China News Analysis, 1964 Every 25th number is an index to the preceding 24 numbers. Cumulative lists of contents in various numbers.

The Chinese Army Today Dennis J. Blasko, 2013-06-17 The Chinese Army Today is a comprehensive study of the Chinese military, examining its ground forces in a level of detail not found in any other contemporary works. This new, revised edition has been fully updated to take account of recent changes in the institution. In 1999, the military modernization program of the Chinese People's Liberation Army increased in intensity and achieved a focus not seen in the previous two decades. Based primarily on actual Chinese sources, this book details these changes and puts them in the context of the many traditions that still remain. Written by a retired professional military officer who has served in China, the text uses first-hand observation of the Chinese military and three decades of military experience to weave many disparate threads from official Chinese statements, documents, and media reports into an integrated whole. The author also conducts an in-depth exploration into the many forces that constitute the People's Liberation Army. This is an essential book for all students of Chinese military and security affairs, and highly recommended for students of Chinese Politics, Asian Security, and International Relations and Strategic Studies, in general.

Newspaper Press Directory, 1928

Routledge Handbook of Chinese Media Gary D. Rawnsley, Ming-yeh T. Rawnsley, 2015-04-24 The study of Chinese media is a field that is growing and evolving at an exponential rate. Not only are the Chinese media a fascinating subject for analysis in their own right, but they also offer scholars and students a window to observe multi-directional flows of information, culture and communications within the contexts of globalization and regionalization. Moreover, the study of Chinese media provides an invaluable opportunity to test and refine the variety of communications theories that researchers have used to describe, analyse, compare and contrast systems of communications. The Routledge Handbook of Chinese Media is a prestigious reference work providing an overview of the study of Chinese media. Gary and Ming-Yeh Rawnsley bring together an interdisciplinary perspective with contributions by an international team of renowned scholars on subjects such as television, journalism and the internet and social media. Locating Chinese media within a regional setting by focusing on 'Greater China', the People's Republic of China, Taiwan, Hong Kong, Macau and overseas Chinese communities; the chapters highlight the convergence of media and platforms in the region; and emphasise the multi-directional and trans-national character of media/information flows in East Asia. Contributing to the growing de-westernization of media and communications studies; this handbook is an essential and comprehensive reference work for students of all levels and scholars in the fields of Chinese Studies and Media Studies.

Russo-Chinese Energy Relations Stephen Blank, 2006 This report makes the point that in both Russia and China it is politics and not market or commercial considerations that largely drive energy relationships with each other and the outside world. For both countries, energy and energy security is regarded as a strategic asset and/or objective that are at risk from outside forces. The conditions that each state has attached to their energy policies ironically preclude the kind of easy cooperation seen in other strategic and political issues between Moscow and Beijing. In both Central and Northeast Asia, Russia has blocked Chinese efforts to realize its version of energy security, yet it has not been able to come up either with the resources or means for a coherent policy of supplying China with reliable quantities of energy that would lead China away from non-Russian producers. The under-fulfilment of the potential for Russia to supply China will continue and continue as well to be a source of strain in their relationship.

The Oxford Handbook of Women, Peace, and Security Sara E. Davies, Jacqui True, 2019 Passed in 2000, the United Nations Security Council Resolution 1325 and subsequent seven Resolutions make up the Women, Peace, and Security (WPS) agenda. This agenda is a significant international normative and policy framework addressing the gender-specific impacts of conflict on women and girls, including protection against sexual and gender-based violence, promotion of women's participation in peace and security processes, and support for women's roles as peace builders in the prevention of conflict and rebuilding of societies after conflict. Implementation within and across states and international organizations - and within peace and security operations - has been slow despite significant transnational advocacy in support of the WPS agenda. The Oxford Handbook of Women, Peace, and Security brings together scholars, advocates, and policymakers to provide an overview of what we know concerning what works to promote women's participation in peace and security, what works to protect women and girls from sexual and gender-based violence and other human rights violations, and what works to prevent conflict drawing on women's experiences and knowledge of building peace from local to global levels. Just as importantly, it addresses the gaps in knowledge on and the future direction of scholarship on WPS. The handbook particularly aims to build on the findings from the 2015 Global Study of Resolution 1325, commissioned by the UN-Secretary General. Over the course of six sections, the handbook addresses the concepts and early history behind WPS; the theory and practice of WPS; international institutions involved with the WPS agenda; the implementation of WPS in conflict prevention, peace operations, peace building, arms control, human-rights protection, and protection of civilians; connections between WPS and other UN resolutions and agendas; and the ongoing and future challenges of WPS.

The Evolution of China's Banking System, 1993–2017 Guy Williams,2018-06-28 This book traces the development of China's banking system through the first 25 years of China's socialist market economy up to the present. It examines how China's leaders have chosen their own path for reforming and regulating the banking sector and shows how this approach has differed significantly from the neoliberal approach promoted by the West. The book demonstrates the effectiveness of the Chinese approach, contrasting China's relative success in weathering the Asian financial crisis with the huge disruption experienced by other East and Southeast Asian nations which had followed the neoliberal model much more closely. The book explains how China's officials were able to resist the persistent efforts of foreign financial institutions to gain control of China's financial sector, particularly around the time of China's entry to the World Trade Organization. It argues that China's increasing influence in international financial institutions after the global financial crisis can help mitigate the risk of future financial crises and promote global financial stability.

Computer Science and Education Wenxing Hong, Yang Weng,2023-05-13 This three-volume set constitutes selected papers presented during the 17th International Conference on Computer Science and Education, ICCSE 2022, held in Ningbo, China, in August 2022. The 168 full papers and 43 short papers presented were thoroughly reviewed and selected from the 510 submissions. They focus on a wide range of computer science topics, especially AI, data science, and engineering, and technology-based education, by addressing frontier technical and business issues essential to the applications of data science in both higher education and advancing e-Society.

The China Reader David L. Shambaugh,2016 Chronicles the diverse aspects of this transition since the late-1990s. It is comprehensive in scope and draws upon both primary Chinese sources and secondary Western analyses written by the world's leading experts on contemporary China ... covers the full range of China's internal and external developments.--From publisher description.

China's Grand Strategy Lukas K. Danner,2018-02-14 This book describes the main contradictions in China's actions on the world stage—peaceful vs. assertive—through a culturally informed framework that takes into account China's historical memory and political culture. The author analyzes nine cases, including the Asian Infrastructure Investment Bank (AIIB), as examples that show both China's commitment to peace and development in the region, as well as its concerted effort to introduce alternative institutions on the global stage that could challenge the hegemony of the West and Western values.

Chinese Military Reform in the Age of Xi Jinping: Drivers, Challenges, and Implications Joel Wuthnow, Phillip Charles Saunders, China's People's Liberation Army (PLA) has embarked on its most wide-ranging and ambitious restructuring since 1949, including major changes to most of its key organizations. The restructuring reflects the desire to strengthen PLA joint operation capabilities- on land, sea, in the air, and in the space and cyber domains. The reforms could result in a more adept joint warfighting force, though the PLA will continue to face a number of key hurdles to effective joint operations, Several potential actions would indicate that the PLA is overcoming obstacles to a stronger joint operations capability. The reforms are also intended to increase Chairman Xi Jinping's control over the PLA and to reinvigorate Chinese Communist Party (CCP) organs within the military. Xi Jinping's ability to push through reforms indicates that he has more authority over the PLA than his recent predecessors. The restructuring could create new opportunities for U.S.-China military contacts.

Decoding **China News 247 English Paper**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its ability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
