Francesco Ammannati

Murder on Memory Lake J.D. Griffo,2018-07-31 “A series with something for everyone: eager young newshounds, well-seasoned sleuths, and a stash of Italian recipes (some gluten-free) to boot.” —Kirkus Reviews For Alberta Scaglione, her golden years are turning out much differently than she expected—and much more deadly . . . Alberta Scaglione’s spinster aunt had some secrets—like the fortune she squirreled away and a secret lake house in Tranquility, New Jersey. More surprising: She’s left it all to Alberta. Alberta, a widow, is no spring chicken and she’s gotten used to disappointment. So having a beautiful view, surrounded by hydrangeas, honeysuckle, and her cat, Lola, sounds blissful after years of yelling and bickering and cooking countless lasagnas. But Tranquility isn’t as peaceful as it sounds. There’s a body in the water—and it belongs to Alberta’s childhood nemesis. Alberta suspects foul play and when her estranged granddaughter, an aspiring crime reporter, shows up, it only makes sense for them to team up and investigate . . . “Imagine the Golden Girls starting a detective agency and you’ll get the general idea of J.D. Griffo’s charming Ferrara Family mystery series.” —Criminal Element Includes Italian recipes from Alberta’s kitchen!

Willing's Press Guide and Advertisers' Directory and Handbook ,2002

Using Italian J. J. Kinder,V. M. Savini,2004-07 This 2002 book is a guide to Italian usage for students who have already acquired the basics of the language and wish to extend their knowledge. Unlike conventional grammars, it gives special attention to those areas of vocabulary and grammar which cause most difficulty to English-speakers. Careful consideration is given throughout to questions of style, register, and politeness which are essential to achieving an appropriate level of formality or informality in writing and speech. It surveys the contemporary linguistic scene in Italy and gives ample space to the new varieties of Italian that are emerging in modern Italy. The influence of the dialects in shaping the development of Italian is also acknowledged. Clear, readable and easy to consult via its two indexes, this is an essential reference for learners seeking access to the finer nuances of the Italian language.

Vendetta Giovanna Summerfield,2010-03-08 In spite of our clever and urban modern logic, our sharp common sense of destruction and reaction versus the more gratifying construction and proactive action, we still weave talionic plots that go beyond staged tragedies and past eras. Revenge continues to be popular in fiction as in non-fictional realms. As an audience, we enjoy films and books that hail the ‘getting even’ philosophy; even our

most renowned children's stories are seeded in vindication and retribution (Hansel and Gretel, Red Riding Hood, and Snow White, just to name a few), as our television programs, targeted to a more mature audience, are intended to be (see *Charmed* and *Scrubs*, as just two successful examples). This volume provides a riveting account of the role of revenge as muse to many characters of modern literature from various national origins and of modern societies with their own embedded cultural reactions as well as a diversity of approaches to wishes of violent counterattacks. Through a plurality of literary subjects and perspectives, this publication provides an overview much needed in our libraries and bookstores. Departing from the psychological complexities in Ovid's *Metamorphoses*, the contributors of this volume focus on chivalric avenges, models for violence management, and reinterpretations of the code of honor through the analysis of Hispanic, Italian, and French texts; emphasize the patient craftiness and adroit deceit of which women are capable, outmaneuvering men and their cold manipulations; provide documented incidents involving more than fictitious personages as in the case of an Italian portraitist active between the seventeenth and eighteenth centuries. This volume is a unique collection of topics, with a useful and practical approach to an abrasive phenomenon that remains relevant in our modern times.

How to Hack Like a Ghost Sparc Flow, 2021-05-11 *How to Hack Like a Ghost* takes you deep inside the mind of a hacker as you carry out a fictionalized attack against a tech company, teaching cutting-edge hacking techniques along the way. Go deep into the mind of a master hacker as he breaks into a hostile, cloud-based security environment. Sparc Flow invites you to shadow him every step of the way, from recon to infiltration, as you hack a shady, data-driven political consulting firm. While the target is fictional, the corporation's vulnerabilities are based on real-life weaknesses in today's advanced cybersecurity defense systems. You'll experience all the thrills, frustrations, dead-ends, and eureka moments of his mission first-hand, while picking up practical, cutting-edge techniques for penetrating cloud technologies. There are no do-overs for hackers, so your training starts with basic OpSec procedures, using an ephemeral OS, Tor, bouncing servers, and detailed code to build an anonymous, replaceable hacking infrastructure guaranteed to avoid detection. From there, you'll examine some effective recon techniques, develop tools from scratch, and deconstruct low-level features in common systems to gain access to the target. Spark Flow's clever insights, witty reasoning, and stealth maneuvers teach you how to think on your toes and adapt his skills to your own hacking tasks. You'll learn: How to set up and use an array of disposable machines that can renew in a matter of seconds to change your internet footprint How to do effective recon, like harvesting hidden domains and taking advantage of DevOps

automation systems to trawl for credentials How to look inside and gain access to AWS's storage systems How cloud security systems like Kubernetes work, and how to hack them Dynamic techniques for escalating privileges Packed with interesting tricks, ingenious tips, and links to external resources, this fast-paced, hands-on guide to penetrating modern cloud systems will help hackers of all stripes succeed on their next adventure.

Liber Hermetis / l'Ogdoade e l'Enneade Definizioni ermetiche Ermete Trismegisto, 2018-09-11T00:00:00+02:00 Tra i molteplici scritti ermetici pervenuti dall'antichità, queste tre opere sono senza dubbio le più compiute per ciò che riguarda le concezioni astrologiche dell'ermetismo e, più in generale, del mondo antico. Il Liber Hermetis è un florilegium, opera composta intorno al V secolo d.C. unificando testi ben più antichi, che quindi può considerarsi la più antica testimonianza complessiva e diretta dell'intera produzione ermetica dell'astrologia. L'universo, una volta studiato, svela per gli ermetici le trame del Destino di ognuno, sottolineando i legami degli uomini con il movimento di congiunzione e disgiunzione degli astri e con le loro proprietà, piante e animali nel mondo sub-lunare. L'Ogdoade e l'Enneade è un testo copto, proveniente dalla biblioteca gnostica di Nag Hammadi. Sotto forma di dialogo tra Ermete e un discepolo, l'opera descrive un'esperienza iniziatica di purificazione ed estasi, in stretta relazione con le concezioni astrologiche dell'ermetismo. Definizioni ermetiche, infine, è invece un testo armeno, più tardo, che fornisce una sintesi dei principali insegnamenti della dottrina ermetica.
