The Indigo Children 10 Years Later Lee Carroll, Jan Tober, 2009-02-26 Bright, intelligent, strong willed and active, the indigo children were seen as part of a spiritual revolution, the children of a new age of psychic growth and understanding. Ten years later the indigo children are now the indigo teenagers, finishing school and starting jobs, and facing an entirely new challenge: how to adapt to adult life. Their reactions to this have been strong, and sometimes surprising; the indigo children are fearless and free, and while some have shone, some are having trouble. This book explains what might be happening to the Indigos, why they do what they do, and how to help them through the difficult teenage years - even harder when you're an Indigo!

Why Children Misbehave Bruce Narramore, 1984

It's Not Your Fault MS Ed/Cas Lindsay K Krebs, 2020-07-17 Sadly, the trauma of childhood sexual abuse is more widespread than we realize. If a child has been sexually abused and does not receive the proper support to help them cope with this trauma, they are much more likely to develop a wide variety of behavioral and social difficulties as they grow into adolescence and adulthood. I have written this book for parents & caregivers of children ages 5 to 10, to read with their children who have been sexually abused or are suspected of having been sexually abused. This is not a book that you should give to your child to read on their own. The main character of the book, a girl named Jordan, tells her own personal story of sexual abuse and bravery in a very child-friendly manner that children can relate to. The goal of this book is to help child victims of sexual abuse to realize that it is NOT their fault, to empower them to talk about the trauma that they have endured, as well as to help them begin to heal. My sincere hope is that Jordan's story can help to ease the pain that your child and your family feel, following such a tragic violation of trust, as well as to connect you to an invaluable resource called, Bikers Against Child Abuse, (B.A.C.A.). B.A.C.A. members work with children who have been abused sexually, emotionally, or physically. More information about this amazing organization is provided within this book, as well as at the end, with the expressed permission of B.A.C.A. Also included at the end of the book are some tips and guidelines for parents and caregivers to utilize and be aware of while reading this book with their children. I wish you and your family the best as you navigate through this trauma with your child and I am hopeful that this book can be a valuable resource for you.

Your Six-Year-Old Louise Bates Ames, Frances L. Ilg, 1981-04-15 The six-year-old is a complex child, entirely different from the five-year-old. Though many of the changes are for the good -- Six is growing more mature, more independent, more daring and adventurous -- this is not necessarily an easy time for the little girl or boy. Relationships with mothers are troubled -- most of the time Six adores mother, but whenever things go wrong, it's her fault. It used to be, at Five, that she was the center of the child's universe; now, the child is the center of his own universe. Parents need the expert advice of Drs. Ames and Ilg during this difficult year, to explain parent-child relations, friendships with peers, what six-year-olds excel at, how they see the world, what it feels like to be entering the first grade. Children need patience and understanding to help make this transition easier.

Overcoming Sexual Terrorism Jake Goldenflame, 2006 WHY CASTRATION WON'T WORK Many times, you will hear people say, Why don't we just castrate all the sex offenders? That will do the job. But, in fact, it won't, for some very simple reasons. First, long-term studies have already shown that, in spite of all the media hype, most convicted sex offenders (up to 75% of them) do not re-offend. (Hanson, 1999). To castrate them is a waste of time. Secondly, most children are not molested by them. Most children are molested by someone they know and trust: like a friendly neighbor, down the street, or a school teacher, volunteer in some youth group or at the church. Often, unfortunately, by a relative in the family, be that an older brother, cousin, an in-law or step-parent. Because none of them have been caught, we don't call them sex offenders and, as a result, 'castrating all the sex offenders' won't get them. They will still be left just as free as before. There is a better answer. Records now show that when convicted sex offenders are given exactly the kind of treatment and counseling in that is described in this book, re-offense rates are cut by 60%. (Alexander 1999). It is not terribly complicated. It isn't just a lot of theories. It is just simple, blunt honesty: making men face the reality of what they are doing, and how it is also wrecking their own lives, then training them in the steps it takes to stop doing so. That is what does it, right there. Here is the book that tells it all. In ten chapters, I relate how it happened that I became a child molester and got over it. That was almost 20 years ago now and I remain re-offense free, with no further convictions or arrests. The lessons from it that you can use to protect your children are given at the end of each chapter. If you follow them, your child will be safer than ever before. Steps that sex offenders can take to earn their way back into the community and a prescription for the healing of America conclude the work. The readers' resources section includes a listing of further books, journals, websites, referral agencies and self-recovery organizations that may also be of use to those who want more information. Fully indexed, the book will be a useful guide in all future child sex abuse trials. If you have any questions, write me at: jake.goldenflame@gmail.com

The Seventh Child Janet Maragiolio, 2019-03-15 Today as always, we face diversity and challenges. In this book, "The Seventh Child - Art E. Choke," Arti was different from his human family. He never had their approval and never gave up. I hope my audience who may face challenges will never give up. Arti in the face of diversity, without the approval of his family was able to become King, a dream of a lifetime. To every reader (human or otherwise), be positive and follow your dreams.

TELL TELL TELL HOW TO PROTECT YOUR CHILDREN FROM A PEDOPHILE Donna Livingston, 2012-12-18 I wrote this book to protect all children from being molested like I was. I have 3 children and 8 grandchildren and I did not want them to ever have to go through what I did. My book will help parents explain to their children to tell, tell, tell if anyone touches their private parts. It's a way to open a discussion with children. We need to protect all the children from pedophiles. Use this storybook to help teach the children. Knowledge is power for children.

Stolen Children Peg Kehret, 2008 A suspenseful thriller about a young babysitter who uses her wits and a big dose of courage as she attempts to save herself and the toddler in her care from kidnappers.

Boxcar Children Shannon Eric Denton, 2010-09 Henry, Jessie, Violet, and Benny Alden are brothers and sisters-and they're orphans. The only way they can stay together is to make it on their own. This is just the beginning of their graphic novel adventure as The Boxcar Children!

Ten Owies Tony Johnston, 2022-06-14 A hilarious story about ten silly children who accidentally end up with ten silly owies. This big-hearted, positive-minded picture book is an irreverent ode to the most universal of all childhood experiences--the boo-boo--and a perfect book to share with anyone recovering from a scraped knee or stubbed toe. Ouch, that hurt! From ice-cream induced brain freezes to bee stings to stubbed toes and bruises, ten children get ten owies that can only be cured by the following: a kiss, a hug, lots of love, and as many colorful Band-Aids as possible. Full of rhythm, repetition, playful language, silliness, and love, Ten Owies introduces young readers to numbers from one to ten, as well as the notion that everyone gets a boo-boo every now and then. Tony Johnston's silly text, combined with Annabel Tempest's lively illustrations, captures all the drama of childhood while also offering plenty of humor, sympathy, and healing. The perfect book to share with a child needing a little tender love and care!

Running Out of Tears Esther Rantzen, 2011-10-20 In October 1986 ChildLine - the first national helpline for children in the world - was launched. With it came a revolution in child protection. For the first time abused children had someone they could ask for help. The launch of ChildLine was broadcast on BBC TV on October 30th. Watching in her quiet, respectable home in a small rural town was Jo, a clever, troubled fourteen year old. Suddenly Jo, the silent victim of sexual abuse by her parents' closest friend, no longer felt utterly alone. For the first time, she was being offered help, there on the screen. She was one of 50,000 children who tried to ring that night. In the end she got through to a counsellor and her life changed forever. In Running Out of Tears Esther Rantzen, founder of ChildLine, tells Jo's story, together with those of many other survivors. Each of these tales is testament to the achievement of ChildLine in teaching the nation how to listen to children who are suffering abuse and giving a voice to the most vulnerable group in society. The book also details landmark events in the last 25 years of ChildLine's existence: The crucial involvement of Princess Diana; The support from then Prime Minister Margaret Thatcher; The investigation into a school owned and run by a paedophile that would lead to a change in the law; The 250 other children's help lines set up around the world with ChildLine's help. Although these personal stories are disturbing they each have an uplifting, inspiring message. Hope and help is within a child's reach - only a phone call away.

The Angry Little Girl Naomi Andrews, 2012-08 The Angry Little Girl is a book written to validate the loss, anger and lack of control children in foster care can feel. It discusses how unsafe she felt moving from one foster home to another and it gives in-sight to how even a safe environment can feel scary when you are little. It also validates feelings of loss and rejection that arose from each move. It is the job of the adults to make good decisions and keep them safe.
