Chemistry Jerry A. Bell, American Chemical Society, 2005 The American Chemical Society has launched an activities-based, student-centered approach to the general chemistry course, a textbook covering all the traditional general chemistry topics but arranged in a molecular context appropriate for biology, environmental and engineering students. Written by industry chemists and educators, Chemistry combines cooperative learning strategies and active learning techniques with a powerful media/supplements package to create an effective introductory text. -- Online description.

Chapterwise Instant Notes Class 11 Chemistry Book MTG Learning Media, MTG presents a new resource to help CBSE students with this masterpiece – Chapterwise Instant Notes. Pain-Free Horse Riding Nikki Robinson, 2019-06-18 Discover why you have pain and tension, learn how they affect your horse and riding, and master techniques for treating and preventing pain and injury in the future. Pain-Free Horse Riding is the first book to combine exercises for horseback riders to increase strength and flexibility and improve riding and address the pain they suffer from and how to relieve it. Horse rider and Myofascial Release therapist Nikki Robinson offers realistic ways to improve common conditions--back and neck pain, tendonitis, fibromyalgia, osteoarthritis, joint pain and stiffness, and repetitive strain injury--without giving up the activity you love. The book provides an introduction to fascia, covers how your body reacts to injury, and addresses common symptoms such as pain, tension, and inflammation. A key chapter focuses specifically on riding posture--the position of your head, shoulders, back, buttocks, and legs--including exercises to solve your riding problems with myofascial techniques. Also included are personal stories from riders who have had success with these methods. The format of the book allows readers to start at the beginning and read all the way through or to go straight to the sections that address their particular condition. There are cross-references throughout to direct readers where to find additional information if they are interested.

Stress Out Sumner M. Davenport, Aila Accad, Debra Costanzo, 2009-11-11 Stress is a constant in our lives - such a constant that we actually don't realize we are under stress, we think it's just part of life. Health surveys report that over 70% of people feel stress everyday. Some stress is helpful, but most stress is destructive; it can age you and it can kill you. The focus of this book is STRESS OUT, not Stressed-out. Stressed-out is a condition you may be experiencing; Stress Out is a solution, a command to tell stress who's the boss. This book provides quick tips, recommendations and techniques that can assist you in having a more healthy relationship with stress.

How to Become a Published Author Jeff Scot Philips, 2019-11-06 This book is packed with practical advice, specific examples, and tons of free resources to help you become a published author. You will learn: - What makes a marketable book concept, why yours probably isn't (yet), and how to fix it - The two-step formula that I & other traditionally published authors used to adapt a book concept to the market, and how to apply this strategy to your book (w/links to a free video training) - I walk you through building a book proposal (with examples), plus a few tricks to REALLY make your pitch stand out - How to construct a query letter, line-by-line - Specifically where to find the perfect agent for your book, and how to see when agents are reading your email so you'll know when to follow up - Tons of other little tips & secrets to help you land a literary agent and get a publishing deal I remember how frustrating it was when I was trying to figure out how to get an agent to pay attention to me. I just wanted someone to give me a chance. There were lots of blogs and other books offering advice—mostly what not to do—but nobody could explain why my book wasn't getting picked up. And they definitely weren't explaining what I could do to fix it. It was as if everyone who'd crossed to the other side and become a published author, then burned the bridge behind them and said "good luck to the rest of you." It was a rough, lonely, and expensive road to getting my book published. And I don't want you to have to go through the same thing. That's why this book is free. I'm not exaggerating when I tell you that the process of getting traditionally published was about the most amazing experience I've ever had. Upon getting published, my book was in every major bookstore in the U.S., as well as Canada, the U.K., and Australia. I was booked on national television and appeared in numerous magazines and newspapers—everything from Good Morning America, The Doctors, and Business Insider, to The New York Post, Fox News, and Vice. And I was giving countless interviews for conventional radio shows, Sirius XM, and podcasts. And I wrote this book to help you achieve the same. My goal with this book is to provide as much value as I can, show you all the steps, answer any questions, provide tons of free resources, and hopefully overdeliver in every way possible, so that your book will attract an agent, and help you become a traditionally published author. See you on the inside! — Jeff Scot Philips

Written by a team of dedicated and passionate academics, and shaped by feedback from over 55 institutions, its straightforward narrative, reinforced by key concept overview videos for every chapter, communicate key ideas clearly: the right information is provided at the right time, and at the right depth. Its pause and think features, self-check quizzes, and graded end of chapter questions, augmented by flashcards of key terms, directly support active learning. The combination of narrative text and learning features promote a rich, active learning experience: read, watch, and do. Its combination of Quantitative Toolkits, Scientific Process panels, and the Life and its Exploration chapters provide more insight and support than any other general biology text; they prepare students to engage with this quantitative and experimental discipline with confidence, and set them on a path for success throughout their future studies. With coverage that spans the full scale of biological science - from molecule to ecosystem - and with an approach that fully supports flexible, self-paced learning, Biological Science: Exploring the Science of Life will set you on a path towards a deeper understanding of the key concepts in biology, and a greater appreciation of biology as a dynamic experimental science. Digital formats and resources Biological Science: Exploring the Science of Life is available for students and institutions to purchase in a variety of formats. The enhanced ebook is enriched with features that offer extra learning support: www.oxfordtextbooks.co.uk/ebooks- Key concepts videos support students from the start of every chapter and as they make their way through every Module.- Self-check questions at the end of each chapter section give students quick and formative feedback, building their confidence and comprehension as they study and revise.- Quantitative skills video screencasts help students to master the foundational skills required by this discipline.- Interactive figures give students the control they need to step through, and gain mastery over, key concepts.- Per-chapter flashcard glossaries help students to recall the key terms and concepts on which further study can be built.

Mature Friendships, Love, and Romance Morley D. Glick, 2010-06-02 This insightful, research-driven book offers practical advice to older adults seeking new intimate relationships, lasting friendships, and better relationships with family members and children. Written to appeal to men as well as women, *Mature Friendships, Love, and Romance: A Practical Guide to Intimacy for Older Adults* is a serious book about love, romance, intimacy, and sexuality, as well as friendship and family. It is about what happens when older adults lack close relationships and about practical ways to address that isolation and loneliness. Through personal stories and vignettes, readers will see how notions of friendship, intimacy, and love change as we age, what mature love is, and what factors can make it challenging. Among the topics discussed are late-life divorces and breakups of long-term relationships; finding new and intimate friendships; resolving problems with adult children that can emerge when you enter a new, loving relationship; and choosing activities to increase your pool of potential friends and mates. Internet dating is addressed, as are the general thoughts and actions of happy people who agree life can start at 60.

Colors for Your Every Mood Leatrice Eiseman,1998 America's leading color expert shows how to choose the right color combinations for all your rooms based on Color Moods from your own personality, nature, and travel. Most decorating books start out telling readers how to achieve someone else's notion of how a room should look. This book is different. It helps you determine how you want yourself, your family, and your friends to feel when entering each room in your home. It combines psychology with a practical how-to and reveals which colors and color combinations will achieve the feeling and personal style you want to project in each room.

Marked for Murder William Kienzle,2012-09-18 Readers will be turning the pages into the wee hours of the night, trying to solve the mystery along with Tully and Koesler. —West Coast Review of Books Has the Detroit Police Department found the perpetrator of one of the most gruesome serial murders in Detroit's history—the brutal mutilation of prostitutes? Father Robert Koesler has a special interest in solving one of the most challenging cases in his career. In this tenth Kienzle mystery, Koesler—Detroit's most famous Catholic priest—may be facing his toughest test yet. On Sunday afternoons, in Detroit's inner city, older prostitutes are being picked up by someone described by witnesses as a man dressed in clerical garb. By the time that Detroit's Homicide Division enters the picture, the victims have been strangled, mutilated, and finally, branded—in a strange place—with a strange marking.
