C Day-Lewis Peter Stanford, 2007-05-27 How unfair', wrote one national newspaper in 1951, 'that accomplishments enough to satisfy the pride of six men should be united in Mr Day-Lewis.' Poet, translator of classical texts, novelist, detective writer (under the pen-name Nicholas Blake), performer and, at that time, Professor of Poetry at Oxford, C Day-Lewis had many careers all at once. This first authorised biography tells the private story behind the

many headlines that this handsome, charming Anglo-Irish Poet Laureate generated in his lifetime. With unparalleled access to Day-Lewis's archives and the recollections of first-hand witnesses, Peter Stanford traces the link between life and art to reassess the work of a poet lauded in his lifetime but whose literary reputation has latterly become a matter of controversy with Westminster Abbey refusing him the place in Poets' Corner traditionally allotted to Poets Laureate. Day-Lewis first made his name as one of the 'poets of the thirties', launching a communist-influenced poetic revolution alongside WH Auden and Stephen Spender that aspired to spark wholesale political change to face down fascism. In the 1940s, 'Red Cecil', as he had become known, broke with communism and Auden and went on to produce some of his most popular and enduring verse, prompted by his long love affair with the novelist, Rosamond Lehmann. Torn between her and his wife, he reflected on his double life in verse and became for some the supreme poet of the divided heart. Later, with his second wife, the actress Jill Balcon, he promoted poetry with a series of popular recitals and radio and television programmes. Together, they had two children, Tamasin and Daniel, later an Oscar-winning actor. Day-Lewis was always pulled between a fulfilling domestic life and a restless desire to explore. His travels, his exploration of his Irish roots and his infidelities are all part of the rich and many-faceted life that Peter Stanford describes. It is, however, as a poet that he is best remembered, and the poetry itself, often autobiographical, forms an integral part of this intriguing and long-overdue biography.

Cheddar Gordon Edgar, 2015 Cheddar is the world's most ubiquitous and beloved cheese. More than that, cheddar holds a key to understanding our food politics and even our cultural identity. In 'Cheddar', Gordon Edgar (Cheesemonger) traces the unexplored history of cheddar, with both wry humor and an eye toward its future. Cheddar has something to tell us about this country: from the way people rally to certain types of cheddar but not others, to the gradual transformation of a once artisan cheese into big commodity blocks (and back again) and the effect that has had on rural communities. One of the first cheeses to be industrialized, cheddar's progression from farmstead wheels to machine-extruded singles mirrors that of our entire food system. The resurgence of traditional cheesemaking over the last few decades, in turn, speaks to ways that we're redefining how food is produced. Edgar also answers some key questions about cheddar. Is it the most popular cheese in the land? Did England invent it and America cheapen it? Is today's 40-pound block a precursor to Velveeta? You'll find these answers and more in 'Cheddar', a book as thought-provoking as it is entertaining and that reveals what a familiar food has to tell us about ourselves and our culture--Page 4 of cover.

The Cheese Chronicles Liz Thorpe, 2009-07-28 The Cheese Chronicles is an insider's look at the burgeoning world of American cheese from one

lucky person who has seen more wedges and wheels, visited more cheesemakers, and tasted more delicious (and occasionally stinky) American cheese than anyone else. Liz Thorpe, second in command at New York's renowned Murray's Cheese, has used her notes and conversations from hundreds of tastings spanning nearly a decade to fashion this odyssey through the wonders of American cheese. Offering more than eighty profiles of the best, the most representative, and the most important cheesemakers, Thorpe chronicles American cheesemaking from the brave foodie hobbyists of twenty years ago (who put artisanal cheese on the map) to the carefully cultivated milkers and makers of today. Thorpe travels to the nation's cheese farms and factories, four-star kitchens and farmers' markets, bringing you along for the journey. In her quest to explore cheesemaking, she highlights the country's greatest cheeses and concludes that today's cheesemakers can help provide more nourishing and sensible food for all Americans. Steve Jenkins, author of the celebrated *Cheese Primer*, calls this the best book about cheese you'll ever read. *The Cheese Chronicles* is a cultural history of an industry that has found breakout success and achieved equal footing with its European cousins.

Inside the Danger Zone Harold Lee Wise, 2013-09-15 From the Iraqi attack on the USS Stark to Iranian mine fields to Revolutionary Guard gunboats, the 1987-88 Persian Gulf was a place of shadowy danger for U.S. Navy ships assigned to protect oil tankers during the Iran-Iraq War. A low-profile escort mission quickly became an international test of wills between the United States and Iran. The conflict escalated to involve secret missions and special operations until finally the United States and Iran engaged in open combat, most notably during Operation Praying Mantis in April 1988, the world's largest sea-air battle since World War II. It was the largest deployment of American forces between the Vietnam War and Desert Storm and one with dramatic implications for subsequent events. Yet, the story remained mostly untold and misunderstood for almost two decades. *Inside the Danger Zone* is the first book ever published to focus on this period, a fourteen-month span that saw an unprecedented series of American military action in this volatile region. Based on declassified documents and extensive interviews with veterans and government officials, many of which spoke out for the first time, *Inside the Danger Zone* is a fast moving narrative history that tells the story of this quasi-war with Iran from the White House to the front lines.
