The Yellow Wallpaper Charlotte Perkins Gilman,2023-08-31 The Yellow Wallpaper by Charlotte Perkins Gilman is a short story by American writer Charlotte Perkins Gilman, first published in January 1892 in The New England Magazine. It is regarded as an important early work of American feminist literature for its illustration of the attitudes towards mental and physical health of women in the 19th century. Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the husband forbids the unnamed woman from working or writing and encourages her to eat well and get plenty of air so that she can recuperate from what he calls a temporary nervous depression – a slight hysterical tendency, a common diagnosis in women at the time. Plot summary: The story describes a young woman and her husband. He imposes a rest cure on her when she suffers temporary nervous depression after the birth of their baby. They spend the summer at a colonial mansion, where the narrator is largely confined to an upstairs nursery. The story makes striking use of an unreliable narrator in order to gradually reveal the degree to which her husband has imprisoned her due to her physical and mental condition: she describes torn wallpaper, barred windows, metal rings in the walls, a floor scratched and gouged and splintered, a bed bolted to the floor, and a gate at the top of the stairs, but blames all these on children who must have resided there. The narrator devotes many journal entries to describing the wallpaper in the room – its sickly color, its yellow smell, its bizarre and disturbing pattern like an interminable string of toadstools, budding and sprouting in endless convolutions, its missing patches, and the way it leaves yellow smears on the skin and clothing of anyone who touches it. She describes how the longer one stays in the bedroom, the more the wallpaper appears to mutate, especially in the moonlight. With no stimulus other than the wallpaper, the pattern and designs become increasingly intriguing to the narrator. She soon begins to see a figure in the design. Eventually, she comes to believe that a woman is creeping on all fours behind the pattern. Believing she must free the woman in the wallpaper, she begins to strip the remaining paper off the wall.

*Charlotte Perkins Gilman Collection (Volume 1)* Charlotte Perkins Gilman,2014-06-04 Fans of feminist trailblazer Charlotte Perkins Gilman are in for a treat. Gathered in this first volume of The Collected Works of Charlotte Perkins Gilman are three of her most famous works: 'The Yellow Wallpaper' This short story is one of the most popular pre-1923 texts in the English language, ranking third only to The Bible and Shakespeare for free downloads on Project Gutenberg. The strange, haunting vignette delineates a woman's post-partum mental breakdown. First published in January 1892 in The New England Magazine, it is a landmark work of American feminist literature, illustrating attitudes in the 19th century toward women's physical and mental health. It anticipates the works of Sylvia Plath and other feminist writers seven decades later. 'Herland' This remarkable work from 1915 is a utopian novel about an isolated society composed entirely of women, who reproduce via parthenogenesis (asexual reproduction). The result is an ideal social order: free of war, conflict, and domination. The story's set up is like something from the movies: Vandyk Van Jennings, a student of sociology, and two friends (Terry O. Nicholson and Jeff Margrave), form an expedition party to explore an area of uncharted land where it is rumored lives a society consisting entirely of women. The men do not entirely believe the rumors because they are unable to think of a way how human reproduction could occur without males. The men speculate about what a society of women would be like, each guessing differently based on the stereotype of women which he holds most dear: Jeff regarding women as things to be served and protected; Terry viewing them as things to be conquered and won. When the explorers reach their destination, they proceed with caution, hiding the biplane they arrive in, and trying to keep themselves hidden in the forests that border the land. They are quickly found by three young women who they realize are observing them from the treetops. After attempting to catch the girls with trickery, the men end up chasing the young women towards a town or village. The women outrun them easily and disappear among the houses, which, Van notes are exceptionally well made and attractive. After meeting the first inhabitants of this new land (which Van names Herland) the men proceed more cautiously, noting that the girls they met were strong, agile, and completely unafraid. Their caution is warranted because as the men enter the town where the girls disappeared, they become surrounded by a large group of women who march them towards an official looking building. The three men attempt an escape but are swiftly and easily overpowered by the large group of women and eventually anesthetized... The remainder of the Utopian story develops in delightful, unexpected ways. The central theme is defining gender—the roles, how it is socially constructed, and how it is viewed as unchangeable by both genders. The idea of defining genders begins when the men first meet the women of Herland. In comparison to the women of their world, the men view the women of Herland to have masculine physical features: having short, functional hair and lacking curves. The women are physically strong and demonstrate this by building huge buildings in their country. 'The Man Made World' Originally published as 'Our Androcentric Culture, or The Man Made World' in 1911, this is one of the first feminist works to explore the now familiar credo that women are peace-loving nurturers while men dominate through violence. This is Gilman's exposition of Lester Ward's theory that woman is the race type, and the male, originally but a sex type, reaching a later equality with the female, and, in the human race, becoming her master for a considerable historic period. An important and prescient work, published fifty-eight years before Kate Millet's Sexual Politics.

*The Yellow Wallpaper* Charlotte Perkins Gilman,2014-08-23 It is very seldom that mere ordinary people like John and myself secure ancestral halls for the summer. A colonial mansion, a hereditary estate, I would say a haunted house, and reach the height of romantic felicity—but that would be asking too much of fate! Still I will proudly declare that there is something queer about it. Else, why should it be let so cheaply? And why have stood so long untenanted?

**Charlotte Perkins Gilman and a Woman's Place in America** Jill Bergman,2017-02-07 Charlotte Perkins Gilman and a Woman's Place in America probes how depictions of space, confinement, and liberation establish both the difficulty and necessity of female empowerment. Turning Victorian notions of propriety and a woman's place on its ear, this essay collection studies Gilman's writings and the manner in which they push back against societal norms and reject male-dominated confines of space. The contributors present readings of some of Gilman's most significant works. By examining the settings in The Yellow Wallpaper and Herland, for example, the volume analyzes Gilman's construction of place, her representations of male dominance and female subjugation, and her analysis of the rules and obligations that women feel in conforming to their assigned place: the home. Additionally, this volume delineates female resistance to this conformity. Contributors highlight how Gilman's narrators often choose resistance over obedient captivity, breaking free of the spaces imposed upon them in order to seek or create their own habitats. Through biographical interpretations of Gilman's work that focus on the author's own renouncement of her natural role of wife and mother, contributors trace her relocation to the American West in an attempt to appropriate the masculinized spaces of work and social organization. --
