Human Genes and Neoliberal Governance Antoinette Rouvroy,2007-12-13 Original and interdisciplinary, this is the first book to explore the relationship between a neoliberal mode of governance and the so-called genetic revolution. Looking at the knowledge-power relations in the post-genomic era and addressing the pressing issues of genetic privacy and discrimination in the context of neoliberal governance, this book demonstrates and explains the mechanisms of mutual production between biotechnology and cultural, political, economic and legal frameworks. In the first part Antoinette Rouvroy explores the social, political and economic conditions and consequences of this new ‘perceptual regime’. In the second she pursues her analysis through a consideration of the impact of ‘geneticization’ on political support of the welfare state and on the operation of private health and life insurances. Genetics and neoliberalism, she argues, are complicit in fostering the belief that social and economic patterns have a fixed nature beyond the reach of democratic deliberation, whilst the characteristics of individuals are unusually plastic, and within the scope of individual choice and responsibility. This book will be of interest to all students of law, sociology and politics.

The Value of Values Ed Gagnon,2009-09-01 An individual's values are established in childhood and serve as filters when determining right from wrong throughout the person's life. In today's society, this process of establishing values within our children is given little concern. The responsibilities of parenting have become a reactionary process whereby each parent is doing whatever he or she must do in order to get through life. By default, we are teaching our children that values such as integrity, respect for life, courage of conviction, purposefulness and generosity are secondary to making a living. In truth, there is nothing stopping us from being true to good and meaningful values except ourselves. The Value of Values teaches us the required actions and the reasons this important transition is needed. This book identifies what it will take from each of us to sustain the drive to pass our values onto our children. Ed Gagnon is a vice president at a manufacturing company in North Attleboro, Massachusetts. The Value of Values is his fifth published book, and he has more in the works.

The Matchmaker Of Perigord Julia Stuart,2009-07-15 A perpetual breeze blows through Amour-sur-Belle, a village so ugly that even the English refuse to live there. Guillaume Ladoucette the barber is forced to give up his business as the advancing age of his customers means many have gone bald. He decides to set himself up as a matchmaker instead, for, despite its name, love is the one thing that Amour-sur-Belle lacks. Some shun Denise Vigier because her grandmother was found guilty of horizontal collaboration during the war. The bar owner refuses to serve Madame Fournier, the mushroom poisoner. And Madame Ladoucette and Madame Moreau have been trading insults for so long they have become almost a form of greeting. 'Not everyone falls instantly head over heels,' the matchmaker counsels. 'Love is like a good cassoulet, it needs time and determination.' But how can a matchmaker make love simmer - when he has not yet solved the problem of his own troubled heart?

Here Lies Arthur Philip Reeve,2015-01-06 Welcome to the dark side of Camelot. The acclaimed author of *Mortal Engines* delivers a “powerfully inventive” re-creation of the King Arthur tale (Booklist, starred review). Gwynna is just a girl who is forced to run when her village is attacked and burns to the ground. To her horror, she is discovered, but it is Myrddin the bard, a traveler and spinner of tales, who has found her. He agrees to protect Gwynna if she will agree to be bound in service to him. Gwynna is frightened but intrigued, for this Myrddin serves the young, rough, and powerful Arthur. In the course of their travels, Myrddin transforms Gwynna into the mysterious Lady of the Lake, a boy warrior, and a spy. It is part of a plot to transform Arthur from the leader of a ragtag war-band into King Arthur, the greatest hero of all time. If Gwynna and Myrddin’s trickery is discovered, what will become of Gwynna? Worse, what will become of Arthur? Only the endless battling, the mighty belief of men, and the sheer cunning of one remarkable girl will tell. “Nodding to canon and history while not particularly following either Reeve, like Myrddin, turns hallowed myth and supple prose to political purposes, neatly skewering the modern-day cult of spin and the age-old trickery behind it. Smart teens will love this.” —Publishers Weekly (starred review) “Is there room for yet another reworking of the Arthur legend? If it’s this one, yes . . . Absorbing, thought-provoking and unexpectedly timely.” —Kirkus Reviews (starred review) “A multilayered tour de force for mature young readers.” —School Library Journal

VW Kubelwagen/Schwimmwagen (VW Type 82 Kubelwagen (1940-45) / VW Type 128/166 Schwimmwagen (1941-44) Chris McNab,2015-06-15 Few war films made about the 1939-45 period are complete without sight of a boxy little Kübelwagen light utility vehicle being smartly driven by a German officer. Designed by Ferdinand Porsche and built by Volkswagen, the ‘Kübel’ was to the Germans what the Jeep was to the Allies and was used widely by the Wehrmacht and the Waffen-SS. When production ceased at the end of the war, 50,435 Kübelwagen had been built. Of simple but sturdy construction, the VW Type 82 Kübelwagen (which translates as 'bucket car' because of its similarity to a metal bathtub on

wheels) was based closely on the legendary VW Beetle. Its winning design features included air cooled engine (the absence of a radiator meant the engine was less vulnerable to bullet damage), a light-weight, flat and smooth under-body that allowed the car to slide over the surface when its wheels were sinking into sand, mud or snow, independent suspension, portal gear hub reduction and self-locking differential. Because the body was not a load-bearing part of the structure of the vehicle it could easily be modified to special purposes. Several dozen variants of the 'Kübel' were developed and built during the war including its cousin the Schwimmwagen. The VW Type 128 and 166 Schwimmwagen (which means floating or swimming car) were amphibious four-wheel drive off-rovers. Like the Kübel, they were used widely by the Wehrmacht and the Waffen-SS during the Second World War. The Type 166 Schwimm is the most numerous mass-produced amphibious car in history (14,265 between 1942 and 1944). Erwin Komenda, Ferdinand Porsche's first car body designer, developed an all-new unitized body-tub structure for the Schwimmwagen swimming car. When crossing water a screw propeller could be lowered from the rear deck engine cover and coupled to the engine's crankshaft to provide drive. The 'Schwimm' also shared many of the Kübel's mechanicals. The appeal of the Kübel lived on long after the war's end when a derivative version, the Volkswagen Type 181, was manufactured by VW from 1968 to 1983. This was a two-wheel drive, four-door, convertible, off-road military vehicle, which had been developed for the German Army but was also sold to the civilian market as the Kurierwagen in Germany, the Trekker in the UK, the Thing in the US, and the Safari in Mexico. In recent years both the Kübel and Schwimm have acquired something of a cult status among military vehicle collectors worldwide, particularly in Europe (eg, Germany, Poland Czech Republic, Switzerland), the UK and US. There are literally dozens of Kübelwagen and Schwimmwagen enthusiast/owner/interest groups! About 150 original Type 166 Schwimmwagens remain today.
