Champagne Supernova Elaine Reed,2020-03-10 Autumn Powell believes the right pair of shoes can change her life, and she's determined to start the New Year on the right foot. Unfortunately, the pair she's wearing isn't hers. Chester Quartermain has a great eye for detail, and the woman before him is a masterpiece. Too bad she's wearing his stolen shoe design. Getting her out of them might have to be his New Year's Resolution. Also included in this volume: The One That I Want Dana Dahl only moved to Charleston to make her mother happy. Despite pining for her hometown in North Dakota, she lets her mother book her on a food tour. The savory delights Charleston has to offer remind Dana of home in unexpected ways, until Camille Lewis sits beside her. The glamorous local shows Dana all Charleston has to offer and serves up possibilities for a new life.

Cool Britannia and Multi-Ethnic Britain Jason Arday,2019-10-24 Cool Britannia and Multi-Ethnic Britain: Uncorking the Champagne Supernova attempts to move away from the melancholia of Cool Britannia and the discourse which often encases the period by repositioning this phenomenon through an ethnic minority perspective. In March 1997, the front page of the magazine Vanity Fair announced 'London Swings! Again!' This headline was a direct reference to the swinging London of the 1960s – the English capital which became the era-defining epicentre of the world for its burgeoning rock and pop music scene, with its daring new youth culture, and the boutique fashion houses of Carnaby Street captured most indelibly by the Mods, Rockers, and psychedelic hippies of the time. In the 1990s this renewed interest in the swinging 60s seemed to reinvigorate popular culture, after a global period in the 1980s which would see the collapse of traditional communism and the ending of Cold War, while ushering in the beginnings of a new technological age spearheaded by Apple, Microsoft, and IBM. The dawn of the 1990s meant that peace and love would once again reign supreme, with Britannia being at the forefront of 'cool' again. Godfathers of the Mancunian Rock scene New Order would declare 'Love had the world in motion' and, for a fleeting period, Britain was about to encounter its second coming as the cultural epicentre of the world. Although history proffers a period of utopia, inclusion, and cultural integration, the narrative alters considerably when exploring this euphoric period through a discriminatory and racialised lens. This book repositions the ethnic minority-lived experience during the 1990s from the societal and political margins to the centre. The lexicon explored here attempts to provide an altogether different discourse that allows us to reflect on seminal and racially discriminatory episodes during the 1990s that subsequently illuminated the systemic racism sustained by the state. The Cool Britannia years become a metaphoric reference point for presenting a Britain that was culturally splintered in many ways. This book utilises storytelling and auto-ethnography as an instrument to unpack the historical amnesia that ensues when unpacking the racialised plights of the time.

Oasis Supersonic Supernova Michael Krugman,1997-06-15 For the biggest band to come out of England since the Beatles, here's the book that charts their incendiary rise to the top of the worldwide Pop charts. Oasis is a trip down Abbey Road in the '90s--a pop-fest for the masses, Johnny Rotten and the fabulous four hunkered down into two rowdy, infectious, sullen bards. 8 b&w photos.

From Cave Art to Hubble Jonathan Powell,2019-11-20 Since ancient times, humans have been engaged in a continual quest to find meaning in and make sense of sights and events in the night sky. Cultures spread around the world recorded their earliest efforts in artwork made directly on the natural landscapes around them, and from there they developed more and more sophisticated techniques for observing and documenting astronomy. This book brings readers on an astronomical journey through the ages, offering a history of how our species has recorded and interpreted the night sky over time. From cave art to parchment scribe to modern X-ray mapping of the sky, it chronicles the ever-quickening development of tools that informed and at times entirely toppled our understanding of the natural world. Our documentation and recording techniques formed the bedrock for increasingly complex forays into astronomy and celestial mechanics, which are addressed within these chapters. Additionally, the book explores how nature itself has recorded the skies in its own way, which can be unraveled through ongoing geological and archaeological studies. This tale of human discovery and ingenuity over the ages will appeal to anybody interested in the field of astronomy and its rich cultural history.

Blinded by the Lyrics Brent Mann,2005 Explores the fascinating and surprising stories behind the most mysterious and inscrutable lyrics in rock & roll history. Crap Lyrics Johnny Sharp,2012-05-01 Even the greatest songwriters (and Spandau Ballet) have had the odd bad day at the office. Or more likely, a bad few minutes in the studio toilets scribbling the first words they can think of on the back of their tranquiliser prescription shortly before the vocal has to be recorded. Johnny Sharp has trawled half a century of lyrics to find the funniest examples of crippled couplets, outrageous innuendo, mixed metaphors, shameless self-delusion, nefarious nonsense and flagrant filth. Not to mention unforgivable over-use of alliteration. *Crap Lyrics* is a humorous celebration (and occasionally, condemnation) of over 120 of the most ridiculous hooks, lines and stinkers from pop poetry through the modern ages. Johnny Sharp has spent 15 years as a music journalist, and several of those years writing for NME under the name Johnny Cigarettes, so he knows that ridicule is nothing to be scared of. He's serious as cancer when he asks: Are we human, or are we dancer? And where do we go from here? Is it down to the lake, I fear? While moving like a tortoise, full of rigor mortis? Whether you're a diplomat, or even down the Laundromat, if you have ever heard a song and thought 'You what?', this is the book for you.

The Little Book of Champagne Orange Hippo!,2022-10-27 Originally served at the coronations of French kings, Champagne is now popular around the world and sales increase year on year as people discover this delicious, delightful, de-lovely drink. Although Champagne only comes from a small area, there are many producers, ranging from the globally famous houses such as Dom Perignon, Moët & Chandon and Taittinger to the 19,000 vigneron who produce on a much smaller (but no less delicious) scale. Champagne has its own vocabulary, etiquette and special place in popular and culinary culture and The Little Book of Champagne traces the history of the drink from its early years to the present day and examines what makes Champagne so special. We delve into the intricacies of chilling (very cold), pouring (one inch, let the bubbles settle, then two-thirds) and drinking (slowly). There are also fun facts, quotes and sayings relating to Champagne's unique position in popular culture. So pop that cork, fill your glass and slowly sip your way slowly through the pages of this joyful celebration. SAMPLE QUOTE: 'Why do I drink Champagne for breakfast? Doesn't everyone?' - Noël Coward SAMPLE FACT: The oldest Champagne producer still in existence is Ruinart. They started production in 1729.

Champagne Supernovas Maureen Callahan,2014-09-11 A glittering history of fashion in the 1990s, told through the lives of Kate Moss, Marc Jacobs and Alexander McQueen. The 1950s had rock 'n' roll and the 60s had the Beats. In the 70s and 80s, it was punk rock and modern art. But for the 1990s, it was all about fashion and Kate Moss, Marc Jacobs, and Alexander McQueen were the trio of rebel geniuses who made it great. Each had an amazing talent and each had demons that would jeopardize that same talent. Collectively, they represented a moment in fashion and pop culture that upended everything that had come before it. In the tradition of pop-cultural histories like *Girls Like Us* and *Easy Riders*, *Raging Bulls*, Maureen Callahan explores a particular, pivotal time - the moment when the 1980s gave way to the 1990s, the alternative became the mainstream, and Gen X took over the reins of power in the fashion industry - through the lives of three people who would become both fashion icons and cautionary tales of the era. Callahan interviews insiders and reveals exclusive insights into the biggest dramas surrounding the most celebrated personalities of the decade: why Kate Moss and Johnny Depp broke up, how Marc Jacobs came through the crucible of the AIDS crisis, and what really drove Alexander McQueen to suicide. *Champagne Supernovas* is the story of that singular time, as exemplified the lives of the three luminaries who forever changed the way we think about fashion and culture.
