*Love Stories in China* Wanning Sun,Ling Yang,2019-07-31 This book explores how political, economic, social, cultural and technological forces are (re)shaping the meanings of love and intimacy in China's public culture. It focuses on a range of cultural and media forms including literature, film, television, music and new media, examines new cultural practices such as online activism, virtual intimacy and relationship counselling, and discusses how far love and romance have come to assume new shapes and forms in the twenty-first century. *Love Stories in China* offers deep insights into how the huge transformation of China over the last four decades has impacted the micro lives of ordinary Chinese people.

Chinese Masculinities in a Globalizing World Kam Louie,2014-11-20 This book explores how the traditional ideal of Chinese manhood – the wen (cultural attainment) and wu (martial prowess) dyad – has been transformed by the increasing integration of China in the international scene. It discusses how increased travel and contact between China and the West are having a profound impact; showing how increased interchange with Western men, for whom wu is a more significant ideal, has shifted the balance in the classic Chinese dichotomy; and how the huge emphasis on wealth creation in contemporary China has changed the notion of wen itself to include business management skills and monetary power. The book also considers the implications of Chinese soft power outside China for the reconfigurations in masculinity ideals in the global setting. The rising significance of Chinese culture enables Chinese cultural norms, including ideals of manhood, to be increasingly integrated in the international sphere and to become hybridised. The book also examines the impact of the Japanese and Korean waves on popular conceptions of desirable manhood in China. Overall, it demonstrates that social constructions of Chinese masculinity have changed more fundamentally and become more global in the last three decades than any other time in the last three thousand years.

**Women Writers in Postsocialist China** Kay Schaffer,Xianlin Song,2013-07-31 What does it mean to read from elsewhere? *Women Writers in Postsocialist China* introduces readers to a range and variety of contemporary Chinese women's writing, which has seen phenomenal growth in recent years. The book addresses the different ways women's issues are understood in China and the West, attending to the processes of translation, adaptation, and the grafting of new ideas with existing Chinese understandings of gender, feminism, subjectivity, consumerism and (post) modernism. By focusing on women's autobiographical, biographical, fictional and historical writing, the book engages in a transcultural flow of ideas between western and indigenous Chinese feminisms. Taking account of the accretions of social, cultural, geographic, literary, economic, and political movements and trends, cultural formations and ways of thinking, it asks how the texts and the concepts they negotiate might be understood in the social and cultural spaces within China and how they might be interpreted differently elsewhere in the global locations in which they circulate. The book argues that women-centred writing in China has a direct bearing on global feminist theory and practice. This critical study of selected genres and writers highlights the shifts in feminist perspectives within contemporary local and global cultural landscapes.

**Chinese Male Homosexualities** Travis Kong,2010-07-13 This book presents a groundbreaking exploration of masculinities and homosexualities amongst Chinese gay men. It provides a sociological account of masculinity, desire, sexuality, identity and citizenship in contemporary Chinese societies, and within the constellation of global culture. Kong reports the results of an extensive ethnographic study of contemporary

Chinese gay men in a wide range of different locations including mainland China, Hong Kong and the Chinese overseas community in London, showing how Chinese gay men live their everyday lives. Relating Chinese male homosexuality to the extensive social and cultural theories on gender, sexuality and the body, postcolonialism and globalisation, the book examines the idea of queer space and numerous 'queer flows' – of capital, bodies, ideas, images, and commodities – around the world. The book concludes that different gay male identities – such as the conspicuously consuming memba in Hong Kong, the urban tongzhi, the 'money boy' in China and the feminised 'golden boy' in London – emerge in different locations, and are all caught up in the transnational flow of queer cultures which are at once local and global.

**Chinese Traditional Theatre and Male Dan** Guo Chao, 2022-01-31 This book examines male dan, a male actor who performs female roles in Chinese theatre. Through the rise, fall and tenuous survival of male dan in Chinese history, Guo Chao reflects the transformations in the social zeitgeist in China, especially the politics of gender and sexuality. The breadth of this study reflects a diversified set of sources, ranging from classical to contemporary texts (texts of jingju plays, memoirs, collections of notation books) and other commentaries and critical evaluations of dan actors (in both English and Chinese languages) to video and audio materials, films and personal interviews. This book will be of great interest to students and scholars of East Asian/Chinese studies across the fields of theatre, history, culture and literature.

**Gender, China and the World Trade Organization** Günseli Berik, Xiao-yuan Dong, Gale Summerfield, 2013-09-13 China's joining the World Trade Organization at the end of 2001 signifies a milestone in the country's global integration after two decades of economic reforms that have fundamentally transformed the economic organization of China. This collection seeks to identify the gendered implications within China of the country's transition from socialism to a market economy and its opening up to international trade and investment. The changes have created greater wealth for some, while at the same time, serious gender, class, ethnic, and regional disparities have also emerged. Drawing from historical, analytical, and policy-oriented work, the essays in this collection explore women's well-being relative to men's in rural and urban China by looking at land rights, labor-market status and labor rights, household decision-making, health, the representation of women in advertising and beauty pageants. This book was previously published as a special issue of the journal, *Feminist Economics*, the official journal of the International Association for Feminist Economics (IAFFE). All contributions have been subjected to the journal's rigorous peer review process and comply with the journal's editorial policies, as overseen by the editor, Diana Strassmann, and the journal's editorial team, including the associate editors, the editorial board, numerous volunteer reviewers, and the journal's in-house editorial staff and freelance style editors. The special issue and book have been made possible by the generous financial support of Rice University and the Ford Foundation-Beijing.

**Male Idols and Branding in Chinese Luxury** Amanda Sikarskie, Lan Lan, Peng Liu, 2022-12-29 Challenging the Western view of idols as objects of worship, this book explores the role that male idols play in fashion and cosmetics brand marketing in mainland China, Hong Kong, and Macau; including the role of the female gaze. It examines idols in the more modern, pan-Asian sense of the word - as objects of social devotion, worshipped by the adoring masses and, in China and Korea, as objects of social

and moral uplift. The contemporary idol wields great power - the power to influence taste, and to sell - and *Male Idols and Branding in Chinese Luxury* focuses on their ability to arouse the consumer appetite to buy. In China, popular culture idols play a vital role in the luxury fashion and cosmetics industries as brand ambassadors and this volume fills a critical gap in the English-language literature on this key element of the marketing industry, bringing together authors from the United States and China, and featuring case studies on idols Wang Yibo and Xiao Zhan. Through considering the subtleties of branding and marketing in China, Korea, and Japan, and the relationship of Chinese idols to fans and consumers in other Asian countries, the authors delve into brand-idol collaborations, particularly through lenses of brand image and toxic fan culture.
