Live Online Chess: Social Features & Downsides Jose Fadul, 2012-10-26 The book features social network analysis of the author's live rated online chess games with various players (including high and middle-strength computer software) from different time zones and cultures around the world. For most of them the social features and downsides of real-time online chess were investigated and documented, including social magnetism, gambling, anonymity and use of pseudonyms, nationalism, Lesbian-Gay-Bisexual-Transgender (LGBT) issues, Islamophobia, and social stratification and mobility. The accompanying game annotations and post-game discussions mainly dwell on responsible participation and civil discourse using live online chess games as medium. Online chess has become a test case for us as an international/trans-national group to think about how we can live in a socially-differentiated society, where its members subscribe to a plurality of forms of knowledge arising from considerably different environments, experiences and genetic makeup.

Emanuel Lasker Isaak Linder, 2010-08-26 The ChessCafe World Chess Champions Series Emanuel Lasker was a great chess fighter, thinker and researcher. He was possessed of gigantic playing strength, retaining the title of World's Number One Chessplayer for 27(!) years. Even after losing his crown, he kept his ability for a long time, as shown by his victories and prize-winning finishes in immensely powerful international tournaments when he was 54 (Moravska-Ostrava 1923), 55 (New York 1924), 56 (Moscow 1925), and even at 66 (Moscow 1935)! One of the chief postulates of the Second World Champion was the battle of honor. On the chessboard, lies and dishonesty have no place. These words of Lasker could serve, even today, as an example to every young chessplayer of how to relate to the Great Game. Emanuel Lasker was the first in history to achieve a universal style. This was a Style of the Future, which is why the Second World Champion would not be understood by many of his contemporaries, who believed that he had no style at all. Lasker's games of chess, like his entire chess legacy, will live forever! Join Russian chess historians Isaak and Vladimir Linder as they take you on a journey exploring the life and games of the great world champion Emanuel Lasker.

Live; live; live Jonathan Buckley, 2021-02-02 A story of remembrance, desire, and the occult by one of Britain's finest contemporary novelists. The lapping of the waves was a lesson in mortality. Sometimes the corrective would work, and his turmoil would recede. The sound secured him, as the contemplation of a skull might make a penitent secure. And sometimes it was more than a corrective: it brought elation . . . Live, it urged, with each whisper of the water. Live; live; live. Leaning forward, Lucas repeated the words with too much fervor, to make sure that the lesson was not lost on me. This was his mission: not to help people to keep hold of the past, but to help them to live. Jonathan Buckley's latest novel, *Live; live; live*, is a subtly suspenseful and slow-burning story about the occult as a source of psychological and existential truth. Lucas Judd is a man with a gift: He hears the dead speaking. Joshua lives next door, just a boy when he first meets his mysterious, kind neighbor. But as he grows up, his instructive friendship with Lucas is gradually altered by desire: Joshua's attraction to, then obsession with Erin, the much younger woman with whom Lucas lives. The nature of her relationship to Lucas is unclear and unclassifiable: Is it erotic, platonic, pedagogical? And is Lucas a sham or a kind of shaman? Is Joshua really a reliable witness? At the heart of this powerful and resonant novel are timely questions about narrative truth and timeless questions about life, death, and belief. There are no certainties in *Live; live; live*, only mutability, permeability, and the beautifully observed cadence of change.

Live from Cairo Ian Bassingthwaite, 2017-07-11 After being denied permission to join her husband in America, an Iraqi refugee is trapped in Cairo during the aftermath of the 2011 revolution and must rely on a foolhardy attorney with feelings for her and a not entirely legal plan to get her out.

Categories We Live By Ásta, 2018-07-05 We are women, we are men. We are refugees, single mothers, people with disabilities, and queers. We belong to social categories and they frame our actions, self-understanding, and opportunities. But what are social categories? How are they created and sustained? How does one come to belong to them? Ásta approaches these questions through analytic feminist metaphysics. Her theory of social categories centers on an answer to the question: what is it for a feature of an individual to be socially meaningful? In a careful, probing investigation, she reveals how social categories are created and sustained and demonstrates their tendency to oppress through examples from current events. To this end, she offers an account of just what social construction is and how it works in a range of examples that problematize the categories of sex, gender, and race in particular. The main idea is that social categories are conferred upon people. Ásta introduces a 'conferralist' framework in order to articulate a theory of social meaning, social construction, and most importantly, of the construction of sex, gender, race, disability, and other social categories.

How Life Imitates Chess Garry Kasparov,2010-08-10 Garry Kasparov was the highest-rated chess player in the world for over twenty years and is widely considered the greatest player that ever lived. In *How Life Imitates Chess* Kasparov distills the lessons he learned over a lifetime as a Grandmaster to offer a primer on successful decision-making: how to evaluate opportunities, anticipate the future, devise winning strategies. He relates in a lively, original way all the fundamentals, from the nuts and bolts of strategy, evaluation, and preparation to the subtler, more human arts of developing a personal style and using memory, intuition, imagination and even fantasy. Kasparov takes us through the great matches of his career, including legendary duels against both man (Grandmaster Anatoly Karpov) and machine (IBM chess supercomputer Deep Blue), enhancing the lessons of his many experiences with examples from politics, literature, sports and military history. With candor, wisdom, and humor, Kasparov recounts his victories and his blunders, both from his years as a world-class competitor as well as his new life as a political leader in Russia. An inspiring book that combines unique strategic insight with personal memoir, *How Life Imitates Chess* is a glimpse inside the mind of one of today’s greatest and most innovative thinkers.

The Silicon Road to Chess Improvement Matthew Sadler,2021-11-13 ‘How can I learn from AlphaZero’s games, aren’t they too advanced for me?’ many club players asked Matthew Sadler after reading his and Natasha Regan’s groundbreaking *Game Changer*. Here is the answer: you may not be able to replicate their dazzling deep calculations, but every chess player, from club level up, can improve their game by using engines. You will probably be surprised, there is so much more your engine can do for you than just checking and calculating variations! In this thought-provoking new book, based on many years of working with the world’s best chess software, Sadler presents a unique set of methods to work out using your engine. He shows how in your opening preparation, instead of sifting through masses of computer analysis you should play matches against your engine. He also explains how to train your early middlegame play, the conversion of advantages, your positional play, and your defence. And of course: how to analyse your own games. These generic training methods Sadler supplements with concrete middlegame and opening tools. He explains how the top engines tackle crucial middlegame themes such as entrenched pieces, whole board play, ‘attacking rhythm’, exchanging pieces, the march of the Rook’s pawn, queen versus pieces, and many others. He also opens your eyes to typical scenarios that the engines found and fine-tuned in popular openings such as the King’s Indian, the Grünfeld, the Slav, the French and the Sicilian. Sadler illustrates his lessons with a collection of fantastic games, explained with his trademark enthusiasm. For the first time the superhuman powers of the chess engine have been decoded to the benefit of all players, in a rich and highly instructive book.

Positional Decision Making in Chess Boris Gelfand,2015 *Positional Decision Making in Chess* offers a rare look into the mind of a top grandmaster. In his efforts to explain his way of thinking, Boris Gelfand focuses on such topics as the squeeze, space advantage, the transformation of pawn structures and the transformation of advantages. Based on examples from his own games and those of his hero, Akiba Rubinstein, Gelfand explains how he thinks during the game.

Dyslexia: I Live with It Randymary de Rosier,2018-07-11 It is really strange to live with the unknown and still know that there is something not right with you. I knew that I was intelligent and came from two families that had no slouches in the brain areas of life. I have strong genes from many generations of doctors, lawyers, inventors, teachers, plumbers, writers, farmers, adventurers, and women who were strong great leaders, and I wondered why I was not living up to the genes that must also be flowing through my veins. It always felt like my life was one step forward and two steps back. I do all right in the arts, but you cannot make it in this life without math and reading. I rarely got a grade higher than an S for satisfactory or a C+. Even with a higher education and the

level of a senior administrator before quitting the business world, the feeling that I should be doing better never left my mind and ego until the day many years later that I learned the answer.
