- 📖 **LOGICAL CHESS** Irving Chernev, 1971-06-15 From Simon & Schuster, Logical Chess: Move By Move: Every Move Explained is Irving Chernev guide to beginners chess and the basic moves for every player to improve. - 📖 **DEFENDING UNDER PRESSURE** Steve Hrop, 2022-01-07 The seconds tick down relentlessly toward zero just as your game approaches the critical stage. Your higher-rated opponent is putting your game under severe pressure, so extreme accuracy is needed to hang tough and avoid falling into a losing position. What do you do now - should you exchange pieces to relieve the pressure, lash out with a sacrifice, probe for weaknesses in the opponent's camp, or maybe just give up and get a lesson on how to bring the point home? The answer is... none of these! At such do-or-die moments, says Steve Hrop, the first thing to do is to sit on your hands and take a few deep breaths. In *Defending Under Pressure and Managing Your Emotions at the Chessboard*, the author uses critical moments from his own tournament games (most of them against players rated above 2200) to describe the difficulties of thinking straight when the enemy is at the gates, and then outlines methods and techniques to clear your head, evaluate the position, and find your way to the best move. Techniques include how to avoid redundant pieces that critically limit your mobility; when visualization is more important than calculation; and freeze-framing positions to eliminate blunders. Save the draw - or turn a looming defeat into an astonishing victory - with the tips in this practical training manual!

Note: This book is the first in a series and is specifically for beginner level chess players.

- 📖 **QUEEN FOR A DAY** Lauren Goodkind, 2020-01-24 This book takes readers through a complete chess game against Sophia, a girl who has just learned how to move the chess pieces. In the book's game, players are asked to choose among a master level move, a good-okay move, and a third that is just plain bad. The readers await Sophia's next move. With this book, readers will learn to make smart moves in their own real-life chess games, too!
