Mate Tucker Max, Geoffrey Miller, 2015-09-15 The #1 bestselling pioneer of fratire and a leading evolutionary psychologist team up to create the dating book for guys. Whether they conducted their research in life or in the lab, experts Tucker Max and Dr. Geoffrey Miller have spent the last 20+ years learning what women really want from their men, why they want it, and how men can deliver those qualities. The short answer: become the best version of yourself possible, then show it off. It sounds simple, but it's not. If it were, Tinder would just be the stuff you use to start a fire. Becoming your best self requires honesty, self-awareness, hard work and a little help. Through their website and podcasts, Max and Miller have already helped over one million guys take their first steps toward Ms. Right. They have collected all of their findings in *Mate*, an evidence-driven, seriously funny playbook that will teach you to become a more sexually attractive and romantically successful man, the right way: No seduction techniques, No moralizing, No bullshit. Just honest, straightforward talk about the most ethical, effective way to pursue the win-win relationships you want with the women who are best for you. Much of what they've discovered will surprise you, some of it will not, but all of it is important and often misunderstood. So listen up, and stop being stupid!

You're the Only One I Can Tell Deborah

Tannen, 2017-05-02 This warm, wise exploration of female friendship from the #1 New York Times bestselling author of *You Just Don't Understand* will help women lean into these powerful relationships. A WASHINGTON POST NOTABLE BOOK • "Celebrates friendship in its frustrations and its rewards and, above all, its wonderful complexity."—The Atlantic Best friend, old friend, good friend, bff, college roommate, neighbor, workplace confidante: Women's friendships are a lifeline in times of trouble and a support system for daily life. A friend can be like a sister, daughter, mother, mentor, therapist, or

confessor—or she can be all of these at once. She's seen you at your worst and celebrates you at your best. Figuring out what it means to be friends is, in the end, no less than figuring out how we connect to other people. In this illuminating and validating new book, #1 New York Times bestselling author Deborah Tannen deconstructs the ways women friends talk and how those ways can bring friends closer or pull them apart. From casual chatting to intimate confiding, from talking about problems to telling what you had for dinner, Tannen uncovers the patterns of communication and miscommunication that affect friendships at different points in our lives. She shows how even the best of friends—with the best intentions—can say the wrong thing, and how words can repair the damage done by words. Through Tannen's signature insight, humor, and ability to present pitch-perfect real-life dialogue, readers will see themselves and their friendships on every page. The book explains • the power of women friends who show empathy, give advice—or just listen • how women use talk to connect to friends—and to subtly compete • how “Fear of Being Left Out” and “Fear of Getting Kicked Out” can haunt women's friendships • how social media is reshaping communication and relationships Drawing on interviews with eighty women of diverse backgrounds, ranging in age from nine to ninety-seven, *You're the Only One I Can Tell* gets to the heart of women's friendships—how they work or fail, how they help or hurt, and how we can make them better. “At a time when the messages we give and get have so many more ways to be misconstrued

and potentially damaging, a book that takes apart our language becomes almost vital to our survival as friends.”—The Washington Post

Legendborn Tracy Deonn, 2020-09-15 An Instant New York Times Bestseller! Winner of the Coretta Scott King - John Steptoe for New Talent Author Award Filled with mystery and an intriguingly rich magic system, Tracy Deonn's YA contemporary fantasy reinvents the King Arthur legend and "braids together Southern folk traditions and Black Girl Magic into a searing modern tale of grief, power, and self-discovery" (Dhonielle Clayton, New York Times bestselling author of *The Belles*). After her mother dies in an accident, sixteen-year-old Bree Matthews wants nothing to do with her family memories or childhood home. A residential program for bright high schoolers at UNC-Chapel Hill seems like the perfect escape—until Bree witnesses a magical attack her very first night on campus. A flying demon feeding on human energies. A secret society of so called "Legendborn" students that hunt the creatures down. And a mysterious teenage mage who calls himself a "Merlin" and who attempts—and fails—to wipe Bree's memory of everything she saw. The mage's failure unlocks Bree's own unique magic and a buried memory with a hidden connection: the night her mother died, another Merlin was at the hospital. Now that Bree knows there's more to her mother's death than what's on the police report, she'll do whatever it takes to find out the truth, even if that means

infiltrating the Legendborn as one of their initiates. She recruits Nick, a self-exiled Legendborn with his own grudge against the group, and their reluctant partnership pulls them deeper into the society's secrets—and closer to each other. But when the Legendborn reveal themselves as the descendants of King Arthur's knights and explain that a magical war is coming, Bree has to decide how far she'll go for the truth and whether she should use her magic to take the society down—or join the fight.

The Class Sonia Livingstone, Julian Sefton-Green, 2016-05-03 An intimate look at how children network, identify, learn and grow in a connected world. Read Online at connectedyouth.nyupress.org Do today's youth have more opportunities than their parents? As they build their own social and digital networks, does that offer new routes to learning and friendship? How do they navigate the meaning of education in a digitally connected but fiercely competitive, highly individualized world? Based upon fieldwork at an ordinary London school, *The Class* examines young people's experiences of growing up and learning in a digital world. In this original and engaging study, Livingstone and Sefton-Green explore youth values, teenagers' perspectives on their futures, and their tactics for facing the opportunities and challenges that lie ahead. The authors follow the students as they move across their different social worlds—in school, at home, and with their friends, engaging in a range of activities from video games to drama clubs and music lessons. By portraying the texture of the students' everyday lives, *The Class* seeks

to understand how the structures of social class and cultural capital shape the development of personal interests, relationships and autonomy. Providing insights into how young people's social, digital, and learning networks enable or disempower them, Livingstone and Sefton-Green reveal that the experience of disconnections and blocked pathways is often more common than that of connections and new opportunities.

African Literacies Ashraf Abdelhay, Yonas Mesfun Asfaha, Kasper Juffermans, 2014-10-02 Africa is often depicted as the continent with the lowest

literacy rates in the world. Moving beyond this essentialising representation, this volume explores African literacies within their complex and diverse multilingual and multiscritpal histories and contexts of use. The chapters examine contexts from the Maghreb to Mozambique and from Senegambia to the Horn of Africa and critically analyse multiple literacy genres and practices – from ancient manuscripts to instant messaging – in relation to questions of language-in-education and policy, livelihoods, Islamic scholarship, colonialism, translocal migration, and writing systems. As a whole, the book serves as an advanced introduction to language and society in Africa seen through the lens of literacy, and marks a unique contribution to scholarship in literacy studies offering a convenient collection of perspectives on and from Africa.

It's Complicated Danah Boyd, 2014-02-25 A youth and technology expert offers original research on teens' use of social media, the myths frightening adults, and how young people form communities. What is new about how teenagers communicate through services like Facebook, Twitter, and Instagram? Do social media affect the quality of teens' lives? In this book, youth culture and technology expert Danah Boyd uncovers some of the major myths regarding teens' use of social media. She explores tropes about identity, privacy, safety, danger, and bullying. Ultimately, Boyd argues that society fails young people when paternalism and protectionism hinder teenagers' ability to become informed, thoughtful, and

engaged citizens through their online interactions. Yet despite an environment of rampant fear-mongering, Boyd finds that teens often find ways to engage and to develop a sense of identity. Boyd's conclusions are essential reading not only for parents, teachers, and others who work with teens, but also for anyone interested in the impact of emerging technologies on society, culture, and commerce. Offering insights gleaned from more than a decade of original fieldwork interviewing teenagers across the United States, Boyd concludes reassuringly that the kids are all right. At the same time, she acknowledges that coming to terms with life in a networked era is not easy or obvious. In a technologically mediated world, life is bound to be complicated. "Boyd's new book is layered and smart . . . It's Complicated will update your mind." —Alissa Quart, New York Times Book Review "A fascinating, well-researched and (mostly) reassuring look at how today's tech-savvy teenagers are using social media." —People "The briefest possible summary? The kids are all right, but society isn't." —Andrew Leonard, Salon
