Parenting Matters National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Supporting the Parents of Young Children, 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

*School, Family, and Community Partnerships* Joyce L. Epstein, Mavis G. Sanders, Steven B. Sheldon, Beth S. Simon, Karen Clark Salinas, Natalie Rodriguez Jansorn, Frances L. Van Voorhis, Cecelia S. Martin, Brenda G. Thomas, Marsha D. Greenfeld, Darcy J. Hutchins, Kenyatta J. Williams, 2018-07-19 Strengthen programs of family and community engagement to promote equity and increase student success! When schools, families, and communities collaborate and share responsibility for students' education, more students succeed in school. Based on 30 years of research and fieldwork, the fourth edition of the bestseller *School, Family, and Community Partnerships: Your Handbook for Action*, presents tools and guidelines to help develop more effective and more equitable programs of family and community engagement. Written by a team of well-known experts, it provides a theory and framework of six types of involvement for action; up-to-date research on school, family, and community collaboration; and new materials for professional development and on-going technical assistance. Readers also will find: Examples of best practices on the six types of involvement from preschools, and elementary, middle, and high schools Checklists, templates, and evaluations to plan goal-linked partnership programs and assess progress CD-ROM with slides and notes for two presentations: A new awareness session to orient colleagues on the major components of a research-based partnership program, and a full One-Day Team Training Workshop to prepare school teams to develop their partnership programs. As a foundational text, this handbook demonstrates a proven approach to implement and sustain inclusive, goal-linked programs of partnership. It shows how a good partnership program is an essential component of good school organization and school improvement for student success. This book will help every district and all schools strengthen and continually improve their programs of family and community engagement.

**Arthrogryposis** Lynn T. Staheli,1998-04-28 The term arthrogryposis describes a range of congenital contractures that lead to childhood deformities. It encompasses a number of syndromes and sporadic deformities that are rare individually but collectively are not uncommon. Yet, the existing medical literature on arthrogryposis is sparse and often confusing. The aim of this book is to provide individuals affected with arthrogryposis, their families, and health care professionals with a helpful guide to better understand the condition and its therapy. With this goal in mind, the editors have taken great care to ensure that the presentation of complex clinical information is at once scientifically accurate, patient oriented, and accessible to readers without a medical background. The book is authored primarily by members of the medical staff of the Arthrogryposis Clinic at Children's Hospital and Medical Center in Seattle, Washington, one of the leading teams in the management of the condition, and will be an invaluable resource for both health care professionals and families of affected individuals.

*Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* National Research Council,Institute of Medicine,Committee on Law and Justice,Board on Children, Youth, and Families,Committee on the Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States,2013-11-12 Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

*Guide to the National Quality Standard* Australian Children's Education and Care Quality Authority,2011 In December, 2009, all Australian governments, through the Council of Australian Governments (COAG), agreed to a partnership to establish a National Quality Framework for Early Childhood Education and Care ('National Quality Framework') for most long day care, preschool/kindergarten, family day care and outside school hours care services in Australia. ... The National Quality Framework aims to raise quality and drive continuous improvement and consistency in education and care services and school age care.--P. 3.

**Treatment of Disorders in Childhood and Adolescence, Fourth Edition** Mitchell J. Prinstein, Eric A. Youngstrom, Eric J. Mash, Russell A. Barkley, 2021-05-19 Now completely revised (over 90% new), this definitive practitioner reference and course text comprehensively reviews evidence-based treatments for psychological disorders in children and adolescents. The significantly expanded fourth edition covers an increased number of disorders, as well as transdiagnostic issues and public health concerns. Psychosocial, pharmacological, and complementary therapies are identified and described in well-organized chapters that include rich clinical illustrations. Prominent experts address developmental considerations in treatment and offer guidance for tailoring interventions to each child and family's needs. Prior edition title: *Treatment of Childhood Disorders*, Third Edition, edited by Eric J. Mash and Russell A. Barkley. New to This Edition \*All chapters are new, reflecting over a decade of clinical and empirical developments. \*Chapters on additional clinical issues: bipolar disorder, suicidal and nonsuicidal self-injury, obsessive-compulsive disorder, infant and toddler problems, posttraumatic stress disorder, coping and emotion regulation, bereavement, early-onset schizophrenia, personality disorders, childhood obesity, and sleep problems. \*Chapters on case conceptualization and evidence-based therapist flexibility. \*Illustrative case examples and transcripts added throughout. \*Updated for DSM-5; every chapter also considers transdiagnostic and dimensional issues. See also the editors' *Assessment of Disorders in Childhood and Adolescence*, Fifth Edition.

*Technologies of Suspicion and the Ethics of Obligation in Political Asylum* Bridget M. Haas, Amy Shuman, 2019-03-11 Across the globe, migration has been met with intensifying modes of criminalization and securitization, and claims for political asylum are increasingly met with suspicion. Asylum seekers have become the focus of global debates surrounding humanitarian obligations, on the one hand, and concerns surrounding national security and border control, on the other. In *Technologies of Suspicion and the Ethics of Obligation in Political Asylum*, contributors provide fine-tuned analyses of political asylum systems and the adjudication of asylum claims across a range of sociocultural and geopolitical contexts. The contributors to this timely volume, drawing on a variety of theoretical perspectives, offer critical insights into the processes by which tensions between humanitarianism and security are negotiated at the local level, often with negative consequences for asylum seekers. By investigating how a politics of suspicion within asylum systems is enacted in everyday practices and interactions, the authors illustrate how asylum seekers are often produced as suspicious subjects by the very systems to which they appeal for protection. Contributors: Ilil Benjamin, Carol Bohmer, Nadia El-Shaarawi, Bridget M. Haas, John Beard Haviland, Marco Jacquemet, Benjamin N. Lawrance, Rachel Lewis, Sara McKinnon, Amy Shuman, Charles Watters

*Parent-Child Separation* Jennifer E. Glick, Valarie King, Susan M. McHale, 2021-11-26 This book examines the similarities in children's short- and long-term development and adjustment when they have been separated from their parents because of larger institutional forces. It addresses the unique circumstances and the similarities faced by parents and children under three different institutional contexts of separation: parental migration and deportation, parental incarceration, and parental military deployment. Chapters describe the difficulties faced by families in each of these circumstances, along with the challenges in conducting research under the multidimensional and dynamic complexities of parent-child separation. Finally, the volume offers recommendations for creating supportive structures and interventions for families facing separation that can bolster youth well-being in childhood and beyond. Featured areas of coverage include: · Parental migration. · Parental incarceration. · Parental military deployment. · Undocumented migration and deportation. · Child-parent relationship and child resilience and adjustment. *Parent-Child Separation* is a must-have resource for researchers, professors, clinicians, professionals, and graduate students in developmental psychology, family studies, public health,

clinical social work, educational policy, and migration studies as well as all interrelated disciplines, including sociology, criminology, demography, prevention science, political science, and economics.

**Understanding Child Abuse and Neglect** Cynthia Crosson-Tower, 1989 Every ten seconds a child is being abused or neglected. But while child abuse and neglect are not new, the problem has become monumental in today's society. But why? Perhaps we live in a more violent society, or maybe the child protection system is not working. This book explores the issues surrounding abuse and neglect from several vantage points, addressing both the problems and the possible solutions that are crucial to the proper protection of our children. This book provides a comprehensive overview of child abuse and neglect. It covers recognition, case management, and treatment for abused and neglected children, adding real-life vignettes to bring the statistics to life. It details the history of child welfare, an overview of families that are both functional and dysfunctional, and contrasts healthy child development with development hampered by abuse and neglect. Every type of maltreatment is discussed, from neglect and physical abuse to emotional abuse, sexual abuse, and domestic violence. The book concludes by providing a discussion of prevention, along with a consideration of the future. Social workers, psychologists, social services professionals, and educators.

**Social Policy for Children and Families** Jeffrey M. Jenson, Mark W. Fraser, 2015-02-05 The Third Edition of Jeffrey M. Jenson and Mark W. Fraser's award-winning text, *Social Policy for Children and Families*, offers new evidence that a public health framework based on ecological theory and principles of risk, protection, and resilience is essential for the successful design and implementation of social policy. Written in a conversational, reader-friendly style and incorporating cutting-edge research, this carefully crafted book maps a pathway for developing resilience-based social policies. In every chapter, experts in their respective fields apply the editors' conceptual model across the substantive domains of child and family poverty, child welfare, education, mental health, health, developmental disabilities, substance use, and juvenile justice. Recipient of the Best Edited Book Award from the Society for Research on Adolescence in 2008, the book is an ideal core text for graduate and upper level undergraduate courses and a vital resource for elected officials, policy makers, and others interested in the evolution of policies aimed at preventing problem behaviors and supporting children and families.
