John Grant

The Brand Innovation Manifesto John Grant, 2006-05-12 The days of the image brands are over, and 'new marketing' has gone mainstream. The world's biggest companies are pursuing a post-advertising strategy, moving away from advertising and investing in leading edge alternatives. In the vanguard of the revolution has been John Grant, co-founder of the legendary agency St. Luke's and author of The New Marketing Manifesto, whose radical thinking has informed a generation. Now Grant is set to stun the industry again. In The Brand Innovation Manifesto, he redefines the nature of brands, showing why old models and scales no longer work and revealing that the key to success today is impacting people's lifestyles (think Starbucks, iPod and eBay). At the heart of the book is the concept of the 'brand molecule' to which new cultural ideas can be constantly added to keep pace with change. Cataloguing 32 classes of idea, Grant presents a practical approach to mixing and matching them within your own market to develop new brand ideas - and new ideas for existing brands.

Managing Electronic Media Joan Van Tassel, 2012-09-10 This college-level media management textbook reflects the changes in the media industries that have occurred in the past decade. Today's managers must address new issues that their predecessors never faced, from the threats of professional piracy and casual copying of digital media products, to global networks, on-demand consumption, and changing business models. The book explains the new new

vocabulary of media moguls, such as bandwidth, digital rights management, customer relations management, distributed work groups, centralized broadcast operations, automated playlists, server-based playout, repurposing, mobisodes, TV-to-DVD, and content management. The chapters logically unfold the ways that managers are evolving their practices to make content, market it, and deliver it to consumers in a competitive, global digital marketplace. In addition to media companies, this book covers management processes that extend to all content-producing organizations, because today's students are as likely to produce high-quality video and Web video for ABC Computer Sales as they are for the ABC Entertainment Television Network.

Letters from Rifka Karen Hesse,2009-01-06 From Newbery media winner Karen Hesse comes an unforgettable story of an immigrant family's journey to America. America, the girl repeated. What will you do there? I was silent for a little time. I will do everything there, I answered. Rifka knows nothing about America when she flees from Russia with her family in 1919. But she dreams that in the new country she will at last be safe from the Russian soldiers and their harsh treatment of the Jews. Throughout her journey, Rifka carries with her a cherished volume of poetry by Alexander Pushkin. In it, she records her observations and experiences in the form of letters to Tovah, the beloved cousin she has left behind. Strong-hearted and determined, Rifka must endure a great deal: humiliating examinations by doctors and soldiers,

deadly typhus, separation from all she has ever known and loved, murderous storms at sea, detainment on Ellis Island--and is if this is not enough, the loss of her glorious golden hair. Based on a true story from the author's family, Letters from Rifka presents a real-life heroine with an uncommon courage and unsinkable spirit.

Grown Up Digital: How the Net Generation is Changing Your World Don Tapscott, 2008-11-16 SELECTED AS A 2008 BEST BUSINESS BOOK OF THE YEAR BY THE ECONOMIST The Net Generation Has Arrived. Are you ready for it? Chances are you know a person between the ages of 11 and 30. You've seen them doing five things at once: texting friends, downloading music, uploading videos, watching a movie on a two-inch screen, and doing who-knows-what on Facebook or MySpace. They're the first generation to have literally grown up digital--and they're part of a global cultural phenomenon that's here to stay. The bottom line is this: If you understand the Net Generation, you will understand the future. If you're a Baby Boomer or Gen-Xer: This is your field guide. A fascinating inside look at the Net Generation, *Grown Up Digital* is inspired by a \$4 million private research study. New York Times bestselling author Don Tapscott has surveyed more than 11,000 young people. Instead of a bunch of spoiled "screenagers" with short attention spans and zero social skills, he discovered a remarkably bright community which has developed revolutionary new ways of thinking, interacting, working, and socializing. *Grown Up Digital* reveals: How the brain of the Net Generation processes

information
Seven ways to attract and engage young talent in the workforce
Seven guidelines for educators to tap the Net Gen potential
Parenting 2.0:
There's no place like the new home
Citizen Net: How young people and the Internet are transforming democracy
Today's young people are using technology in ways you could never imagine. Instead of passively watching television, the "Net Geners" are actively participating in the distribution of entertainment and information. For the first time in history, youth are the authorities on something really important. And they're changing every aspect of our society-from the workplace to the marketplace, from the classroom to the living room, from the voting booth to the Oval Office. The Digital Age is here. The Net Generation has arrived. Meet the future.

Twelve Years a Slave Solomon Northup, 2024-01-04
Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an

American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

One Degree of Change Larry Jackson, 2015-01-23 This book was written for the person who understands that there is so much more for them to accomplish but just can't seem to breakthrough. One of the traps in life is being satisfied with a 211 degree life. This is a very good life and many would characterize it as a successful life. But for the person who should be living at 212 degrees they feel like the oyster with sand in its shell, very agitated. Many times they can't put their finger on what is wrong or what is needed. Even the Christian living a good life before God can feel that something is missing. The thing missing is their purpose. They love the Lord and all that He provides but they realize there is more they should be doing for Him. If you feel like you are not walking in your purpose then this is the book for you!

One Degree of Change: How to Succeed Now! will open your heart and mind to just how close you really are to accomplishing what the Lord has designed you for. It will provide much needed answers for your advancement. Because you are only one degree from the success you desire.

Islam and Popular Culture in Indonesia and Malaysia Andrew N.

Weintraub, 2011-04-20 Home to approximately one-fifth of the world's Muslim population, Indonesia and Malaysia are often overlooked or misrepresented in media discourses about Islam. Islam is a religion but there is also a popular culture, or popular cultures of Islam that are mass mediated, commercialized, pleasure-filled, humorous, and representative of large segments of society. During the last forty years, popular forms of Islam, targeted largely towards urbanized youth, have played a key role in the Islamisation of Indonesia and Malaysia. This book focuses on these forms and the accompanying practices of production, circulation, marketing, and consumption of Islam. Dispelling the notion that Islam is monolithic, militaristic, and primarily Middle Eastern, the book emphasizes its dynamic, contested, and performative nature in contemporary South East Asia. Written by leading scholars alongside media figures, such as Rhoma Irama and Ishadi SK, the case studies although not focused on theology per se, illuminate how Muslims (and non-Muslims) in Indonesia and Malaysia make sense of their lives within an increasingly pervasive culture of Islamic images, texts, film, songs, and narratives.

Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.

Female Song Tradition and the Akan of Ghana Kwasi Ampene, 2005 Nnwonkoro is a genre of women's song found among the Akan-speaking peoples of Ghana. It has become a hybrid musical form, incorporating songs and dance movements

based on traditional practices alongside others reflecting Christian influence. Nnwonkoro groups perform regularly at funerals, on state occasions, for entertainment, and even in church. In common with other Akan musical traditions, nnwonkoro is transmitted orally and aurally. Based on extensive fieldwork in the Asante and Bono Ahafo regions, and featuring many transcriptions of songs, this book investigates the nature of composition in oral culture, together with issues such as the scope of the poetic imagination and the transformation processes that accompany modernization. This study illuminates the musical style of nnwonkoro in a way which, it is hoped, will facilitate future comparative study of African songs. A CD recording is included.

The First Circle Aleksandr Isaevich Solzhenitsyn, 1997 Gleb Nerzhin, a brilliant mathematician, lives out his life in post-war Russia in a series of prisons and labor camps where he and his fellow inmates work to meet the demands of Stalin.

Overcoming School Refusal Joanne Garfi, 2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and

community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

The Oxford Handbook of Applied Ethnomusicology Svanibor Pettan, Jeff Todd Titon, 2015-07-01 Applied studies scholarship has triggered a not-so-quiet revolution in the discipline of ethnomusicology. The current generation of applied ethnomusicologists has moved toward participatory action research, involving themselves in musical communities and working directly on their behalf. The essays in *The Oxford Handbook of Applied Ethnomusicology*, edited by Svanibor Pettan and Jeff Todd Titon, theorize applied ethnomusicology, offer histories, and detail practical examples with the goal of stimulating further development in the field. The essays in the book, all newly commissioned for the volume, reflect scholarship and data gleaned from eleven countries by over twenty contributors. Themes and locations of the research discussed encompass all world continents. The authors present case studies

encompassing multiple places; other that discuss circumstances within a geopolitical unit, either near or far. Many of the authors consider marginalized peoples and communities; others argue for participatory action research. All are united in their interest in overarching themes such as conflict, education, archives, and the status of indigenous peoples and immigrants. A volume that at once defines its field, advances it, and even acts as a large-scale applied ethnomusicology project in the way it connects ideas and methodology, *The Oxford Handbook of Applied Ethnomusicology* is a seminal contribution to the study of ethnomusicology, theoretical and applied.

Brand Hijack Alex Wipperfurth, 2006 Brand Hijack offers a practical how-to guide to marketing that finally engages the marketplace. It presents an alternative to conventional marketing wisdom, one that addresses industry crises such as media saturation, consumer evolution and the erosion of image marketing. However, following the book's advice will require some untraditional - even counterintuitive - steps. This type of marketing is not for everyone, you must be confident enough to stop clamouring for control and learn to be spontaneous. Brand hijacking relies on a radical concept - letting go.

Hawaiian Music in Motion James Revell Carr, 2014-11-03 Hawaiian Music in Motion explores the performance, reception, transmission, and adaptation of Hawaiian music on board ships and in the islands, revealing the ways both maritime commerce and imperial confrontation facilitated the circulation of popular music in the nineteenth century. James Revell Carr draws on journals and ships' logs to trace the circulation of Hawaiian song and dance worldwide

as Hawaiians served aboard American and European ships. He also examines important issues like American minstrelsy in Hawaii and the ways Hawaiians achieved their own ends by capitalizing on Americans' conflicting expectations and fraught discourse around hula and other musical practices.
