Cheryl Cole Gerard Sanderson,2010-08-20 One fifth of Britain's hottest girl group, super-WAG, X Factor judge and all round celebrity, Cheryl Cole has been a runaway success since her first appearance on Popstars: The Rivals. In this intimate biography Gerard Sanderson takes an insightful and sensitive look at Cheryl's life and her whirlwind rise to the top, and why it hasn't always been easy: including her ambitious early life; the notorious assault court case; her life as a WAG; the true dynamics of the band; and her turbulent marriage to footballer Ashley Cole.

The Complete Guide to Using Google in Libraries Carol Smallwood,2015-02-26 Carol Smallwood's The Complete Guide to Using Google in Libraries, Volume 1: Instruction, Administration, and Staff Productivity explores how Google's suite of tools, from Google Docs (now Google Drive), Google Scholar, Hangout, Forms, and others made freely available to the Internet Community can be used by libraries to expand the role of digital operations in the management of library materials, to communicate with their patrons and collaborators, to exploit the resources on the Web, and many others. The book has 29 chapters organized into sections that focus on ways that Google's suite of tools can be applied to address problems in a specific area of library concern. The section headings are: Library Instruction for Users; Collaboration within and among libraries; Library Administration; Collection Management; and Library Productivity. In each topical area, the chapters show how librarians are taking advantage of these tools to change the way that their library works. All of this without the burden of an additional bill to pay. Through these carefully selected case studies from real libraries, you will be able to learn about the surprising and powerful potential that exists through Google tools to improve library operations.

Indexing 'Chav' on Social Media Emilia Di Martino,2022-09-15 The book sets out to examine the concept of 'chav', providing a review of its origins, its characterological figures, the process of enregisterment whereby it has come to be recognized in public discourse, and the traits associated with it in traditional media representations. The author then discusses the 'chav' label in light of recent re-appropriations in social network activity (particularly through the video-sharing app TikTok) and subsequent commentary in the public sphere. She traces the evolution of the term from its use during the first decade of the twenty-first century to make sense of class, status and cultural capital, to its resurgence and the ways in which it is still associated with appearance in gendered and classed ways. She then draws on recent developments in linguistic anthropology and embodied sociocultural linguistics to argue that social media users draw on communicative resources to perform identities that are both situated in specific contexts of discourse and dynamically changing, challenging the idea that geo-sociocultural varieties and mannerisms are the sole way of indexing membership of a community. This volume contends that equating 'chav' with 'underclass' in the most recent uses of the concept on social networks may not be the whole story, and the book will be of interest to sociocultural linguistics and identity researchers, as well as readers in anthropology, sociology, British studies, cultural studies, identity studies, digital humanities, and sociolinguistics.

The authors, all noted authorities in the fields of economics, diplomacy, energy, and defense, consider an unprecedented range of influences and factors to avoid the limitations of looking at the subject myopically or with political bias.
