due the challenging situation regarding the COVID-19 pandemic, we have decided that all the essential activities planned for the International Symposium SymOrg 2020 should be carried out online between the 7th and the 9th of September 2020. We are very

pleased that the topic of SymOrg 2020, “Business and Artificial Intelligence”, attracted researchers from different institutions, both in Serbia and abroad. Why is artificial intelligence a disruptive technology? Simply because “it significantly alters the way consumers, industries, or businesses operate.” According to the European Commission document titled Artificial Intelligence for Europe 2018, AI is a key disruptive technology that has just begun to reshape the world. The Government of the Republic of Serbia has also recognized the importance of AI for the further development of its economy and society and has prepared an AI Development Strategy for the period between 2020 and 2025. The first step has already been made: the Science Fund of the Republic of Serbia, after a public call, has selected and financed twelve AI projects. This year, more than 200 scholars and practitioners authored and co-authored the 94 scientific and research papers that had been accepted for publication in the Proceedings. All the contributions to the Proceedings are classified into the following 11 sections: Information Systems and Technologies in the Era of Digital Transformation Smart Business Models and Processes Entrepreneurship, Innovation and Sustainable Development Smart Environment for Marketing and Communications Digital Human Resource Management Smart E-Business Quality 4.0 and International Standards Application of Artificial Intelligence in Project Management Digital and Lean Operations Management Transformation of Financial Services Methods and Applications of Data Science in Business and Society We are very grateful to our distinguished keynote speakers: Prof. Moshe Vardi, Rice University, USA, Prof. Blaž Zupan, University of Ljubljana, Slovenia, Prof. Vladan Devedžić, University of Belgrade, Serbia, Milica Đurić-Jovičić, PhD, Director, Science Fund of the Republic of Serbia, and Harri Ketamo, PhD, Founder & Chairman of HeadAI Ltd., Finland. Also, special thanks to Prof. Dragan Vukmirović, University of Belgrade, Serbia and Prof. Zoran Ševarac, University of Belgrade, Serbia for organizing workshops in fields of Data Science and Machine Learning and to Prof. Rade Matić, Belgrade Business and Arts Academy of Applied Studies and Milan Dobrota, PhD, CEO at Agremo, Serbia, for their valuable contribution in presenting Serbian experiences in the field of AI. The Faculty of Organizational Sciences would to express its gratitude to the Ministry of Education, Science and Technological Development and all the individuals who have supported and contributed to the organization of the Symposium. We are particularly grateful to the contributors and reviewers who made this issue possible. But above all, we are especially thankful to the authors and presenters for making the SymOrg 2020 a success!
