7" Kara Becca Hillburn, 2014 Beneath an old porch. Up in a forgotten attic. In a dusty corner of a basement. Lilliputians are tiny people who occupy the in-between spaces of our world. Sometimes, if you're careful, you can catch a glimpse of one. 7 Kara is a suburban fantasy comic aimed at young girls. Inspired by books such as The Borrowers, The Littles, and Gulliver's Travels, 7 Kara follows the adventures of the 11 year old Lilliputian Kara. Kara lives with her parents in an old doll house that's been hidden away in the back of a neglected shed. Isolated her entire life, she

has few Lilliputian friends her own age, and even less experience with the outside world. Everything she knows has been learned first hand or has been taught to her by her parents. Her life changes drastically when a human family moves into the house her family lives near. Will Kara make a new friend? Or is there something darker, possibly more dangerous in store for her? Kara is an ongoing watercolor children's comic written and illustrated by Becca Hillburn. Collected in this first volume are the first four chapters of the main comic, a bonus story featuring Kara, and a selection of concept art. Full color, 112 pages of content, 71 pages of comic.

*Neverlanders* Tom Taylor, 2022-08-30 Neverland has become a war zone and it's up to a new group of lost teens to set things right in this gritty young adult graphic novel series from #1 New York Times bestselling author Tom Taylor (Nightwing, Superman: Son of Kal-El, DCEased, Injustice) and powerhouse illustrator Jon Sommariva (Harley Quinn)! Bee and her fellow runaways are their own found family. So when a stranger named Paco saves her life, Bee invites him to join their crew, thinking he's another lost teen. Someone else the world has overlooked. The truth is Paco's not just a lost teen, he's a Lost Boy from Neverland. And he needs Bee and the others to come back with him. When the group is then spirited away by a foul-mouthed Tinker Bell, they discover that Neverland is not some fun-filled hideaway. It's a war zone under siege by a horde of pirates with a merciless new leader who will stop at nothing to steal the land's magic. Tink leads a fairy army that barely holds them at bay. Peter Pan is gone. And rest of the Lost Boys have been killed. Paco is all that remains . . . but he

hopes that this group of teens will become the new Lost Ones. These young runaways may be Neverland's only hope—but they're about to learn that it'll take a lot more than happy thoughts to win a war. Award-winning and worldwide bestselling author Tom Taylor (Marvel's Dark Ages, Friendly Neighborhood Spider-Man, Dark Knights of Steel) and artist Jon Sommariva (Marvel Action: Avengers, Batman/Teenage Mutant Ninja Turtles) take readers back to the world of Peter Pan, but this explosive reimagining is not your parents' Neverland.

Avatar: The Last Airbender--Smoke and Shadow Omnibus Gene Luen Yang, 2021-10-05 Created by Bryan Konietzko, Michael Dante DiMartino.

Saturn's Children Charles Stross, 2008-07-01 Sometime in the twenty-third century, humanity went extinct, leaving only androids behind to fulfill humanity's dreams. And, having learned well from their long-dead masters, they've established a hierarchical society—one with humanoid aristo rulers at the top and slave-chipped workers at the bottom, performing the lowly tasks all androids were originally created to do. Designed as a concubine for a species that hasn't existed for two hundred years, femmebot Freya Nakamichi-47—one of the last of her kind still functioning—accepts a job from a stranger to deliver a package from mercury to Mars. Unfortunately, she's just made herself a moving target for some very powerful, very determined humanoids desperate to retrieve the package's contents...

Reclaiming Fair Use Patricia Aufderheide, Peter Jaszi, 2011-07-15 In the increasingly complex and combative arena of copyright in the digital age, record companies sue college students over peer-to-peer music sharing, YouTube removes home movies because of a song playing in the background, and filmmakers are denied a distribution deal when some permissions “i” proves undottable. Patricia Aufderheide and Peter Jaszi chart a clear path through the confusion by urging a robust embrace of a principle long-embedded in copyright law, but too often poorly understood—fair use. By challenging the widely held notion that current copyright law has become unworkable and obsolete in the era of digital technologies, *Reclaiming Fair Use* promises to reshape the debate in both scholarly circles and the creative community. This indispensable guide distills the authors’ years of experience advising documentary filmmakers, English teachers, performing arts scholars, and other creative professionals into no-nonsense advice and practical examples for content producers. *Reclaiming Fair Use* begins by surveying the landscape of contemporary copyright law—and the dampening effect it can have on creativity—before laying out how the fair-use principle can be employed to avoid copyright violation. Finally, Aufderheide and Jaszi summarize their work with artists and professional groups to develop best practice documents for fair use and discuss fair use in an international context. Appendixes address common myths about fair use and provide a template for creating the reader’s own best practices. *Reclaiming Fair Use* will be essential reading for anyone concerned with the law, creativity, and the ever-broadening realm of new media.

*Tidesong* Wendy Xu, 2021-11-16 Perfect for fans of Studio Ghibli and The Tea Dragon Society, this is a magically heartwarming graphic novel about self-acceptance and friendship. Sophie is a young witch whose mother and grandmother pressure

her to attend the Royal Magic Academy—the best magic school in the realm—even though her magic is shaky at best. To train for her entrance exams, Sophie is sent to relatives she’s never met. Cousin Sage and Great-Aunt Lan seem more interested in giving Sophie chores than in teaching her magic. Frustrated, Sophie attempts magic on her own, but the spell goes wrong, and she accidentally entangles her magic with the magic of a young water dragon named Lir. Lir is trapped on land and can’t remember where he came from. Even so, he’s everything Sophie isn’t—beloved by Sophie’s family and skilled at magic. With his help, Sophie might just ace her entrance exams, but that means standing in the way of Lir’s attempts to regain his memories. Sophie knows what she’s doing is wrong, but without Lir’s help, can she prove herself? \* Featured on the Today Show \* An SLJ Best Book of the Year \* A Nerdist Best Comic of the Year \* A Book Riot Best Book of the Year \* A Mighty Girl's Best Book of the Year \* An ALA Best Graphic Novel for Children \*

**Robotech: Remix #3** Brenden Fletcher, 2019-12-11 Dana’s arrival created a splinter timeline where she was never born, where everything feels like her past... but nothing is quite right. She doesn’t belong but has no way to return to her reality - if it even exists anymore. But now an opportunity has arisen in the shape of two mysterious spaceships able to travel the multiple realities of the “Protoverse”. Could this be Dana’s path home? The pilot of one of the vessels appeared to recognize Dana, and later got into a brawl with Miriya. The other pilot, who had seemingly targeted Dana for elimination, crashlanded in the wasteland outside New Macross City... His Battloid and unconscious body were discovered by Jack Baker and Karen Penn - and he seems to be Rick Hunter! Seconds later, a giant hand smashed out from beneath the ground...

**Chibi Maker** Kévin TEMBOURET, 2020-06-28 In Anime and Manga, the Chibi drawing marks a humorous tone in the story. Very often Kawaii, the super distorted character can also take on

the look of a comic book to make a cute situation more epic. With this method for learning how to draw Chibi characters, make your own mascot from any angle, with any pose and with any facial expression. The first part of the book focuses on creating the head, from every possible angle and no matter where the super-deformed character is supposed to be looking. The most important facial expressions are detailed from 3 different angles: from the front, from 3/4 and from the side. Next, draw the body of the Chibi character with the correct proportions from the front, side, 3/4 and back. Predefined character poses allow you to dress and detail your super deformed hero very easily. Once you've created your Chibi character, made his face and body, clothes and accessories, let's move on to the character poses that will be useful to you. 3 angles per pose are proposed to you, whether they are basic or complex character poses: greeting, running, jumping, flying, swimming, eating, drinking, ... Poses even more adapted to your scenario are put forward, as much to express emotions as for epic situations worthy of superheroes: getting angry, doing magic, using a weapon (long sword, short sword, Katar, fighting stick, ...) or a shield, ... With the book CHIBI MAKER, bring your super deformed character to life and give him the personality he deserves to have!

*Book of Hidden Paths* Douglas Sun, 2022-03-30 I talk about this in the Introduction to *Book of Hidden Paths*, but random encounters in roleplaying games have always fascinated me. I started with *Dungeons & Dragons* shortly after AD&D became a thing, and the big appendix of random encounters in the AD&D DMG still blows my mind. The fact that encounters could come at you out of nowhere meant that almost anything was possible even if the DM hadn't thought of it, and that appendix demonstrated in graphic form the richness and variety of all the living (and undead) things in the game. All those tables, so many tables.... And yet, I felt - and still feel - that more guidance on how to make random encounters work would be helpful. You get 10 main chapters, each devoted to a particular type of wilderness terrain: Caverns, Desert, Forest, Grasslands, Hills, Littoral, Mountains, Ocean, Tundra and Wetlands. After a brief discussion of that terrain type, each chapter launches into a series of tables and sub-tables outlining possible plausible encounters. They cover most of the creatures included in the *Pathfinder Reference Document*, from familiar wild animals to exotic monsters like kraken and purple worms, plus humanoids, various vocations/professions, and physical hazards that you can use for petty harassment (just to remind your players that adventuring isn't all fun and glory). In turn, each table entry discusses how that creature reacts - topics range from how to acquire a pet rat to what that ancient red dragon is thinking as it looks down at your party - how many of them are present (scaled to your party's average level), and what treasure might be gained from defeating it. *Book of Hidden Paths* gives DMs a deep dive into an under-explored aspect of RPGs. Even experienced DMs will find food for thought and fresh ideas about how to make a party food for monsters.
