Living through Crisis by Lake Chad Alessio

locchi,2022-07-13 This book investigates the ways in which people in the Lake Chad region that divides Nigeria, Niger, Chad, and Cameroon deal with the crises of violence, jihadism, drought, and climate change that continue to afflict the area. In 2014 Boko Haram expanded into the Lake Chad region, prompting a counter-insurgency response, and exacerbating pre-existing social and ecological challenges. Drawing on extensive ethnographic research, this book investigates how people within the liminal space of this key border region respond to and navigate the unpredictability which typifies their day-to-day lives. Building up a picture of individual and community experiences of crisis, the book gradually demonstrates the complex interactions between economic circuits, political orders, socio-religious processes, and labour practices which operate in the region. This book will be of interest to researchers across African studies, security studies, political science, and border studies.

His dad tries to get him to stand up for himself and his mom helps as much as she can. But after he and his brother are placed in foster care, Brian starts having panic attacks. And he doesn't quite know if there's something wrong with him . . . Ezra's always been popular. He's friends with most of the kids on his basketball

team—even Brian, who doesn't talk to many people. But now, some of his friends have been acting differently, and Brian seems to be pulling away. Ezra wants to help, but he worries if he's too nice to Brian, his friends will realize that he has a crush on him . . . But when Brian and his brother run away, Ezra has no choice but to take the leap and reach out to Brian. And Brian realizes that he could really use a friend right now. As the two get closer, they'll have to decide if they're willing to risk being vulnerable with each other and share parts of themselves they'd rather hide from the world. But if they can be brave, they might just find the best in themselves—and each other. With a lively voice and moving story, *Thanks a Lot, Universe* is about finding your community and learning to trust your heart.

Invisibility in African Displacements Jesper Bjarnesen, Simon Turner, 2020-10-29 African migrants have become increasingly demonised in public debate and political rhetoric. There is much speculation about the incentives and trajectories of Africans on the move, and often these speculations are implicitly or overtly geared

towards discouraging and policing their movements. What is rarely understood or scrutinised however, are the intricate ways in which African migrants are marginalised and excluded from public discourse; not only in Europe but in migrant-receiving contexts across the globe. Invisibility in African Displacements offers a series of case studies that explore these dynamics. What tends to be either ignored or demonised in public debates on African migration are the deliberate strategies of avoidance or assimilation that migrants make use of to gain access to the destinations or opportunities they seek, or to remain below the radar of restrictive governance regimes. This book offers fine-grained analysis of the ways in which African migrants negotiate structural and strategic invisibilities, adding innovative approaches to our understanding of both migrant vulnerabilities and resilience.

North Korean Military Proliferation in the Middle East and Africa Bruce E. Bechtol Jr., 2018-09-07 North Korea has posed a threat to stability in Northeast Asia for decades. Since Kim Jong-un assumed power, this threat has both increased and broadened. Since 2011, the small, isolated nation has detonated nuclear weapons multiple times, tested a wide variety of ballistic missiles, expanded naval and ground systems that threaten South Korea, and routinely employs hostile rhetoric. Another threat it poses has been less recognized: North Korea presents a potentially greater risk to American interests by exporting its weapons systems to other volatile regions worldwide. In *North Korean Military Proliferation in the Middle East and Africa*, Bruce E. Bechtol Jr. analyzes relevant North Korean military capabilities, what arms the nation provides, and to whom, how it skirts its sanctions, and how North Korea's activities can best be contained. He traces illicit networks that lead to state and nonstate actors in the Middle East,

including Syria, Iran, Hezbollah, and Hamas, and throughout Africa, including at least a dozen nations. The potential proliferation of nuclear and chemical weapons technology and the vehicles that carry it, including ballistic missiles and artillery, represent a broader threat than the leadership in Pyongyang. Including training and infrastructure support, North Korea's profits may range into the billions of dollars, all concealed in illicit networks and front companies so complex that the nation struggles to track and control them. Bechtol not only presents an accurate picture of the current North Korean threat -- he also outlines methodologies that Washington and the international community must embrace in order to contain it.

Counter-Insurgency in Nigeria Akali Omeni, 2017-09-08

This book offers a detailed examination of the counter-insurgency operations undertaken by the Nigerian military against Boko Haram between 2011 and 2017. Based on extensive fieldwork conducted with military units in Nigeria, *Counter-Insurgency in Nigeria* has two main aims. First, it seeks to provide an understanding of the Nigerian military's internal role – a role that today, as a result of internal threats, pivots towards counter-insurgency. The book illustrates how organizational culture, historical experience, institutions, and doctrine, are critical to understanding the Nigerian military and its attitudes and actions against the threat of civil disobedience, today and in the past. The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents – specifically, plans and operations between June 2011 and April 2017. Within this second theme, emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013, as the Nigerian Army and Air Force recalibrated themselves for COIN warfare. A certain mystique has surrounded the technicalities of COIN

operations by the Army against Boko Haram, and this book aims to disperse that veil of secrecy. Furthermore, the work's analysis of the air force's role in counter-insurgency is unprecedented within the literature on military warfare in Nigeria. This book will be of great interest to students of military studies, counter-insurgency, counter-terrorism, African politics and security studies in general.

Foster Justice Colleen Shannon, 2014-12-01 Intense romantic suspense with a sexy edge. --Tanya Anne Crosby One Riot, One Ranger. . . That's the Texas Ranger motto, but when Chad Foster's rebellious brother goes missing, it's time to put his elite training to use investigating a crime that strikes much closer to home. Turning Los Angeles inside out to retrieve Trey and save their ranch from a ruthless land grab is a no brainer, even if it puts his badge at risk. His only lead is a heart-stoppingly sensuous exotic dancer with a very tempting butterfly tattoo, the woman who helped scam his brother out of their ranch. But staying on top of this redhead's every suggestive word and sensual move means putting his case--and his heart--right in the line of fire . . . A Texas Ranger, complete with quarter horse, is as out of place in downtown L.A. as a lawman is in the bed of a suspect, but with both their lives at risk, Chad has to put his trust in the one woman who could bring him down for good, and pray that somehow hard evidence is really just a pack of lies. . . 81,900 Words

MFA vs NYC Chad Harbach, 2014-02-25 Writers write—but what do they do for money? In a widely read essay entitled MFA vs NYC, bestselling novelist Chad Harbach (The Art of Fielding) argued that the American

literary scene has split into two cultures: New York publishing versus university MFA programs. This book brings together established writers, MFA professors and students, and New York editors, publicists, and agents to talk about these overlapping worlds, and the ways writers make (or fail to make) a living within them. Should you seek an advanced degree, or will workshops smother your style? Do you need to move to New York, or will the high cost of living undo you? What's worse—having a day job or not having health insurance? How do agents decide what to represent? Will Big Publishing survive? How has the rise of MFA programs affected American fiction? The expert contributors, including George Saunders, Elif Batuman, and Fredric Jameson, consider all these questions and more, with humor and rigor. *MFA vs NYC* is a must-read for aspiring writers, and for anyone interested in the present and future of American letters.

Food Cults Kima Cargill, 2016-12-01 Understanding how food fads and diets can develop a fervent following that rise to the level of a cult is a new area of study and often overlooked. Here, Kima Cargill and other experts shed fresh light on the subject, revealing how and why such cults may develop among certain communities.

The Art of Fielding Chad Harbach, 2011-09-07 At Westish College, a small school on the shore of Lake Michigan, baseball star Henry Skrimshander seems destined for big league stardom. But when a routine throw goes disastrously off course, the fates of five people are upended. Henry's fight against self-doubt threatens to ruin his future. College president Guert Affenlight, a longtime bachelor, has fallen unexpectedly and helplessly in love. Owen Dunne, Henry's gay roommate and teammate, becomes caught up in a dangerous affair. Mike Schwartz, the Harpooners' team captain and Henry's best friend,

realizes he has guided Henry's career at the expense of his own. And Pella Affenlight, Guert's daughter, returns to Westish after escaping an ill-fated marriage, determined to start a new life. As the season counts down to its climactic final game, these five are forced to confront their deepest hopes, anxieties, and secrets. In the process they forge new bonds, and help one another find their true paths. Written with boundless intelligence and filled with the tenderness of youth, *The Art of Fielding* is an expansive, warmhearted novel about ambition and its limits, about family and friendship and love, and about commitment--to oneself and to others.

A Smuggler's Conscience J.S. Morin, 2014-12-23 The job: a delivery, no questions asked. The problem: curiosity is a deadly sin. A simple pickup and delivery. No questions asked; no looking inside the cargo. All it requires is a fast, stealthy ship and a crew who can keep their imaginations and consciences in check until the drop-off. The Mobius is up to the task, but when the crew can't control their curiosity, they're faced with a moral dilemma. Do they cut their losses? Contact the authorities? Take the money and run? Or do they get talked into the stupidest, most reckless, and least profitable course of action they could possibly take? Doing the right thing. *A Smuggler's Conscience* is the second mission of *Black Ocean*, a science fantasy series set in the 26th century. Do you wish there had been a second season of *Firefly*? Do you love the irreverent fun of *Guardians of the Galaxy*? Have you ever wondered how *Star Wars* would have turned out if Luke and Obi-wan had ditched the rebellion to become smugglers with Han and Chewie? Then *Black Ocean* is the series for you! I'll just leave this copy of *A Smuggler's Conscience* right here. And hey, it's not your fault if you can't help looking.
