Balancing a Checkbook Gillian Houghton, 2009-01-15

Introduces checking accounts, how they work, the proper way to
write a check, and explains how to balance a checkbook.

Checkbook Register Isabella Hart, 2020-11-20 A check
register helps you keep a personal record of your checking
account. This allows you to see and continually update your
account balance, any withdrawals or deposits to your account,
and transactions that have not yet hit your account. Even if you
trust your bank, it's wise to keep your own records, because you
might be better informed than your bank about upcoming
transactions. Our checkbook register comes with: □ Check
number Record of check numbers □ Date Date of a transaction □
Description Helpful notes about a transaction □ Withdrawal/Debit
(-) Payments, fees, and withdrawals □ Deposit/Credit (+) Deposits
and interest □ Balance Current account balance after a
transaction Your check register will help you: □ Identify bank
mistakes, which are rarely in your favor. □ Catch identity theft. If
you see something you didn't expect, report it as quickly as
possible to get full protection under U.S. law. □ Avoid bounced
checks, as well as the expenses and potential problems that come
with them. Know how much you can afford to spend, and whether
you need to transfer money to your checking account. For
example, you can avoid overdraft fees by moving funds from your
savings account to cover upcoming expenses. Keep track of all
your paid debts, the amounts, and the dates. Kws: check
