Integral Investing Mariana Bozesan,2020-10-09 Today, early-stage investors and entrepreneurs find themselves in a dilemma in which they must choose between profit and impact; between traditional, for-profit-only models on the one hand, and multiple-bottom-line structures with a positive social or environmental impact on the other. At a time in which climate change, exponentially growing technologies, social polarization, and looming pandemics are calling into question humanity's priorities, this Report to the Club of Rome and the World Academy of Art and Science dissolves this dilemma by proposing a new investment paradigm, namely Integral Investing. Integral Investing incorporates and transcends the best practices of both traditional venture capital and impact investing. It provides a seamless integration and shows how technological progress need not be our rival, but can instead be our ally in ensuring the prosperous society we all want. Drawing on her own investments and stellar track record since 1995, the author reveals the mechanism of Integral Investing. At the heart of it is a powerful, 360-degree de-risking tool called the Theta Model, which reveals how to make smart investment decisions based on the comprehensive integration of traditional due-diligence criteria, sustainability metrics, and assessments of the founders' and team culture. But it doesn't stop there. In turn, this handbook demonstrates how to use human-centered AI to scale and digitalize the investment process. The goal here is to accelerate the use of exponential tech, capital, and consciousness leadership to transition to a sustainable global society: a process the author refers to as the Investment Turnaround. The 21 principles of Integral Investing, which she defines using Ken Wilber's Integral Theory, lead to her manifesto on how to implement the UN Sustainable Development Goals within Planetary Boundaries by 2050 through early-stage investing and entrepreneurship. Similar to the 15th century, when

the Medicis inspired the Renaissance, today humanity is once again at a crucial turning point where pioneering public and private financiers, investors, entrepreneurs, and other committed individuals have the opportunity to leave behind the legacy of a prosperous society. This handbook provides a source of inspiration, and shows how self-actualization, a positive mindset, and a consciousness that is backed by a world-centric desire can become the driving force for solving the global grand challenges.

The Unholy Books of Tristan Wrangler Don Both,2017-12-24 Mia Angel, 18 years old, chubby, avid eyeglasses wearer, from a poor background, nickname Turkey, is the personification of an unpopular teenager. As if this was not enough, ever since first grade she has been head-over-heels in love with the absolute chauvinist, womanizing, Tristan 'Sexy' Wrangler - naturally, without any reciprocation from the arrogant god. One morning, thanks to an alcohol-induced faux pas, he finds himself waking up in bed with Turkey in his arms. This is absolutely devastating to his esteemed reputation. Always on Fucking Saturdays: However, he notices that although Mia doesn't conform to the perfect supermodel image, which is his usual type, she has other qualities and even the power to, quite unintentionally, rob him of his hormone-charged mind...

The Routledge Handbook of Mobilities Peter Adey,David Bissell,Kevin Hannam,Peter Merriman,Mimi Sheller,2014-01-10 The 21st century seems to be on the move, perhaps even more so than the last. With cheap travel, and more than two billion cars projected worldwide for 2030. And yet, all this mobility is happening incredibly unevenly, at different paces and intensities, with varying impacts and consequences to the extent that life on the move might be actually quite difficult to sustain environmentally, socially and ethically. As a result

'mobility' has become a keyword of the social sciences; delineating a new domain of concepts, approaches, methodologies and techniques which seek to understand the character and quality of these trends. This Handbook explores and critically evaluates the debates, approaches, controversies and methodologies, inherent to this rapidly expanding discipline. It brings together leading specialists from range of backgrounds and geographical regions to provide an authoritative and comprehensive overview of this field, conveying cutting edge research in an accessible way whilst giving detailed grounding in the evolution of past debates on mobilities. It illustrates disciplinary trends and pathways, from migration studies and transport history to communications research, featuring methodological innovations and developments and conceptual histories - from feminist theory to tourist studies. It explores the dominant figures of mobility, from children to soldiers and the mobility impaired; the disparate materialities of mobility such as flows of water and waste to the vectors of viruses; key infrastructures such as logistics systems to the informal services of megacity slums, and the important mobility events around which our world turns; from going on vacation to the commute, to the catastrophic disruption of mobility systems. The text is forward-thinking, projecting the future of mobilities as they might be lived, transformed and studied, and possibly, brought to an end. International in focus, the book transcends disciplinary and national boundaries to explore mobilities as they are understood from different perspectives, different fields, countries and standpoints. This is an invaluable resource for all those with an interest in mobility across disciplinary boundaries and areas of study.

The Raqqa Diaries Samer,2017-03-09 'Everyone should spend a couple of hours of their life reading it, to remind themselves that, even in the darkest depth of human misery, the bravest souls still exist.' Sunday Times Since ISIS occupied Raqqa in eastern Syria, it has become one of the most isolated and fear-ridden cities on earth. The sale of televisions has been banned, wearing trousers the wrong length is a punishable offence, and using a mobile phone is considered an unforgivable crime. No journalists are allowed in and the penalty for speaking to the western media is death by beheading. Despite this, after several months of nervy and often interrupted conversations, the BBC was able to make contact with a small activist group, Al-Sharqiya 24. Finally, courageously, one of their members agreed to write a personal diary about his experiences. Having seen friends and relatives butchered, his community's life shattered and the local economy ruined by these hate-fuelled extremists, Samer is fighting back in the only way he can: by telling the world what is happening to his beloved city. This is Samer's story. 'Remarkable . . . rare, intimate . . . Samer is an understated hero of our time.' Anthony Loyd, The Times 'A clarion call to all of us that we should not give up. Somewhere there is a voice in the wreckage.'

Michael Palin 'This is brutal non-fiction, plainly and urgently told.' Robin Yassin-Kassab, Guardian 'The simple act of bearing witness is one of the most powerful human responses available . . . The Raqqa Diaries is so important.' Evening Standard

Mallorca Alan James, Mark Glaister, Daimon Beail, 2011 The wonderful rock and mountains of Mallorca are now well known to most climbers and the island has established itself as a favourite winter-sun destination. There is an incredible variety of climbing available, from the huge walls of Sa Gubia to the 30m pumping-tufas of Fraguel.
