Unforgiving Destiny David Mcmillan, 2017-04-26 Unforgiving Destiny follows the true story of the 37-year pursuit by authorities on five continents to imprison and execute David McMillan as he travelled as an independent smuggler. Readers have called this sprawling yet fast-paced saga, The benchmark for true-crime writing, and includes new details of the notorious Bangkok escape. Dogged by an obsessed DEA agent, he evades the death penalty in Thailand by escaping prison, only to be 'disappeared' in Pakistan jails after crossing the Afghan border. After every downfall, McMillan rebuilds his life and network only to find the same agency people arranging capture by any means. In this private history, readers are taken to the streets of New York City and Colombia, then through the war-zones of Afghanistan and torture cells in Karachi. At the same time, McMillan balances a double life of a London gentleman with the women in his life oblivious to his true nature. Look to the author's page to hear readings, video, background, film links and see the faces behind this extraordinary journey. In one reviewer's words, Unforgiving Destiny is a mini-masterpiece. Outstanding. Imagine losing everything you care about. Home, family, freedom, every object that built your life, writes McMillan. Then locked in some of the world's worst prisons. Even if you survive, there are little deaths feeding on your guts - when that repeats five times over thirty years, those little deaths drain your soul. Unforgiving Destiny - the Relentless Pursuit of a Black Marketeer reveals the ultimate cost of survival in the darkest of dark worlds. Unforgiving Destiny includes an integrated chapter on the Bangkok-prison breakout and answers many of the questions raised by the over 100,000 readers of 'Escape: The True Story of the Only Westerner Ever to Break Out of Thailand's Bangkok Hilton'. This new and most personal biography reveals the fears, ambitions and motivations of a man both driven and pursued, surviving the unthinkable, and the effects upon those he loves. McMillan is the last survivor of the small band of independent smugglers, and as such has now told much that could not have been told before. Only in 2016 was he free to speak, after the Thai government abandoned all attempts to extradite him to again face a death penalty. Few other lives have been so extraordinary or more clearly told. Renowned thriller writer Stephen Leather, after reading Escape, wrote: 'David makes no excuses for his life as a professional drug smuggler and asks for no sympathy. While most of David's fellow prisoners gave up hope and accepted their fate, he decided from Day One that he had no alternative other than to do what no other Westerner had ever managed - to escape! David is a great writer...' Unforgiving Destiny raises the standard for fast-paced autobiographies of extraordinary people, written in a style that is heart-rending yet often humorous as McMillan sets ego aside and invites readers into his hidden domain.

Academic E-Books Suzanne M. Ward, Robert S. Freeman, Judith M. Nixon, 2015-11-15 Academic E-Books: Publishers, Librarians, and Users provides readers with a view of the changing and emerging roles of electronic books in higher education. The three main sections contain contributions by experts in the publisher/vendor arena, as well as by librarians who report on both the challenges of offering and managing e-books and on the issues surrounding patron use of e-books. The case study section offers perspectives from seven different sizes and types of libraries whose librarians describe innovative and thought-provoking projects involving e-books. Read about perspectives on e-books from organizations as diverse as a commercial publisher and an association press. Learn about the viewpoint of a jobber. Find out about the e-book challenges facing librarians, such as the quest to control costs in the patron-driven acquisitions (PDA) model, how to solve the dilemma of resource sharing with e-books, and how to manage PDA in the consortial environment. See what patron use of e-books reveals about reading habits and disciplinary differences. Finally, in the case study section, discover how to promote scholarly e-books, how to manage an e-reader checkout program, and how one library replaced most of its print collection with e-books. These and other examples illustrate how innovative librarians use e-books to enhance users' experiences with scholarly works.

The Hyperlinked Society Lokman Tsui, 2009-12-11 Links are among the most basic---and most unexamined---features of online life. Bringing together a prominent array of thinkers from industry and the academy, The Hyperlinked Society addresses a provocative series of questions about the ways in which hyperlinks organize behavior online. How do media producers' considerations of links change the way they approach their work, and how do these considerations in turn affect the ways that audiences consume news and entertainment? What role do economic and political considerations play in information producers' creation of links? How do links shape the size and scope of the public sphere in the digital age? Are hyperlinks bridging mechanisms that encourage people to see beyond their personal beliefs to a broader and more diverse world? Or do they simply reinforce existing bonds by encouraging people to ignore social and political perspectives that conflict with their existing interests and

beliefs? This pathbreaking collection of essays will be valuable to anyone interested in the now taken for granted connections that structure communication, commerce, and civic discourse in the world of digital media. This collection provides a broad and deep examination of the social, political, and economic implications of the evolving, web-based media environment. The Hyperlinked Society will be a very useful contribution to the scholarly debate about the role of the internet in modern society, and especially about the interaction between the internet and other media systems in modern society. ---Charles Steinfield, Professor and Chairperson, Department of Telecommunication, Information Studies, and Media, Michigan State University Joseph Turow is Robert Lewis Shayon Professor at the Annenberg School for Communication, University of Pennsylvania.
