What Happened to Serie A Steven G. Mandis, 2018-10-04 In the 1980s and 1990s, Serie A was known as 'Il campionato più bello del mondo' – the most beautiful championship in the world – and had the highest match attendances in Europe. The stadiums were not only full of people, but full of colour, flags, songs and rituals. Italy hosted World Cup 1990 and the stadia and stars on show in Serie A became iconic. Across a ten year period from 1989 to 1999 a remarkable 10 different Serie A clubs occupied nearly half the places in the finals of the Champions League and Europa Cup. They were dominant. But then in the 2000s they began to fall behind and despite the Azzurri winning the World Cup in 2006 and Inter Milan winning the Champions League in 2010, Italian football was on a downwards trajectory that saw the national team fail to qualify for the 2018 World Cup, their first absence from the tournament since 1958. What happened and why? In this extraordinary book, Steven G. Mandis investigates. Given unprecedented behind-the-scenes access to Italian clubs and key decision makers and players, Mandis is the first outside researcher to rigorously analyse both the on-the-pitch and business aspects of a club and league. What he learns is completely unexpected and challenges popular explanations and conventional wisdom.

**Game Sense for Teaching and Coaching** Richard L Light, Christina Curry, 2021-03-15 Sport coaching has grown significantly as an area of research interest with an expanding number of sport coaching programs offered. The past decade or so has also seen significant interest in games-based approaches to coaching and teaching games. On a global level, Game Sense is one of the most recognized athlete-centred approaches for team sports, probably close behind Teaching Games for Understanding. Game Sense for Coaching and Teaching provides an understanding of how an Australian approach to coaching has grown and developed as it has been taken up across the globe. While the focus is on Game Sense, the book also offers insights into how any coaching or physical education (PE) teaching approach changes as it is adapted to different contexts across the world, examining the theoretical, historical and philosophical foundations of sport coaching and teaching in schools. This book is particularly useful for undergraduate and post-graduate sport coaching and PE courses but is also likely to be of interest for all practicing sports coaches or physical education teachers and lecturers.

Liverpool Mark Platt, 2019 2019 will forever be remembered as the year Liverpool Football Club firmly cemented itself as part of European royalty. For the sixth time in the Club's history they were crowned the undisputed Kings of the continent. Victory over Tottenham Hotspur on an unforgettable night in Madrid secured the most coveted prize in club football--the Champions League trophy. It was a momentous triumph--one that reverberated across the globe. This is the story of how it was achieved.

Tournament Design László Csató, 2021-01-04 This Palgrave Pivot presents tournament design mainly within the axioms of incentive compatibility and fairness. It illustrates the advantages of an axiomatic approach through various examples, including several FIFA and UEFA tournaments, and uses theoretical tools and simulation methodology in its analysis. Chapter 1 discusses scoring systems of championships with multiple competitions, ranking in Swiss-system tournaments, and tie-breaking rules in round-robin leagues. It is followed by a thorough critical analysis of the current and previous FIFA World Rankings.

The broad focus is substantially narrowed in Chapter 2, which turns to the topic of incentive (in)compatibility in multiple qualifiers. It is revealed that UEFA has faced at least three times recently this problem in the qualification to the UEFA Europa League, qualification to the UEFA Champions League, and the draw of the UEFA Champions League groups. Analogously, Chapter 3 discusses incentive (in)compatibility when there is only one group-based tournament but the complex progression rules to the subsequent stage can be designed poorly. Our examples include the qualifying tournaments of recent FIFA World Cups and UEFA European Championships. Chapter 4 moves to the problem of penalty shootout rules in soccer, where the fairness and complexity of some alternative mechanisms from the literature are evaluated. Fairness remains the central issue in Chapter 5, which presents the challenges of designing a tournament with 24 teams if the number of teams per group cannot exceed four. As expected, there is no perfect solution, and both FIFA and UEFA have introduced a reform in this format recently. Chapter 6 deals with the qualification for the 2020 UEFA European Football Championship. Its tournament design is perhaps the most complicated one that has ever been implemented in the real-world and suffers from serious shortcomings.

Rangers In London 1960-1971 Jerry 'J' Silverman, *Rangers In London* is the story of the nine matches between 1960 and 1971 when Britain and the World's most domestically successful football club with the greatest and most fervent support travelled south from Glasgow to the Capital city. Almost every game seems to have thrown up something amazing or special. From the first European Cup tie played in London to a match described by the legendary and equally reticent Spurs manager, Bill Nicholson as the greatest game on earth. Alex Ferguson's Rangers debut at Arsenal, QPR's Rodney Marsh assaulting two players on the pitch and a teenager whisked from work in Glasgow in the morning to play in goal against a team of internationals and a world cup winner in the evening at Tottenham. And we best not forget Rangers appearances at Chelsea for the man they called Chopper either and at Highbury for a gentleman who at his peak was quite possibly the best goalkeeper in Europe. And much more... Unashamedly nostalgic and so many great stories, histories and characters to recall, celebrate and write about. In a more modest way, we try to chart the development of football at Ibrox and in London, on and off the field at a time when football was beginning to become more sophisticated, commercial and international. There's a bit of sociology too, as we look at the emergence of football hooliganism, skinheadism and wider societal cultures in and around football at that time. Does what goes around, come around with a slightly different twist? I'll let the reader decide. But I hope you'll enjoy taking in these matches with me, and get the same pleasure as the devoted thousands and perhaps you were one, who 'followed on' to London with Rangers. Win, lose or draw.

FC Barcelona Jim O'Brien, Xavier Ginesta, Jordi de San Eugenio, 2024-04-01 This is the first critical, in-depth academic study of FC Barcelona (also known as Barça), one of the world's great football clubs, exploring the historical, political, cultural and commercial dimensions of this global sporting institution. The book examines why and how the club grew from its genesis as a small sporting organisation in the developing urban landscape of Barcelona in 1899 to become a contemporary giant that has both shaped and transcended football. It considers how globalisation, cultural identity and political ideology can help us to understand the development of Barça, but also how the growth of the phenomenon of FC Barcelona helps us to better understand those forces shaping contemporary global societies. It brings together leading scholars from around the world to examine key themes such as governance, regional and national politics, storytelling, fandom, digital media, branding, commercialisation and sport diplomacy, exploring topics such as the European Super League fiasco and the rise of Lionel Messi as a global icon. It also includes a series of chapters looking at the importance of FC Barcelona around the world, including in Latin America, the United States, Africa and East Asia. This illuminating, multi-disciplinary study of FC Barcelona is essential reading for anybody with an interest in football, Catalan politics and culture, or the history, politics, culture and business of sport.
