Alternative Investments CFA Institute,2021-11-24 The complete guide to alternative investments, from experts working with CFA Institute Alternative Investments is the definitive guide to understanding non-traditional asset classes. Alternatives are a disparate group of investments that are distinguished from long-only, publicly traded investments in stocks, bonds, and cash (often referred to as traditional investments). Alternative investments include real estate, commodities, infrastructure, and other non-traditional investments such as private equity or debt and hedge funds. They are attractive to investors because of the potential for portfolio diversification resulting in a higher risk-adjusted return for the portfolio. Alternative Investments and its accompanying workbook (sold separately) lead students and investment professionals through the many characteristics of non-traditional assets, including: Narrow specialization of the investment managers Relatively low correlation of returns with those of traditional investments Less regulation and less transparency than traditional investments Limited historical risk and return data Unique legal and tax considerations Higher fees, often including performance or incentive fees Concentrated portfolios Restrictions on redemptions (i.e. “lockups” and “gates”) CFA Institute is the world's premier association for investment professionals, and the governing body for the CFA® Program, CIPM® Program, CFA Institute ESG Investing Certificate, and Investment Foundations® Program. Those seeking a deeper understanding of the markets, mechanisms, and use of alternatives will value the level of expertise CFA Institute brings to the discussion, providing a clear, comprehensive resource for students and professionals alike. Whether used alone or in conjunction with the companion workbook, Alternative Investments offers a complete course in alternative investments and their role in investment management.

Alternative Investments: A Primer for Investment Professionals Donald R. Chambers,Keith H. Black,Nelson J. Lacey,2018 Alternative Investments: A Primer for Investment Professionals provides an overview of alternative investments for institutional asset allocators and other overseers of portfolios containing both traditional and alternative assets. It is designed for those with substantial experience regarding traditional investments in stocks and bonds but limited familiarity regarding alternative assets, alternative strategies, and alternative portfolio management. The primer categorizes alternative assets into four groups: hedge funds, real assets, private equity, and structured products/derivatives. Real assets include vacant land, farmland, timber, infrastructure, intellectual property, commodities, and private real estate. For each group, the primer provides essential information about the characteristics, challenges, and purposes of these institutional-quality alternative assets in the context of a well-diversified institutional portfolio. Other topics addressed by this primer include tail risk, due diligence of the investment process and operations, measurement and management of risks and returns, setting return expectations, and portfolio construction. The primer concludes with a chapter on the case for investing in alternatives.

Alternative Investments Workbook CFA Institute,2021-11-23 Hands-on practice with alternative investments based on real-world scenarios Alternative Investments Workbook provides the key component of effective learning—practice. Designed for both students and investment professionals, this companion workbook conveniently aligns with the Alternative Investments text chapter-by-chapter, offers brief chapter summaries to refresh your memory on key points before you begin working, and explicitly lays out the learning objectives so you understand the “why” of each problem. This workbook helps you: Synthesize essential material from the Alternative Investments text using real-world applications Understand the key characteristics of non-traditional investments Work toward specific chapter objectives to internalize important information CFA Institute is the world's premier association for investment professionals, and the governing body for the CFA® Program, CIPM® Program, CFA Institute ESG

Investing Certificate, and Investment Foundations® Program. Those seeking a deeper understanding of the markets, mechanisms, and use of alternatives will value the level of expertise CFA Institute brings to the discussion as well as the extra practice delivered in Alternative Investments Workbook based on real scenarios investors face every day.

Alternative Investments Donald R. Chambers, Mark J. P. Anson, Keith H. Black, Hossein B. Kazemi, CAIA Association, 2020-03-24 Alternative Investments: CAIA Level I, 4th Edition is the curriculum book for the Chartered Alternative Investment Analyst (CAIA) Level I professional examination. Covering the fundamentals of the alternative investment space, this book helps you build a foundation in alternative investment markets. You'll look closely at the different types of hedge fund strategies and the range of statistics used to define investment performance as you gain a deep familiarity with alternative investment terms and develop the computational ability to solve investment problems. From strategy characteristics to portfolio management strategies, this book contains the core material you will need to succeed on the CAIA Level I exam. This updated fourth edition tracks to the latest version of the exam and is accompanied by the following ancillaries: a workbook, study guide, learning objectives, and an ethics handbook.

Asset Allocation and Private Markets Cyril Demaria, Maurice Pedernana, Remy He, Roger Rissi, Sarah Debrand, 2021-04-19 The comprehensive guide to private market asset allocation Asset Allocation and Private Markets provides institutional investors, such as pension funds, insurance groups and family offices, with a single-volume authoritative resource on including private markets in strategic asset allocation. Written by four academic and practitioner specialists, this book provides the background knowledge investors need, coupled with practical advice from experts in the field. The discussion focuses on private equity, private debt and private real assets, and their correlation with other asset classes to establish optimized investment portfolios. Armed with the grounded and critical perspectives provided in this book, investors can tailor their portfolio and effectively allocate assets to traditional and private markets in their best interest. In-depth discussion of return, risks, liquidity and other factors of asset allocation takes a more practical turn with guidance on allocation construction and capital deployment, the “endowment model,” and hedging — or lack thereof. Unique in the depth and breadth of information on this increasingly attractive asset class, this book is an invaluable resource for investors seeking new strategies. Discover alternative solutions to traditional asset allocation strategies Consider attractive returns of private markets Delve into private equity, private debt and private real assets Gain expert perspectives on correlation, risk, liquidity, and portfolio construction Private markets represent a substantial proportion of global wealth. Amidst disappointing returns from stocks and bonds, investors are increasingly looking to revitalise traditional asset allocation strategies by weighting private market structures more heavily in their portfolios. Pension fund and other long-term asset managers need deeper information than is typically provided in tangential reference in broader asset allocation literature; Asset Allocation and Private Markets fills the gap, with comprehensive information and practical guidance.

Alternative Investments Donald R. Chambers, Hossein B. Kazemi, Keith H. Black, CAIA Association, 2020-09-14 Whether you are a seasoned professional looking to explore new areas within the alternative investment arena or a new industry participant seeking to establish a solid understanding of alternative investments, Alternative Investments: An Allocator's Approach, Fourth Edition (CAIA Level II curriculum official text) is the best way to achieve these goals. In recent years, capital formation has shifted dramatically away from public markets as issuers pursue better financial and value alignment with ownership, less onerous and expensive regulatory requirements, market and information dislocation, and liberation from the short-term challenges that undergird the public capital markets. The careful and

informed use of alternative investments in a diversified portfolio can reduce risk, lower volatility, and improve returns over the long-term, enhancing investors' ability to meet their investment outcomes. *Alternative Investments: An Allocator's Approach* (CAIA Level II curriculum official text) is a key resource that can be used to improve the sophistication of asset owners and those who work with them. This text comprises the curriculum, when combined with supplemental materials available at caia.org, for the CAIA Level II exam. Over the course of my long career one tenet has held true, 'Continuing Education'. Since CalSTRS is a teachers' pension plan, it is no surprise that continuing education is a core attribute of our Investment Office culture. Overseeing one of the largest institutional pools of capital in the world requires a cohesive knowledge and understanding of both public and private market investments and strategies. We must understand how these opportunities might contribute to delivering on investment outcomes for our beneficiaries. *Alternative Investments: An Allocator's Approach* is the definitive core instruction manual for an institutional investor, and it puts you in the captain's chair of the asset owner. —Christopher J. Ailman, Chief Investment Officer, California State Teachers' Retirement System Given their diversified cash flow streams and returns, private markets continue to be a growing fixture of patient, long-term portfolios. As such, the need to have proficiency across these sophisticated strategies, asset classes, and instruments is critical for today's capital allocator. As a proud CAIA charterholder, I have seen the practical benefits in building a strong private markets foundation, allowing me to better assist my clients. —Jayne Bok, CAIA, CFA, Head of Investments, Asia, Willis Tower Watson

CAIA Level II Melissa Donohue, Urbi Garay, Ernest Jaffarian, Francois Lhabitant, Pierre-Yves Mathonet, Thomas Meyer, Richard Spurgin, Simon Stevenson, 2010-11-29 Alternative investments have become the 'brooding omnipresence' of modern finance. As such, they are at the core of any significant discussion relating to asset allocation, risk management, and portfolio design. The topics outlined and discussed in this text provide a meaningful stop on the road toward understanding the complexities and rewards of these instruments. —Garry Crowder, Director, Institute for Alternative Investment Education and Research Sponsored by the CAIA Association, the Chartered Alternative Investment Analyst (CAIA) program consists of a two-tier exam process (Level I and Level II) through which you may earn the CAIA charter. The Level I exam challenges your understanding of the alternative investment market's tools and terms, and tests your knowledge of various trading strategies and performance measurements. The Level II exam assesses how you would apply the knowledge and analytics learned in Level I within an asset allocation framework. *CAIA Level II: Advanced Core Topics in Alternative Investments* contains virtually all of the material on alternative investments that potential Level II candidates would need to know as they

prepare for the exam—a multifaceted assembly of questions and problem-solving tasks. Since the tools and terms introduced in Level I provide the basis for the second level of this program, the information found here will continue to focus on alternative investments—hedge funds, private equity, commodities and managed futures, and credit derivatives—but in greater depth and in the context of risk management and asset allocation. Whether you're a seasoned professional looking to explore new areas within the alternative investment arena or a new industry participant seeking to establish a solid understanding of alternative investments, CAIA Level II: Advanced Core Topics in Alternative Investments is the best way to achieve these goals, and the smartest way to prepare for such a demanding exam. Take your first steps toward attaining the CAIA charter by picking up CAIA Level I: An Introduction to Core Topics in Alternative Investments.

CFA Program Curriculum 2020 Level II Volumes 1-6 Box Set CFA Institute, 2019-08-12 Master the practical aspects of the CFA Program curriculum with expert instruction for the 2020 exam. The same official curricula that CFA Program candidates receive with program registration is now publicly available for purchase. CFA Program Curriculum 2020 Level II, Volumes 1-6 provides the complete Level II curriculum for the 2020 exam, with practical instruction on the Candidate Body of Knowledge (CBOK) and how it is applied, including expert guidance on incorporating concepts into practice. Level II focuses on complex analysis with an emphasis on asset valuation, and is designed to help you use investment concepts appropriately in situations analysts commonly face. Coverage includes ethical and professional standards, quantitative analysis, economics, financial reporting and analysis, corporate finance, equities, fixed income, derivatives, alternative investments, and portfolio management organized into individual study sessions with clearly defined Learning Outcome Statements. Charts, graphs, figures, diagrams, and financial statements illustrate complex concepts to facilitate retention, and practice questions with answers allow you to gauge your understanding while reinforcing important concepts. While Level I introduced you to basic foundational investment skills, Level II requires more complex techniques and a strong grasp of valuation methods. This set dives deep into practical application, explaining complex topics to help you understand and retain critical concepts and processes. Incorporate analysis skills into case evaluations. Master complex calculations and quantitative techniques. Understand the international standards used for valuation and analysis. Gauge your skills and understanding against each Learning Outcome Statement. CFA Institute promotes the highest standards of ethics, education, and professional excellence among investment professionals. The CFA Program curriculum guides you through the breadth of knowledge required to uphold these standards. The three levels of the program build on each other. Level I provides foundational knowledge and teaches the use of investment tools; Level II focuses on application of concepts and analysis, particularly in the valuation of assets; and Level III builds toward synthesis across topics with an emphasis on portfolio management.
