Dear Data Giorgia Lupi,Stefanie Posavec,2016-09-13 Equal parts mail art, data visualization, and affectionate correspondence, Dear Data celebrates the infinitesimal, incomplete, imperfect, yet exquisitely human details of life, in the words of Maria Popova (Brain Pickings), who introduces this charming and graphically powerful book. For one year, Giorgia Lupi, an Italian living in New York, and Stefanie Posavec, an American in London, mapped the particulars of their daily lives as a series of hand-drawn postcards they exchanged via mail weekly—small portraits as full of emotion as they are data, both mundane and magical. Dear Data reproduces in pinpoint detail the full year's set of cards, front and back, providing a remarkable portrait of two artists connected by their attention to the details of their lives—including complaints, distractions, phone addictions, physical contact, and desires. These details illuminate the lives of two remarkable young women and also inspire us to map our own lives, including specific suggestions on what data to draw and how. A captivating and unique book for designers, artists, correspondents, friends, and lovers everywhere.

How the World Changed Social Media Daniel Miller,Elisabetta Costa,Nell Haynes,Tom McDonald,Razvan Nicolescu,Jolynna Sinanan,Juliano Spyer,Shriram Venkatraman,Xinyuan Wang,2016-02-29 How the World Changed Social Media is the first book in Why We Post,

a book series that investigates the findings of anthropologists who each spent 15 months living in communities across the world. This book offers a comparative analysis summarising the results of the research and explores the impact of social media on politics and gender, education and commerce. What is the result of the increased emphasis on visual communication? Are we becoming more individual or more social? Why is public social media so conservative? Why does equality online fail to shift inequality offline? How did memes become the moral police of the internet? Supported by an introduction to the project’s academic framework and theoretical terms that help to account for the findings, the book argues that the only way to appreciate and understand something as intimate and ubiquitous as social media is to be immersed in the lives of the people who post. Only then can we discover how people all around the world have already transformed social media in such unexpected ways and assess the consequences

Ignore Everybody Hugh MacLeod,2009-06-11 When Hugh MacLeod was a struggling young copywriter, living in a YMCA, he started to doodle on the backs of business cards while sitting at a bar. Those cartoons eventually led to a popular blog - gapingvoid.com - and a reputation for pithy insight and humor, in both words and pictures. MacLeod has opinions on everything from marketing to the meaning of life, but one of his main subjects is creativity. How do new ideas emerge in a cynical, risk-averse world? Where does inspiration come from? What does it take to make a living as a creative person? Now his first book, Ignore Everyone, expands on his sharpest insights, wittiest cartoons, and most useful advice. A sample: *Selling out is harder than it looks. Diluting your product to make it more commercial will just make people like it less. *If your plan depends on you suddenly being discovered by some big shot, your plan will probably fail. Nobody suddenly discovers anything. Things are made slowly and in pain. *Don't try to stand out from the crowd; avoid crowds altogether. There's no point trying to do the same thing as 250,000 other young hopefuls, waiting for a miracle. All existing business models are wrong. Find a new one. *The idea doesn't have to be big. It just has to be yours. The sovereignty you have over your work will inspire far more people than the actual content ever will. After learning MacLeod's 40 keys to creativity, you will be ready to unlock your own brilliance and unleash it on the world.
