Bouchardon Anne-Lise Desmas,Édouard Kopp,Guilhem Scherf,Juliette Trey ,2017-01-10 One of the most imaginative and fascinating artists of eighteenth-century France, Edme Bouchardon (1698-1762) was instrumental in the transition from Rococo to Neoclassicism and in the artistic rediscovery of classical antiquity. Much celebrated in his time, Bouchardon created some of the most iconic images of the age of Louis XV. His oeuvre demonstrates a remarkable variety of themes (from copies after the antique to subjects of history and mythology, portraiture, anatomical studies, ornament, fountains and tombs), media (drawings, sculptures, medals, prints), and techniques (chalk, plaster, wax, terracotta, marble, bronze). With five essays by experts on Bouchardon's sculpture and graphic arts, more than 140 catalogue entries, and a detailed chronology, this book aims to demonstrate the originality of Bouchardon's art within the cultural and social context of the period, while suggesting the subtle relationship between, as well as the relative autonomy of, the artist's two careers as a sculptor and a draftsman. This lavishly illustrated publication represents an unprecedented and thorough survey on this major and unique artist from the Age of Enlightenment, offering indepth scholarship based on unpublished material.

Sweepers P. T. Deutermann,1998-08-15 The U.S. Navy made him the ultimate killer. Now they can't stop him... It begins with a routine police investigation. A beautiful woman is dead. A detective needs answers. And a newly appointed Pentagon admiral is scrambling for his career and for his life. Suddenly, the inner ring of the Pentagon is being rocked by a living nightmare: a Sweeper-a trained covert assassin, an ex-SEAL scarred by one horrific episode in Vietnam-has gone rogue. And his killing has just begun... With a searing insider's view of Pentagon politics, retired Navy captain P.T. Deutermann writes military suspense worthy of Tom Clancy and Nelson DeMile. Now, in his electrifying new novel, a powerful ex-Marine and a courageous woman face a kill zone: of deception, ambition, and sweeping revenge...

The Chimney Sweeper's Boy Barbara Vine,2012-10-24 An unforgettable tale of mystery and obsession by Barbara Vine (pseudonym of Ruth Rendell, winner of the Mystery Writers of America Grand Master Award for lifetime achievement) This is the utterly absorbing story of best-selling novelist Gerald Candless, whose sudden death from a heart attack leaves behind a wife and two doting daughters. To sort through her grief, one of his daughters, Sarah, decides to write a biography of her internationally celebrated father. Within hours of beginning her research, Sarah comes across the first of what will be many shocking revelations. As her life is slowly torn apart, a terrible logic finally emerges to explain her mother's remoteness, her father's need to continually reinvent himself in his work, and a long-forgotten London murder.

The Chimney Sweeper's Boy Ruth Rendell,2011-02-22 A daughter's research into her father's life unearths shocking family secrets in this "frightening" novel (Express on Sunday). After celebrated English author Gerald Candless dies of a heart attack at his cliff-top home above Gauntton Dunes in Devon, his eldest daughter, Sarah, is commissioned to write his autobiography. Ever-present in her life, her father was generous, passionate, and talented, yet always a bit of a mystery. Who's to blame for his chilly relationship with her mother that seemed to survive something unspoken? Why, in each successive novel, did he seem to reinvent himself, never settling for one public persona? What of his odd little parlor games for which only he knew the rules and the purpose? And was it really true that he had no living relatives? What begins as an admiring project becomes an obsession. For Sarah's first discovery is stunner: Gerald Candless was not his real name. The more she uncovers, the deeper Sarah's fear and fascination grows. Her father's life was nothing more than an ingeniously plotted work of fiction. As each lie Sarah uncovers gives way to another, her journey into the past of a familiar stranger gets so dark that seeing the truth could be last thing she wants. From the New York Times–bestselling author of Dark Corners and three-time Edgar Award winner comes a novel “about the power of taboos, transgressions, guilts, deceptions, horrors, atonements, upsets and upheavals” (Independent). And it's “as jolting as a flash of lightning” (Sunday Times).

Paradox, the Norm Jean Harris Anderson,2018-05-09 We are pressing beyond the range of human information at blazing speed, and in so doing, we are entering a realm we quite unprepared for. When this book's essayist announces a celestial being from a different dominion has arrived to equip us with permission to eat of the fruit, allowing us to become all-knowledgeable, and to offer immortality, everyone is eager, of course. The extraterrestrial alien values the spirit nature as much as we value our flesh, and he prizes each, for he transcends knowledge of those entities, a character gushes. But

we shall lose command of our individual freedoms if we forfeit our wits to another, because intelligence is more than gathering lots of data. Filtering information takes time and work to transform into wisdom. The race to control artificial intelligence has made each person a database for a search engine, and our species has mixed with machine. Weve become unknowingly programmed without an ethical compass while some in charge have questionable motives and are involved in moral turpitude. The result? As one character laments, We must break the very laws that make us civil.
