Proceedings / Actes et Documents of the XIXth Session of The Hague Conference on Private International Law The Hague Conference on Private International Law, 2006-10-31 This volume of the Proceedings of the Nineteenth Session of the Hague Conference on Private International Law encompasses all preparatory work and records of meetings which led to the adoption of the Hague Convention on the Law Applicable to Certain Rights in Respect of Securities held with an Intermediary (the Hague Securities Convention). The signing of this Convention on 5 July 2006 by two of the world's major financial markets, the United States and Switzerland, shows the relevance of the new treaty. Traditional rules, based on physical transfers and direct holdings, are too diverse and inadequate to deal with securities which are nowadays transferred and pledged by electronic entries to accounts with clearing and settlement systems and other intermediaries. By identifying specific conflict rules, the Hague Securities Convention provides a means to remedy this lack of legal certainty which has characterized for too long the field of security transactions. The Proceedings will enable the financial world, but also legal practitioners and academics to grasp the background and full objectives of this very innovative international instrument.

Convention de la Haye sur les Titres The Hague Conference on Private International Law, 2005-11-01 Les dernières décennies ont vu un accroissement spectaculaire de la valeur, du nombre et de la vitesse des opérations sur titres transfrontalières, facilitées par les avancées technologiques. L'incertitude juridique quant à la loi régissant l'opposabilité, la priorité et les autres effets des transferts imposent d'importants coûts frictionnels même pour les opérations de routine, et constitue une contrainte importante affectant les réductions souhaitables des risques de crédit et de liquidité. Afin de pallier les incertitudes actuelles, la Dix-neuvième session diplomatique de la Conférence de La Haye de droit international privé a adopté à l'unanimité la Convention sur la loi applicable à certains droits sur des titres détenus auprès d'un intermédiaire (la Convention de La Haye sur les titres). Le présent volume apporte les explications les plus autorisées et complètes de la Convention. Il est divisé en deux parties: une introduction générale, qui propose un survol utile de la Convention et décrit

de manière succincte ses éléments essentiels, et un commentaire complet de chaque article de la Convention. De nombreux exemples pratiques illustrent efficacement la nature et la teneur des commentaires.

Les systèmes de mise en œuvre de la protection sociale Kathy Lindert, Tina George Karippacheril, Inés Rodríguez Caillava, Kenichi Nishikawa Chávez, 2023-01-13 Le Manuel de référence sur les systèmes de mise en œuvre de la protection sociale synthétise les expériences et les leçons apprises des systèmes de mise en œuvre de la protection sociale à travers le monde. Il adopte un concept de la protection sociale large, qui couvre différentes populations telles que les familles pauvres ou à faible revenu, les chômeurs, les personnes handicapées et les personnes confrontées à des risques sociaux. Il analyse différents types d'interventions des gouvernements pour la protection des individus, des familles ou des ménages, au travers de programmes spécifiques allant de programmes ciblant la pauvreté, aux prestations et services en faveur de l'emploi, et aux prestations et services au bénéfice des personnes handicapées et d'autres services sociaux. Ce Manuel de référence cherche à répondre à différentes questions pratiques soulevées au cours de la mise en œuvre, en particulier : • Comment les pays mettent-ils en œuvre les prestations et services de protection sociale ? • Comment le font-ils avec l'efficacité et l'efficience voulues ? • Comment assurent-ils une inclusion dynamique, en particulier celle des personnes les plus vulnérables et les plus défavorisées ? • Comment favorisent-ils une meilleure coordination et intégration non seulement entre les différents programmes de protection sociale mais aussi avec les programmes mis en œuvre par d'autres acteurs gouvernementaux ? • Comment peuvent-ils répondre aux besoins des populations ciblées et assurer une meilleure expérience client ? Le cadre de mise en œuvre des systèmes de protection sociale précise les principaux éléments de cet environnement opérationnel. Il se décline en différentes phases qui s'échelonnent tout au long de la chaîne de mise en œuvre. Ces phases sont les lieux d'interactions entre différents acteurs, parmi lesquels des personnes et des institutions. La communication, les systèmes d'information et la technologie facilitent ces interactions. Ce cadre peut s'appliquer à la mise en œuvre d'un ou plusieurs programmes ainsi qu'à la mise en place d'une protection sociale adaptative. Le Manuel de référence des systèmes de mise en œuvre de la protection sociale s'articule autour de huit principes clés qui constituent le code de conduite de la mise en œuvre : 1. Les systèmes de mise en œuvre ne suivent pas un modèle unique, mais tous les modèles partagent des points communs qui forment le cœur du cadre de mise en œuvre des systèmes de protection sociale. 2. La qualité de la mise en œuvre a une grande importance et la faiblesse de l'un des éléments constitutifs de la chaîne de mise en œuvre affectera négativement l'ensemble de celle-ci et réduira les impacts du ou des programmes qui lui sont associés. 3. Les systèmes de mise en œuvre évoluent dans le temps, de manière non linéaire et leur point de départ est important. 4. Dès le début de la mise en œuvre, des efforts devront être déployés pour « garder les choses simples » et pour « bien faire les choses simples ». 5. Le premier segment de la chaîne, à savoir l'interface entre les futurs bénéficiaires et l'administration, est souvent son maillon le plus faible. Son amélioration peut nécessiter des changements systémiques, mais ceux-ci contribueront considérablement à l'efficacité globale et atténueront les risques d'échec de cette interface. 6. Les

programmes de protection sociale ne fonctionnent pas dans le vide et, par conséquent, leur système de mise en œuvre ne doit pas être développé en vase clos. Des opportunités de synergies entre institutions et systèmes d'information existent et les saisir peut améliorer les résultats des programmes. 7. Au-delà de la protection sociale, ces systèmes de mise en œuvre peuvent aussi améliorer la capacité des gouvernements à fournir d'autres prestations ou services, comme les subventions à l'assurance maladie, les bourses d'études, les tarifs sociaux de l'énergie, les allocations logement et l'accès aux services juridiques. 8. L'inclusion et la coordination sont des défis omniprésents et permanents. Pour les relever, il faut donc améliorer de façon continue les systèmes de mise en œuvre à travers une approche dynamique, intégrée et centrée sur la personne.
