**The Checklist Book** Alexandra Franzen, 2020-01-14 Master both major and minor tasks—by going back to the basics and writing out a simple checklist. It will change your life. The checklist is one of the world’s oldest—and most effective—productivity systems. If anything, says entrepreneur Alexandra Franzen, it is just as valuable now as it was during the days of the Roman Empire, allowing us to tangibly plan our day and set in stone what we want to accomplish. There are countless apps and organizational systems promising to help us straighten out our lives, but often they only add to the madness and leave us feeling drained and overwhelmed. Learn how to: · Choose your highest priorities · Set realistic goals · Celebrate tiny wins · Feel calmer every day By physically writing down our tasks on a single piece of paper, we force ourselves to be realistic and limit how much we can do in a day. Too often, we cram our day with tasks and chores and leave almost no space for self-care or time with loved ones. We end up disappointed in our inability to complete our never-ending to-do list. Checklists help you accomplish what needs to be done—and enjoy things you want to be doing, too. “There are thousands of books on how to become more organized and productive, but very few have the heart, soul, humor, and gentle encouragement of this book.” —Ellen Fondiler, career and business strategist

**The Checklist Manifesto** Atul Gawande, 2010-04-01 The New York Times bestselling author of *Being Mortal* and *Complications* reveals the surprising power of the ordinary checklist We live in a world of great and increasing complexity, where even the most expert professionals struggle to master the tasks they face. Longer training, ever more advanced technologies—neither seems to prevent grievous errors. But in a hopeful turn, acclaimed

surgeon and writer Atul Gawande finds a remedy in the humblest and simplest of techniques: the checklist. First introduced decades ago by the U.S. Air Force, checklists have enabled pilots to fly aircraft of mind-boggling sophistication. Now innovative checklists are being adopted in hospitals around the world, helping doctors and nurses respond to everything from flu epidemics to avalanches. Even in the immensely complex world of surgery, a simple ninety-second variant has cut the rate of fatalities by more than a third. In riveting stories, Gawande takes us from Austria, where an emergency checklist saved a drowning victim who had spent half an hour underwater, to Michigan, where a cleanliness checklist in intensive care units virtually eliminated a type of deadly hospital infection. He explains how checklists actually work to prompt striking and immediate improvements. And he follows the checklist revolution into fields well beyond medicine, from disaster response to investment banking, skyscraper construction, and businesses of all kinds. An intellectual adventure in which lives are lost and saved and one simple idea makes a tremendous difference, *The Checklist Manifesto* is essential reading for anyone working to get things right.

*Safe Patients, Smart Hospitals* Peter Pronovost, Eric Vohr, 2011-01-25 The tough-minded and revealing story of a leading doctor's crusade against medical harm...Fascinating reading. -Atul Gawande, author of *The Checklist Manifesto*. First, do no harm. Doctors, nurses, and clinicians swear by this code of conduct. Yet, medical errors are made every single day-avoidable mistakes that often cost lives. Inspired by two such mistakes, Dr. Peter Pronovost made it his personal mission to improve patient safety and make preventable deaths a thing of the past, one hospital at a time. *Safe Patients, Smart Hospitals* shows how

Dr. Pronovost started a revolution by creating a simple checklist that standardized a common ICU procedure. His reforms are being implemented in all fifty states and have saved hundreds of lives by cutting hospital-acquired infection rates by 70%. Atul Gawande profiled Dr. Pronovost's reforms in a New Yorker article and his bestselling book *The Checklist Manifesto* is based upon Dr. Pronovost's success in patient safety. But *Safe Patients, Smart Hospitals* is the real story: an inspiring, thought-provoking, accessible insider's narrative about how doctors and nurses are improving patient care for all Americans, today.

The 1-Year Checklist Florin Roșoga, 2014-07-07 About ten years ago, I started defining objectives for myself. I began by just writing down what I wanted to accomplish on a piece of paper. I noticed soon after that this wasn't very effective. I would write them down on paper, set the paper aside, and I'd remember after a few months. I needed a system that would ensure that my objectives became reality. Over the years, I have tested several systems for organizing and achieving my objectives. I had breakdowns, surrenders, resumptions, and tactical changes. I resorted to the most diverse strategies. Today, after ten years of tests and experiments, I have my own system that offers a rate of success of over 90 percent. There are still instances when I fail, but I can say that I manage pretty well. My vision for this book was to provide a system for organizing time and personal objectives, constructed around annual objectives. A good system of organization does not guarantee success, unless you also work to transform it into reality. In other words, this book will not do the work for you. But, with this book in your hand, the most thrilling part is just about to start.

*Make Time* Jake Knapp, John Zeratsky, 2018-09-25 From the New York Times bestselling authors of *Sprint* comes “a unique and engaging read about a proven habit framework [that] readers can apply to each day” (Insider, Best Books to Form New Habits). “If you want to achieve more (without going nuts), read this book.”—Charles Duhigg, author of *The Power of Habit* Nobody ever looked at an empty calendar and said, The best way to spend this time is by cramming it full of meetings! or got to work in the morning and thought, Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned design sprint, Jake and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. *Make Time* is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. *Make Time* isn't about productivity, or checking off more to-dos. Nor does it

propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, If only there were more hours in the day..., *Make Time* will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.
