Religion, Nation and Democracy in the South Caucasus

Alexander Agadjanian, Ansgar Jödicke, Evert van der Zweerde, 2014-10-10 This book explores developments in the three major societies of the South Caucasus – Armenia, Azerbaijan and Georgia – focusing especially on religion, historical traditions, national consciousness, and political culture, and on how these factors interact. It outlines how, despite close geographical interlacement, common historical memories and inherited structures, the three countries have deep differences; and it discusses how development in all three nations has differed significantly from the countries' declared commitments to democratic orientation and European norms and values. The book also considers how external factors and international relations continue to impact on the three countries.

The B-29 Superfortress Chronology, 1934-1960 Robert A. Mann, 2010-01-19 The Boeing B-29 Superfortress lived an operational life of only 26 years, but what a life it was. The introduction to this book provides basic information on the physical plane: dimensions, specs, leading particulars and operational usages. Then an exhaustive day-by-day chronology of the B-29 is presented—from the earliest designs in 1934 through thousands of missions and aircraft events in World War II and Korea to the 1960 retirement of the last operational B-29. The book also includes an extensive glossary and three appendices, which provide a discussion of the general anatomy of a mission, a sample of operational voice or radio codes used in 1945, and a guide to (very unofficial) aircraft names.

Effortless Mindfulness Lisa Dale Miller,2014-03-21

Effortless Mindfulness promotes genuine mental health through the direct experience of awakened presence—an effortlessly embodied, fearless understanding of and interaction with the way things truly are. The book offers a uniquely modern Buddhist psychological understanding of mental health disorders through a scholarly, clinically relevant presentation of Theravada, Mahayana and Vajrayana Buddhist teachings and practices. Written specifically for Western psychotherapeutic professionals, the book brings together traditional Buddhist theory and contemporary psychoneurobiosocial research to describe the conditioned and unconditioned mind, and its in-depth exploration of Buddhist psychology includes complete instructions for psychotherapists in authentic, yet clinically appropriate Buddhist mindfulness/heartfulness practices and Buddhist-psychological inquiry skills. The book also features interviews with an esteemed collection of Buddhist teachers, scholars, meditation researchers and Buddhist-inspired clinicians.
