**Earth Observation with CHAMP** Christoph Reigber,Hermann Lühr,Peter Schwintzer,Jens Wickert,2005-12-27 In the summer of 2000 the German geo-research satellite CHAMP was launched into orbit. Its innovative payload arrangement and the low initial orbit allow CHAMP to simultaneously collect and almost continuously analyse precise data relating to gravity and magnetic fields at low altitude. In addition, CHAMP also measures the neutral atmosphere and ionosphere using GPS techniques. Three years after launch, more than 200 CHAMP investigators and co-investigators from all over the world met at the GeoForschungsZentrum in Potsdam to present and discuss the results derived from the extensive data sets of the mission. The main outcome of this expert meeting is summarized in this volume. The book offers a comprehensive insight into the present status of the exploitation of CHAMP data for Earth system research and practical applications in geodesy, geophysics and meteorology.

**My \$50,000 Year at the Races** Andrew Beyer,1980-04-01 A Harvard dropout’s memoir of playing the horses—a great read for handicappers or those who enjoyed Ben Mezrich’s Bringing Down the House. In 1977, before he was known as the creator of “The Beyer Speed Figure,” Andrew Beyer set out on a gambling odyssey, determined to prove himself as a horseplayer. He would marshal all his handicapping skills for assaults on four racetracks: Gulfstream Park, Pimlico, Saratoga, and the Barrington Fair. The then thirty-three-year-old Harvard dropout had the credentials for this undertaking: two years earlier, his book Picking Winners had won a claim from bettors and critics alike. But the theory of handicapping and the practice of it are two very different things, and Beyer did all he could to prepare himself for this new challenge. He consulted with other professional horseplayers. He undertook detailed analyses of trainers and their methods. He refined his speed-handicapping techniques. He developed a revolutionary method for evaluating horses shipped from one track to another. He formulated a bold betting strategy. During the year, he experienced the dizzying thrill of winning more than \$10,000 in an afternoon, and agonizing frustration that drove him to bash a hole in the wall of the Gulfstream Park press box. When it was over, Beyer had amassed a profit of \$50,664. His account of the year offers a rare, unromanticized look at the world of professional gambling. For horseplayers who have dreamed of beating the races, he proves that the dream is, sometimes, attainable. And he explains, in specific detail, how it can be done. There are no gimmicks in My \$50,000 Year at the Races. Instead, there is a proven method of beating the races—and Andrew Beyer’s marvelously entertaining story of how he put it in practice.

**The Divided Welfare State** Jacob S. Hacker,2002-09-09 The Divided Welfare State is the first comprehensive political analysis of America's system of public and private social benefits. Everyone knows that the American welfare state is less expensive and extensive, later to develop and slower to grow, than comparable programs abroad. American social spending is as high as spending in many European nations. What is distinctive is that so many social welfare duties are handled by the private sector with government support. With historical reach and statistical and cross-national evidence, The Divided Welfare State demonstrates that private social benefits have not been shaped by public policy, but have deeply influenced the politics of public social programs - to produce a social policy framework whose political and social effects are strikingly different than often assumed. At a time of fierce new debates about social policy, this book is essential to understanding the roots of America's distinctive model and its future possibilities.

Hustler & The Champ R. A. Dyer,2007-10-01 In the tradition of Pulitzer Prize nominated, Positively Fifth Street, here is a riveting account of a high stakes shoot-out between pool's two most famous personalities. It was Valentine's Day, 1978, and Howard Cosell was hosting the long-awaited show-down between the best-ever tournament player, Willie Mosconi, and the game's most famous hustler, Minnesota Fats. This was The Great Pool Shoot-Out, one of the most highly rated televised sporting events of the year, exceeding even World Series games and basketball championships. R.A. Dyer, author of the best-selling Hustler Days, which recounts the rise of pool during the 1960s, writes of the acrid, but mutually beneficial rivalry between Fats and Mosconi, and how the televised shoot-outs came to embody that rivalry, which was nothing less than a bitter rift within the soul of American pocket billiards. Fats and Mosconi were born the same year, but were vastly different characters: one stood for artistry, the other for show business; one brought dignity to pool, the other made it fun. They are without a doubt the two most important players ever to hold a cue. This is the ultimate tale of American sportsmanship. R.A. Dyer is a columnist for Billiards Digest, and lives in Austin, Texas.

*The Breckinridges of Kentucky* James C. Klotter,2014-10-17 Across more than six generations -- beginning before the Revolutionary War -- the Breckinridge family has produced a series of notable leaders. These often controversial men and women included a presidential candidate, a U.S. vice president, cabinet members, generals, women's rights advocates, congressmen, editors, reformers, authors, and church leaders. Along with success, the Breckinridges, like other Americans, faced hardship and war, contended with race, lived through difficult family situations -- including a sex scandal -- and encountered personal and political failure. An articulate, opinionated, and frank family, the Breckinridges have left a detailed record that allows us a vivid recreation of the range of American history and society.

**Proud Kentuckian, John C. Breckinridge, 1821-1875** Frank Hopkins Heck,1976-01-01 Biography of John Cabell Breckinridge: a lawyer, U.S. Representative, Senator from Kentucky, the 14th Vice President of the United States, Southern Democratic candidate for President in 1860, a Confederate general in the American Civil War, and the last Confederate Secretary of War. To date, Breckinridge is the youngest vice president in U.S. history, inaugurated at age 36. He is also remembered as the Confederate commander at the Battle of New Market, where young VMI cadets participated in the battle on the Confederate side.-Wikipedia.

**Advertising Revolution** Alan Bradshaw,Linda Scott,2018-09-18 The story of Revolution by the Beatles, from its origin as a protest song of the 1960s, to it becoming the musical backdrop for one of the most famous, influential, and controversial adverts of all time. In 1987, Nike released their new sixty-second commercial for Air shoes—and changed the face of the advertising industry. Set to the song “Revolution” by the Beatles, the commercial was the first and only advert ever to feature an original recording of the FaUb Four. It sparked a chain of events that would transform the art of branding, the sanctity of pop music, the perception of advertisers in popular culture, and John Lennon’s place in the leftist imagination. Advertising Revolution traces the song “Revolution” from its origins in the social turmoil of the Sixties, through its controversial use in the Nike ad, to its status today as a right-wing anthem and part of Donald Trump’s campaign set list. Along the way, the book unfolds the story of how we came to

think of Nike as the big bad wolf of soulless corporations, and how the Beatles got their name as the quintessential musicians of independent integrity. To what degree are each of these reputations deserved? How ruthlessly cynical was the process behind the Nike ad? And how wholesomely uncommercial was John Lennon's writing of the song? Throughout the book, Alan Bradshaw and Linda Scott complicate our notions of commercialism and fandom, making the case for a reading of advertisements that takes into account the many overlapping intentions behind what we see onscreen. Challenging the narratives of the evil-genius ad conglomerate and the pure-intentioned artist, they argue that we can only begin to read adverts productively when we strip away the industry's mysticism and approach advertisers and artists alike as real, flawed, differentiated human beings.
