936 Pennies Eryn Lynum,2018-02-06 Make the Most of Your Time with Your Children On the day of their baby dedication, Eryn and her husband were given a jar of 936 pennies. The jar contained a penny for every week they would raise their child until graduation, and they were instructed to remove one penny each Sunday as a reminder, placing it into another jar as an investment. At some point every parent realizes time is moving swiftly, and they ask themselves, How am I investing in my child? Through personal stories and biblical examples, 936 Pennies will help you discover how to capture time and use it to its fullest potential, replacing guilt and regrets with freedom. Meanwhile, your kids will see how simple choices, like putting the cell phone down and going on a family hike, will make all the difference. Together you will stretch time and make it richer. Craft a family legacy in tune with God's heartbeat as you capture a new vision for your children and learn the best ways to spend your pennies.

Supporting Positive Behavior in Children and Teens with Down Syndrome David S. Stein,2016 Behavior issues in children with Down syndrome can quickly become engrained, which means short-term problems often develop into bad habits that are difficult to change. This new book by pediatric psychologist Dr. David Stein looks at how the brain of a person with Down syndrome works, why those differences impact behavior, and how to address these problems using his positive behavior approach designed specifically for children and teens with Down syndrome. Make Time Jake Knapp,John Zeratsky,2018-09-25 From the New York Times bestselling authors of Sprint comes "a unique and engaging read about a proven habit framework [that] readers can apply to each day" (Insider, Best Books to Form New Habits). "If you want to achieve more (without going nuts), read this book."—Charles Duhigg, author of The Power of Habit Nobody ever looked at an empty calendar and said, The best way to spend this time is by cramming it full of meetings! or got to work in the morning and thought, Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned design sprint, Jake and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. Make Time is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. Make Time isn't about productivity, or checking off more to-dos. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, If only there were more hours in the

day..., Make Time will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.

Drawdown Paul Hawken, 2017-04-18 • New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, *What We Think About When We Try Not To Think About Global Warming* “There’s been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom.” —David Roberts, *Vox* “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth’s warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

Maddi's Fridge Lois Brandt, Vin Vogel, 2014-11-01 Winner of: 2014 Christopher Award, Books for Young People 2014 ILA Primary Fiction Award 2015 MLA Mitten Award Honor Human Rights in Children's Literature Honor With humor and warmth, this children's picture book raises awareness about poverty and hunger Best friends Sofia and Maddi live in the same neighborhood, go to the same school, and play in the same park, but while Sofia's fridge at home is full of nutritious food, the fridge at Maddi's house is empty. Sofia learns that Maddi's family doesn't have enough money to fill their fridge and promises Maddi she'll keep this discovery a secret. But because Sofia wants to help her friend, she's faced with a difficult decision: to keep her promise or tell her parents about Maddi's empty fridge. Filled with colorful artwork, this storybook addresses issues of poverty with honesty and sensitivity while instilling important lessons in friendship, empathy, trust, and helping others. A call to action section, with six effective ways for children to help fight hunger and information on antihunger groups, is also included.

The Story of God's Love for You Sally Lloyd-Jones, 2015-10-06 It’s an adventure story about a young Hero who comes from a far country to win back his lost treasure. It’s a love story about a brave Prince who leaves his palace, his throne—everything—to rescue the one he loves. The best thing about this Story is—it’s true! And at the center of the Story, there is a baby. The Child upon whom everything would depend. All the stars, mountains, oceans, and galaxies were nothing compared to how much God loved his children. He would move heaven and earth to be near them. Always. Whatever happened, whatever it cost him, he would always love them. And so it was that the wonderful love story began. The Story of God’s Love for You: Is for teenagers and adults who want to read and learn about the story of God’s love for them Includes 44 short chapters that lead you through the beautiful story of the Bible—Genesis to Revelation Masterfully shows how all the individual Bible stories fit together into one cohesive narrative that points to Jesus Makes the big picture of Scripture clear to new believers, and helps seasoned believers fall in love with the Bible all over again Features text from bestselling author Sally Lloyd-Jones that brings the truths of the Bible into a new light for today’s world The beauty and peace that only God’s love can provide pulses through every page. Just as The Jesus Storybook Bible is an essential book for the library of every child, The Story of God’s Love for You is an essential book for the library of every adolescent and adult.

Countdown Suzanne Slade, 2018-09-04 The captivating true story of NASA's effort to land the first man on the Moon is told through powerful free verse and stunning illustrations. An inspiring testament to American grit, teamwork, and ingenuity, Countdown presents exhilarating, informative, and accessible free verse by award-winning author Suzanne Slade paired with historic photographs and detailed illustrations by New York Times best-selling illustrator Thomas Gonzalez. Together, they capture the gripping historic story of NASA's twentieth century efforts to conquer a new space frontier. Through triumph and tragedy, success and failure, an entire nation is glued to the high-stakes, 2,979-day mission as eighteen astronauts climb into spacecraft; three men die before even leaving the ground; eight rockets soar into space; and four hundred thousand people—engineers, technicians, scientists, mathematicians, and machinists—join Project Apollo in pursuit of making a dream a reality.

The 2030 Spike Colin Mason, 2013-06-17 The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. Depleted fuel supplies, massive population growth, poverty, global climate change, famine, growing water shortages and international lawlessness are on a crash course with potentially catastrophic consequences. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, The 2030 Spike serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have the opportunity to thrive and build a better civilization. This book is powerful and essential reading for all people concerned with the future of humanity and planet earth.

ZERO Valerie Hillings, 2014 ZERO: Countdown to Tomorrow, 1950s-60s, is the first large-scale historical survey in the United States dedicated to the German artist group Zero (1957-66). Founded by Heinz Mack and Otto Piene, joined by Günther Uecker in 1961, the group expanded to include ZERO, an international network of like-minded artists who shared the group's aspiration to redefine art in the aftermath of World War II. Featuring more than thirty artists from nine countries, the catalogue explores the experimental practices developed by this extensive network of artists whose work anticipated aspects of Land art, Minimalism, and Conceptual art. The publication is organized around points of intersection, exchange, and collaboration that defined these artists' shared history. Among the themes explored are the establishment of new definitions of painting; the introduction of movement and light as both formal and idea-based aspects of art; the use of space as subject and material; the interrogation of the relationship between nature, technology, and humankind; and the production of live actions or demonstrations. At once a snapshot of a specific group and a portrait of a generation, this title celebrates the pioneering nature of both the art and the transnational vision advanced by the ZERO network.

Ten on a Twig Lo Cole, 2021 Count down from ten like never before with this uniquely beautiful interactive board book for fans of Eric Carle books! Perfect for toddlers, preschoolers, and early readers who are learning numbers and learning how to count, or for anyone who wants a great bedtime book. Ten on a twig, just passing time... One falls off, and then there are nine. Watch the birds fall as the pages turn in this interactive picture book from the publisher of the Don't Push the Button series! In this charming, deceptively simple counting book, ten birds sit on a twig. As each falls off, they take a piece of the twig with them, and in the end, they have a new

home--just in time to say goodnight. This delightful, fun read is great for bedtime or playtime. The cleverly die-cut pages are great for anyone who loves the format of A Very Hungry Caterpillar and will delight young readers. Counting down introduces the concept of subtraction in a natural way, and the varying lengths of the pages means the birds disappear off the twig as you turn the page. Children learning how to count will be mesmerized by the actions that happen with the page turns. It encourages repetition and rereads, and is sure to help many kids remember their numbers as they laugh along the way. Parents who want Montessori toys for toddlers will appreciate this tactile and repetitive approach to learning numbers, paired with simple, bold and cute art that looks great in any home. And the strong pages, perfect for grabby little hands, makes this a great next step up from board books for babies. In much the same way Eric Carle utilizes the pages in The Very Hungry Caterpillar to show the little critter eating its way through the week, Cole uses pages of increasing width to show how the twig grows shorter as each bird falls and marches off purposefully with the others. Stylistically, the book is captivating. Sure to delight readers. Who knew that turning the pages could be the best part of a book?--Kirkus Reviews Perfect for anyone who wants: Homeschool material for preschoolers working on their numbers or who need math picture books Unique and sweet bedtime books for toddlers Stylish baby shower gifts and gifts for kids birthdays Animal books for kids or children's bird books Montessori materials for preschool
