The Best Camera Is The One That's With You Chase Jarvis, 2009-09-18 A beacon of creativity with boundless energy, Chase Jarvis is well known as a visionary photographer, director, and social artist. In *The Best Camera Is The One That's With You*, Chase reimagines, examines, and redefines the intersection of art and popular culture through images shot with his iPhone. The pictures in the book, all taken with Chase's iPhone, make up a visual notebook—a photographic journal—from the past year of his life. The book is full of visually-rich iPhone photos and peppered with inspiring anecdotes. Two megapixels at a time, these images have been gathered and bound into a book that represents a stake in the ground. With it, Chase underscores the idea that an image can come from any camera, even a mobile phone. As Chase writes, "Inherently, we all know that an image isn't measured by its resolution, dynamic range, or anything technical. It's measured by the simple—sometimes profound, other times absurd or humorous or whimsical—effect that it can have upon us. If you can see it, it can move you." This book is geared to inspire everyone, regardless of their level of photography knowledge, that you can capture moments and share them with our friends, families, loved ones, or the world at the press of a button. Readers of *The Best Camera Is The One That's With You* will also enjoy the iPhone application Chase Jarvis created in conjunction with this book, appropriately named Best Camera. Best Camera has a unique set of filters and effects that can be applied at the touch of a button. Stack them. Mix them. Remix them. Best Camera also allows you to share directly to a host of social marketing sites via www.thebestcamera.com, a new online community that allows you to contribute to a living, breathing gallery of the best iPhone photography from around the globe. Together, the book, app, and website, represent a first-of-its-kind ecosystem dedicated to encouraging creativity through picture taking with the camera that you already have. *The Best Camera Is The One That's With You*—shoot!

The Chase Candice Fox,2022-03-08 The Chase is a modern The Fugitive with characters only #1 New York Times and Globe and Mail bestselling author Candice Fox can write. “Are you listening, Warden?” “What do you want?” “I want you to let them out.” “Which inmates are we talking about?” “All of them.” With that, the largest manhunt in United States history is on. In response to a hostage situation, more than 600 inmates from the Pronghorn Correctional Facility, including everyone on Death Row, are released into the Nevada Desert. Criminals considered the worst of the worst, monsters with dark, violent pasts, are getting farther away by the second. John Kradle, convicted of murdering his wife and son, is one of the escapees. Now, desperate to discover what really happened that night, Kradle must avoid capture and work quickly to prove his innocence as law enforcement closes in on the fugitives. Death Row Supervisor, and now fugitive-hunter, Celine Osbourne has focused all of her energy on catching Kradle and bringing him back to Death Row. She has very personal reasons for hating him – and she knows exactly where he’s heading... Faster, Smarter, Greener Venkat Sumantran,Charles Fine,David Gonsalvez,2018-09-11 A call to redefine mobility so that it is connected, heterogeneous, intelligent, and personalized, as well as sustainable, adaptable, and city-friendly. The twentieth century was the century of the automobile; the twenty-first will see mobility dramatically re-envisioned. Automobiles altered cityscapes, boosted economies, and made personal mobility efficient and convenient for many. We had a century-long love affair with the car. But today, people are more attached to their smartphones than their cars. Cars are not always the quickest mode of travel in cities; and emissions from the rapidly growing number of cars threaten the planet. This book, by three experts from industry and academia, envisions a new world of mobility that is connected, heterogeneous, intelligent, and personalized (the CHIP architecture). The authors describe the changes that are coming. City administrators are shifting from designing cities for cars to designing cities for people. Nations and cities will increasingly employ targeted user fees and offer subsidies to nudge consumers toward more sustainable modes. The sharing economy is coaxing many consumers to shift from being owners of assets to being users of services. The auto industry is responding with connected cars that double as virtual travel assistants and by introducing autonomous driving. The CHIP architecture embodies an integrated, multimode mobility system that builds on ubiquitous connectivity, electrified and autonomous vehicles, and a marketplace open to innovation and entrepreneurship. Consumers will exercise choice on the basis of user experience and efficiency, aided by "intelligent advisors," accessible through their mobile devices. An innovative mobility architecture reconfigured for this century is a social and economic necessity; this book charts a course for achieving it.
