Landscapes of Postmodernity Petra Eckhard,Michael Fuchs,Walter W. Holbling,2010 In Landscapes of Postmodernity, a group of young scholars link key concepts of postmodern thought to our present everyday experience in which we change our identities on a regular basis. While many of the essays look at less conventional modes of aesthetic representation - computer games, graphic novels, telenovelas, queer and animated films - others analyze more canonical works following less conventional approaches. Either way, the cultural and literary cartographies presented in this book allow America to be conceived as polymorphous or transnational, celebrating a new American self that is aware and proud of its non-Anglo-Saxon origins.

Commercialising Celebrity Persona Emma Perot,2023-09-07 This book investigates the commercialisation of celebrity persona in the UK, New York, and California. Interviews with 68 practitioners across the advertising, merchandising, film, and video game industries provide insight on the differences in approaches across jurisdictions, as well as the similarities caused by non-legal factors. Furthermore, the book addresses the developments in technology, social media, and social norms that have made collaboration attractive to maintain favour with fans. The book considers how the extension of passing off in the UK to include persona rights impacts the dispute resolution and transactional spheres involved in the commercialisation of persona. It compares the industry landscape to that of the US where the right of publicity has been recognised since 1953 and has gone as far as to protect 'identity'. The book argues that nonlegal factors significantly impact the commercialisation of persona across the jurisdictions and interact with the law to encourage permission-based behaviours. However, there remains a divergence in the dispute resolution sphere. Anyone who is interested in the multi-million dollar business of celebrities as assets will benefit from this book.
