Falcon Warrior Malcolm Archibald,2021-12-09 Sailing west
across the Atlantic, Melcorka and Bradan encounter a strange
woman entombed within an iceberg. On her is a headband
decorated with the symbol of a falcon. Soon after, they meet a
fleet of Norse ships and set sail with them towards the New
World. Fighting their way through skraeling hordes and facing
the mysterious Ice Giant, they find the ancient pyramid city of
Cahokia. But what is the secret of the strange falcon artifact? This

is a standalone novel and can be enjoyed even if you haven't read other books in the series.

Great Travellers, Volume 4 Various, 2016-02-22 Next to actual travel, the reading of first-class travel stories by men and women of genius is the finest aid to the broadening of views and enlargement of useful knowledge of men and the world's ways. It is the highest form of intellectual recreation, with the advantage over fiction-reading of satisfying the wholesome desire for facts. With all our modern enthusiasm for long journeys and foreign travel, now so easy of accomplishment, we see but very little of the great world. The fact that ocean voyages are now called mere "trips" has not made us over-familiar with even our own kinsfolk in our new dependencies. Foreign peoples and lands are still strange to us. Tropic and Arctic lands are as far apart in condition as ever; Europe differs from Asia, America from Africa, as markedly as ever. Man still presents every grade of development, from the lowest savagery to the highest civilization, and our interest in the marvels of nature and art, the variety of plant and animal life, and the widely varied habits and conditions, modes of thought and action, of mankind, is in no danger of losing its zest. These considerations have guided us in our endeavor to tell the story of the world, alike of its familiar and unfamiliar localities, as displayed in the narratives of those who have seen its every part. Special interest attaches to the stories of those travellers who first gazed upon the wonders and observed the inhabitants of previously unknown lands, and whose descriptions are therefore those of discoverers. One indisputable advantage belongs to this work over the average record of travel: the reader is not tied down to the perusal of a one-man book. He has the privilege of calling at pleasure upon any one of these eminent travellers to recount his or her exploit, with the certainty of finding they are all in their happiest vein and tell their best stories.

Venetian Views, Venetian Blinds Manfred Pfister,Barbara Schaff,1999 Half a millennium of English and American fantasies of Venice: this collection of essays by leading critics in the field explores the continued and continuing fascination of travellers, writers, artists, theatre workers and film makers with the amphibious and ambiguous city in the lagoon. There is hardly another place in Europe that has become so much of a palimpsest, inscribed with the fantasies, the dreams and nightmares of generations of foreigners, and this turns Venetian Views, Venetian Blinds into a particularly pertinent case study of the ways cultural difference within Europe is experienced, enacted and constructed. The essays range across five centuries - from the Renaissance to our postmodern present, from Shakespeare and his contemporary Coryate to recent novels, detective fiction and films - and, in contrast to previous studies focussing on the Grand Tour, they emphasise more recent developments and how they continue or disrupt traditional ways of perceiving - or being blind to! - Venice.

With the World's Great Travelers (Complete 4 Volumes)

Various,2022-11-13 The preface of this book tells that even though voyages are called mere trips, distant lands didn't get more familiar. As the world became more open and voyages more often, the differences between foreign lands and continents became more evident as ever. This truth remains topical even today, 120 years after these words were put down on paper. Now With the World's Great Travelers lets you make a personal voyage through distance and time and see the most outstanding example of travel history in the world's literature. The book consists of essays by multiple authors, like Edward A. Pollard, a notable American Journalist; Charles Darwin, a famous scientist;

Meriwether Lewis, a renowned explorer, one of the leaders of the Lewis and Clark Expedition, William Howard Russell, the most celebrated foreign journalist in America during the times of the Civil War and many others. This work gives a deep insight into how the world and traveling looked a century ago.
