Aromatherapy and Chakras Salvatore Battaglia,2020-11-13 The aromatherapy and chakras workshop that I have been teaching for over 20 years has always been my most popular workshop. It is an excellent way to incorporate my passion for essential oils within a holistic framework to promote personal and spiritual growth. Many of us are aware of chakras and have some understanding of how they influence our wellbeing; however, the origins of chakras are shrouded in mystery. In Aromatherapy and Chakras — balancing your body's energy centres for optimal health and wellbeing, I will demystify the origins of the chakras. I share with you my personal journey into the chakras and provide you with my interpretation of how we can use chakras to reconnect our body, mind and spirit. I hope that this book provides you with insight to use essential oils within a holistic framework of the Western concept of chakras as psycho-energetic centres and energy medicine. I introduce you to the principles of subtle therapies and energy medicine. We examine the scientific evidence for the existence of chakras and review the results of a study that confirms the relationship between the chakras and essential oils. We examine how modern Western psychology and transpersonal psychologists are using chakras to provide us with a more holistic framework of understanding human consciousness. We examine each of the major seven chakras in detail, examining the influence that each chakra has on our psyche and wellbeing, what to expect when the chakra is balanced or not balanced, and most importantly, strategies to keep the chakras balanced using essential oils.

The Chakra System Crystal Leeper,2017-06-28 Our energy level always fluctuates, mainly depending on our state of mind and the balance of our emotions, but it is as well influenced by external factors, starting with the atmospheric conditions, to pollution and ending with our generally sedentary lifestyles. But even in contexts that seem to trigger a remarkable amount of resources, our body is far from depleting its innate reserves. Moreover, it can always recharge. We use at most 5% of our brains and it may be the same case with stamina. It is thus believed that there is latent energy stocked and blocked within our central nervous system, respectively in the brain and spinal cord. By awakening the nervous centers, the chakras, situated on this swift and very thin line, rising from the bottom of the spine till the tip of the head, one would be able to unlock kundalini, his hidden force. The kundalini energy is represented by a snake coiled three and a half times, just waiting to unroll, to the music of your inner vibration. But the snake has been connected since always, mythically and religiously, to sexuality. It's been the gate-keeper and the tempter of the forbidden carnal realm and in the same time the doorway to a whole new rich layer of 'forbidden' knowledge. So kundalini represents the incredible resource that resides and is released through one's sexual inner life and when this energetic output is spent in a direction truthful to one's profound, spiritual needs, it triggers a profound awakening of the being. There is also a deep similarity between the state of ecstasy produced by orgasm and the one reached through the kundalini awakening. Here is a preview of what you'll learn: - The kundalini snake - The chakra system - Svadhisthana, sacral chakra - Anahata, heart chakra - Jna, third eye chakra - Sahaswara, the crown chakra - The necessary state of being - overall harmony and lucidity - How to work with chakras - Blooming into consciousness

The Spiritual Scientist Maria Afentakis,2020-04-06 The Spiritual Scientist bridges the gap between science and spirituality to give the reader an understanding of how energy works and how one can balance and restore their energies to have a tranquil and peaceful life. The book covers the scientific concepts of energy and the human body and relates these concepts to their spiritual aspects. The scientific concepts will be written in an accurate and a simple fashion, so the reader will be able to understand these concepts without having a high degree of scientific knowledge. The book will discuss the scientific concept first then relate these to the spiritual aspect. The first chapter is an introduction to what energy is in basic terms with equations and diagrams so the reader can fully understand that every living thing has its own unique energy. Chapter 2 will describe energetic aura in detail as this is very important for the reader to fully understand, as the book will focus on spiritual practices that can be used to balance and restore energetic aura, including the chakra system. Chapter 3 will describe the basic anatomy of the human body and will describe the basic fundamental structures such as a cell and DNA, as well as organs and bodily systems including the endocrine system. Chapter 4 will focus on the 13 chakras in the body. The 13 chakras are represented in the spiritual scientist's logo. This chapter will help the reader understand the different chakras in the body and identify when there is a problem or if chakra is inactive, overactive or imbalanced. Chapters 5-7 will describe specific spiritual practices including crystal healing and aromatherapy that can be incorporated to ground, balance and restore ones' chakras. Chapter 8 will describe the basic function and structure of the brain and how mindfulness techniques including meditations can be used to restore peace and tranquility in ones' everyday life. The final chapter will be a guided step-by step protocol combining all the knowledge learnt throughout the book to create their own meditation kits to balance specific auras. Vortex Energy Spider,2015-04-21 Wise People from every tradition have spoken about the present as the time when humanity will either destroy themselves and the planet or awaken a new consciousness that will become the foundation for the evolution of a new species. Many people are now developing the gifts to envision a positive future based on our role as conscious creators. Using Vortex Energy is one way that we can assist with the present dimensional changes. Through special hand placements, the Vortex uses the electromagnetic energy field of our bodies to polarize our energy. The harmonizing energy of the Vortex aligns our Spirit Essence to wholeness, our mind to peace, and our physical body to healing, thus shifting our energy vibration and triggering DNA changes on a cellular level so that we can adapt and survive in the Fifth World. Spider puts thirty years of working with Vortex Energy into form in this beautiful book. It's filled with nuggets. My favorite paragraph is: "We cannot assume that our own perception is best for manifesting evolutionary changes for ourselves, another person or even Mother Earth. Indeed, our personal perception may limit the possibilities of the Vortex. Therefore, once we create the Vortex, we...allow the energy to do what it needs to do. ...Trust that you will be guided during this process. Amazing things happen for those who are sincerely ready to receive the abundance of the Universe." P. 42 - Hollis Melton, herbalist and publisher of Songs of Bleeding
